# **Events Improve Outlook for Law School**

Three developments occurred in January that appear to bode well for the future of the Marshall-Wythe School of Law.

The events relate to the construction of a new law school, of the new National Center for the State Courts, and the appointment of two distinguished legal figures to the faculty at William and

Governor Mills E. Godwin Jr. '36 included \$5.6 million for the new law building in a list of capital outlay projects recommended to the General Assembly. Funds for the projects, however, depend on the passage of a \$97 million tax package, and it will probably be late February before the Assembly makes a decision on the proposed taxes.

Almost simultaneously with the Governor's recommendation came word from the Honorable Warren E. Burger, Chief Justice of the United States, of a \$1 million gift from the Law Enforcement Assistance Administration to complete the funding of the \$3.25 million National Center for the State Courts. The Center and the new law school building, if it is

**Governor Godwin** 

funded, will be built adjacent to each other on the William and Mary campus.

Construction is expected to begin soon on the Center, with completion projected for late 1977 or early 1978.

**Chief Justice Burger** 

President Graves commented on the importance of the National Center to William and Mary's efforts toward a new law school building.

"Your continuing support of the Na-In a letter to the Chief Justice, tional Center for State Courts and the great leadership which you have shown to bring it to reality is very gratifying." Dr. Graves said. "The momentum for the National Center is of course directly related to the success of our efforts for a new building for the Marshall-Wythe School of Law.

Friends of the Law School were also heartened by the announcement that Tom Clark, retired United States Supreme Court Justice, and Glenn R. Winters, executive director of the American Judicature Society in Chicago, have been named to the first Tazwell Taylor Professorships at the School of Law. As such, they will serve as jurists-in-residence during the second semester of the 75-76

The two professorships have been established from endowments which have been set aside for curriculum enrichment and matching state funds from the Eminent Scholars Fund established under the first administration of Governor Godwin. They honor two members of the Tazwell Taylor family of Norfolk, Va.

From left to right are Randy Davis, outgoing Society president; Mrs. Jean Canoles Bruce, who succeeds Davis; Mrs. Harriet Nachman Storm, the new secretary-treasurer, and John F. Morton Jr., who will continue as vice president of the Society.

Mrs. Jean Canoles Bruce '49 will lead the Alumni for the coming year.

Mrs. Bruce, a resident of Norfolk, was elected president at the Society's meeting in late January in Williamsburg. She succeeds Colin R. "Randy" Davis '50, Suffolk, who has served as president for the past four years - longer than anyone else since the Society was founded in 1842. Davis is retiring from the Board.

Mrs. Bruce has served for two years as secretary-treasurer of the Society. In addition, she has been a member of the Fiscal, Planning, and Personnel Committee and has served as chairman of the College Relations Committee.

John F. Morton, Jr. '58, New Orleans, was re-elected vice-president of the Board. Mrs. Harriet Nachman Storm '64, Hampton, succeeds Mrs. Bruce as secretary-treasurer.

# College Budget Outlook for 76-78 **Appears Austere**

How to meet the continued higher costs of maintaining William and Mary's standards of quality, in the face of a pinched State budget outlook for 1976-78, is certain to be the subject of close administrative scrutiny before spring.

The Virginia General Assembly has under consideration a recommendation by Governor Mills E. Godwin, Jr., which would allocate to William and Mary adequate funds for some operational expenses, but insufficient sums for other

The Governor recommended a budget of some \$36 million for educational and general purposes for the College. This is 23.6 per cent more than the College received in 1974-76, but only about 91 per cent of its total request for 76-78.

Of the \$36 million, \$22 and one-half million would come from the general fund of the Commonwealth while the remainder would come from tuition and local resources.

Only two minor capital outlay projects were included in the budget, but funds for two other critical projects -- the \$5.6 million law school and a \$1 million plant services complex renovation -- are included in a list of projects that would be funded by a special \$97 million tax package recommended by the Governor.

Among areas with inadequate 1976-78 funds are library acquisitions, student assistance and work-study funds, and faculty salary increases.

Faculty salary increases are especially crucial in order to retain the best teachers, and to stand a chance of recruiting the highest-qualified new ones. Only enough funds for a one-time 4.8% salary increase for the two years were placed in the Governor's budget recommendation,

Cont. from P.-1

but the rate of increase was based on 1974-75 figures rather than this year's, meaning that the actual funded increase over 1976-78 would be less than 4.8%.

Student assistance and work-study funds are critical to enabling deserving students to obtain a William and Mary education, especially if tuition and fee rates are raised for next year to help meet fiscal needs. One of the main goals of the effort to attract private funds has been to meet student assistance needs.

William and Mary's tuition and fee rate this year is \$944 for Virginia students, the highest among Virginia state-supported colleges and seventh highest in the nation among all 439 state colleges and universities, according to figures released by two Washington educational organizations. The College's non-resident tuition and fee of \$2,242 is also highest in Virginia and tenth highest among the nation's state colleges and universities. It is the first time such a sweeping nationwide comparison of rising costs at state colleges and universities has been made.

According to the studies, William and Mary's in-state tuition and fee is 76% above the average among state colleges and universities, and its out-of-state tuition and fee is 68% above the average.

For in-state students, the William and Mary fee is exceeded by Cornell, the University of Vermont, Temple, Pitt, Penn State and the University of Rhode Island. For non-resident students, William and Mary's charges are surpassed by Vermont, University of Michigan, Cornell, University of New Hampshire, Temple, Pitt, University of Colorado at Boulder, Penn State and Wayne State University.

William and Mary's resident fees are 25% above the average for Virginia state colleges and universities, and non-resident charges are 52% above the Virginia

William and Mary charges are significantly below those in effect at most privately supported colleges and universities, especially at the schools to which the College's academic programs are most often compared. But still, any consideration of increasing them is expected to be taken cautiously.

## **Bill Proposes CNC Separation**

Lewis McMurran, delegate from Newport News, introduced the bill which vould give CNC independent status effective July 1, 1977.

In order to provide sufficient time for orderly transition to a separate board of visitors for CNC, the bill sets up appointment of a 12-member CNC board, effective this July 1.

The act also provides for both boards to allow joint use of library facilities, laboratories, classrooms, and faculty.

Christopher Newport has been a branch of William and Mary since it opened its doors as a 2-year institution in 1961. It became a fully-accredited 4-year college in 1971.

William and Mary's Board of Visitors has expressed no opposition to the separation of the two colleges. At the same time, it said it would be pleased to continue to govern CNC if that is the decision of the General Assembly and the Governor

These are some of the buildings that would be replaced if William and Mary receives some \$1 million in capital outlay money to renovate its plant services complex. The renovation is included in a list of capital outlay projects that would be funded by a \$97 million tax package proposed by Governor Godwin. The package also includes money for a new law school building.

half-way point in September when a series of new departmental moves is completed.

Dr. George R. Healy, vice president for academic affairs and chairman of the College Space Allocation Committee, said the new moves will bring classroom utilization at William and Mary to 83.2% of maximum under State Council of Higher Education guidelines.

When the Committee was established in 1973-74 under the chairmanship of Carter O. Lowance, the College's rate of classroom utilization was only 64.3% of maximum under guidelines which SCHEV established in 1972-73. Lowance, then Executive Vice President at William and Mary, is now special amphitheatre-type lecture halls which

Progress in meeting SCHEV guidelines has been achieved largely by moving classrooms out of residential facilities, and by converting appropriate classrooms into offices and related space to bring the College closer to the amount of such space to which SCHEV guidelines would entitle it. In the process, Dr. Healy reported, student living space has been provided for about 130 additional students, and the number of classrooms has dropped from 111 to 92. Some of the underused class space is tied up in five

Working with minimal renovation funds, largely from repair and renovation reserves, the College this summer will convert five former fraternity lodges, now used by a part of the English Department, into small residence units for 30 students. The English faculty in the lodges will move into a portion of the former chemistry building, Old Rogers Hall. The Office of Information Services will move from the Old Western Union Building into Old Rogers Hall, and the Psychological Counseling Center will occupy Old Western Union after limited renovations.

New classroom utilization rates as a result of these moves were calculated using SCHEV guidelines by Dr. Donald W. Herrmann, Director of Institutional

# **Thorne Collection Given to College**

**Tom Thorne** 

A collection of over fifty paintings by professor emeritus of fine arts Thomas E. Thorne has recently been added to the Art Collection at William and Mary. The artist, a member of the fine arts faculty at the College for 35 years, has offered the collection as an extended loan.

available for the decoration of faculty and exhibitions in museums throughout the administration offices and are now on display throughout the campus. This collection includes oils, acrylics and watercolors painted by Thorne during the past 35 years. A few of the paintings are mounted in frames carved by the artist.

The remainder of the paintings are on display in the fine arts department and will be used as part of the College's teaching collection for art history and studio classes. Prominent among these is Thorne's "Windmill Series," a group of ten paintings of the Williamsburg windmill designed to illustrate different treatments, from Impressionism to contemporary styles, of the same motif. Most of these paintings were done between 1961 and 1963 and were the subject of a classroom television program in 1963. One of the windmills, illustrating the style and technique of the action painters, was painted in approximately ten minutes

during the actual filming of the program.

The windmill paintings, as well as a number of other paintings in the loan collection, were displayed in a special exhibition of Thorne's works which was sponsored by the department of fine arts in the winter of 1973. Other paintings in Forty of the paintings have been made the collection have been included in

> Another item of special interest in the collection is Thorne's portrait of Robert Andrews, the College's (and nation's) first professor of fine arts, for whom the present fine arts building is named. Lacking a portrait of Andrews from which to work, Thorne created a portrait from an 1804 silhouette projected on canvas. The portrait is on display in Andrews Hall.

> Thorne was a member of the fine arts department from 1940 until his retirement in June, serving as department chairman from 1943 to 1970. He taught studio classes in painting and art history courses in Colonial American art and architecture. He has lectured widely and has written for the press and scholarly journals as a specialist in the history of Colonial American painting.

The Board of Visitors of the College approved a resolution calling for a new doctoral degree program in clinical psychology at its meeting in late January.

The psychology program, which had been in the planning stages for the past two years, has already been endorsed by the William and Mary faculty. Before it can be implemented, it must go before the State Council of Higher Education for

The program will involve William and Mary, Eastern Virginia Medical College, and Old Dominion University, with assistance from Norfolk State College and coordination with Eastern State Hospital

and the Tidewater Mental Health Clinic. Only five American schools have programs such as the one proposed for William and Mary. The program stresses applied methods rather than the present heavy theoretical approach.

In other action, the Board approved a request for \$3,799,500 for the renovation of student housing, a total of nearly \$400,000 above a previous budget approved by the Board in November. The additional amount, which will come from Renewal and Replacement Funds of Auxiliary Enterprises, is due to inflation and new requirements in fire code regultions.

### THE SOCIETY OF THE ALUMNI OFFERS A UNIQUE EXPERIENCE....

# ALUMNI COLLEGE-JUNE 27 to JULY 2, 1976

# "COLONIAL AMERICA"

WALK THE STREETS OF WILLIAMSBURG, RECHARGE YOUR INTELLECTUAL BATTERIES WITH AN EXCITING WEEK OF LECTURES, SEMINARS, DISCUSSION GROUPS, FIELD TRIPS, ETC. ON ASPECTS OF COLONIAL LIFE AND THOUGHT DURING THIS BICENTENNIAL YEAR.

#### **Program Outline**

Each day will begin with a general session and lecture by one of the Colonial Williamsburg collection of experts followed by small group in-depth tours conducted by knowledgeable professional hostesses.

Afternoon sessions will consist of lectures, panel presentations and group discussions by members of the William and Mary faculty on such topics as religion, education, science, theater and the arts of the 18th Century.

Evening programs are planned and are optional, including movies of colonial life and skills, and a concert of 18th century organ music in the Wren Chapel. The opening buffet and the closing Colonial Feast, replete with 18th Century entertainment, are the only evening meal commitments. All other evenings you are free to enjoy your choice of Williamsburg's fine restaurants. Your room will be available through the weekend until July 4 at no extra charge.

Advance readings will be assigned to better prepare enrollees for the experiences awaiting them. It is the hope of the Alumni College staff that each person will be interested in participating so that they will benefit from this unique experience in a unique setting during this very special time in the history of this nation.

President and Mrs. Graves will host a reception for the "College Students" at the President's House (1732) on Wednesday evening, June 30.

Athletic and recreational facilities of the College will be available during free period times for children and adults. The Alumni College staff will assist in obtaining reservations in local eating establishments and at other tourist attractions.

#### **Accommodations**

Accommodations are designed to provide an inexpensive vacation for the entire family. Most portions of the program will be available by foot. Rooms and suites will be in Dupont

Dormitory and fees include linen service and medical fee for the College infirmary. Breakfast Monday through Friday and Lunch Monday through Thursday will be in College dining facilities.

#### Children's Programs

A program for children of alumni attending will be organized around the interests and ages of those children enrolled. Such activities as a tour of the Powell-Waller house in the restored area, the college greenhouse, a fossil hunt, several field trips, and an athletic recreational program, will be coordinated by the Childrens Program Director, and will coordinate with the adult program where convenient and appropriate. Only children between 7 and 18 will be accepted.

#### **Registration and Fees**

Reservations will be limited to 100 adults and all applications will be accepted after March 1, with some considerations being given to age and geographic distribution as necessary and if possible. This will allow all alumni to receive the Alumni Gazette and make application.

To register complete the tear-off form below and return with deposit or full payment.

The registration fee covers room, breakfasts and lunches, opening buffet and reception, Colonial Feast and reception, linen service, and all course materials except for books on the suggested reading list.

# Injuries, Road Losses Plague Tribe Season

By Bob Sheeran '67

In order to accomplish major success, a basketball team must win its share of games on the road. Developing the poise and confidence to handle the hostilities of the away crowd takes time. Head basketball coach George Balanis feels the Indians are "overdue" in their attempts to win outside of William and Mary

The Tribe won 13 of 16 at home last season but managed only three wins on the road.

"Twenty wins in a season seems to be the magic plateau everyone strives for but it can not be attained unless a team can get its share of victories away from home," commented Balanis prior to the start of the 1975-76 campaign. "We have a good young squad this year and the kids must overcome our inability to win as the visiting team. I feel certain statistics would reflect William and Mary has one of the worst road records of any team around during the past 25 years."

This season the Indians have had three golden opportunities to register wins on the road but failed to pull out the victories as home team momentum seemed to snatch up the "game breaker."

"We have come mighty close but since we are not playing horseshoes we don't get credit for them,' reflected Balanis.

W&M is looking to snap out of the jinx, and Balanis

feels once the squad is at full strength the Tribe could be in good shape down the stretch.

'We have had more injuries this season than I can ever remember having," commented the Tribe skipper. "Heck, we have three teams...the first string, the second string and the ham string.'

The Indians standout guard scoring leader, Ron Satterthwaite, has missed several games because of a sprained ankle. The All-Southern Conference performer was the league's top scorer (19.4) when he suffered his injury. Freshman guard Billy Harrington worked his way up to sixth man and was providing the Tribe with effective outside shooting when he came down with monoucleosis. Danny Monckton (sprained ankle), Mike Enoch (muscle pull), and John Lowenhaupt (knee sprain and dislocated finger) join the "battered ranks" of a team which Balanis says is "held together with adhesive tape."

Barring any further injuries and the healthy return of everyone, William and Mary could be tough to beat come Southern Conference tournament time at the end of February.

"If we get everybody back it will mean we have experienced depth at every position and in my opinion, a team is only as good as its bench," summed up

#### **Tribe Freshman** is All-American

Freshman Bill Watson has become William and Mary's first All-American in soccer. Watson was a sweeper on the last line of defense on a William and Mary soccer team that enjoyed its finest season ever. He received honorable mention on the NCAA's 1975 All-America soccer team.

"Bill can play just about any position on the field," soccer coach Al Albert said of the 5-11, 170-lb. native of Schroboro, Ontario. "He may play at midfield next year. He had a goal and four assists this year as a defender. He's the most powerful shooter we've ever had."

Watson was the only soccer player from Virginia to receive All-American recognition.

**RON RETURNS** 

The Tribe basketball team will look to the leadership and talent of junior guard Ron Satterwhaite in its quest for the conference championship. Sidelined with a severe ankle sprain in the seventh game of the season. "Silkie" resigned from the team in mid-season for what he described as "personal and religious" reasons. He was back a week later, however, and the team unanimously welcomed his return. The former Washington D.C. high school star averages around 20 points per game and excells in defense as well as offense.

President Graves, Gov. Mills E. Godwin Jr. '36, and William Spong, deandesignate of the Marshall-Wythe School of Law, were among nine personalities who narrated segments of CBS Bicentennial Minutes taped January 18 at the Sir Christopher Wren Building.

Members of the CBS staff from Los Angeles and New York, as well as a film crew from WCVE-TV in Richmond, spent nearly 12 hours shooting nine 'minutes' for nationwide telecast.

President Graves narrated a segment scheduled to be shown April 28 concerning a suggestion that the College be used as a hospital for wounded American soldiers. Former Senator Spong discussed a plea for independence made by Christopher Gadsen, another congressman from South Carolina, and Gov. Godwin told the story of Virginia's resolution for Independence. Spong's segment will air February 10, while Godwin will be the featured narrator May 15.

Abram T. Collier, chairman of the board of New England Mutual Life Insurance Company, is spending a month at William and Mary as part of the "Businessman-in-Residence" program originated by the Institute of Life Insur-

Begun in 1973, the Institute program is designed to increase the two-way communication between the academic and business world. Collier becomes the second executive to visit William and Mary under the program. Charles W. Kappes, senior vice president and general counsel of the Mutual Benefit Life Insurance Company of Newark, N.J., was Businessman in Residence here in 1974.

Collier's visit is sponsored by the College. During his stay he will present a series of six public lectures based on the theme "Institutions and Individuals," as well as lecture in various classes throughout the College and hold discussion sessions with the students.

The titles of lectures are: "How Individuals and Institutions Relate,' "How Institutions Operate," "How Institutions Think," "Sources of Institutional Vigor," "Causes of Institutional Ills," and "Is There a Future for Institutions and Individuals?"

A prominent businessman, Collier is chairman of the Institute of Life Insurance, a trustee of the American College of Life Underwriters, and he serves on the boards of New England Telephone and Telegraph, Houghton Mifflin publishers, and the William Underwood Company.

In the past six months, several thousand maps and College fact folders have been distributed.

Apart from its modern function, Room #100 has had an active history. During the College's early years, it was the Natural Philosophy classroom. At that time, the main academic disciplines were Moral Philosophy, which encompassed religion, ethics, rhetoric and logic, and Natural Philosophy, which included all the known sciences and mathematics. In the first half of the 18th century, Moral Philosophy was the more popular of the two, and was emphasized at Harvard and

At William and Mary, the opposite was century equivalent of Milligton, Small, and Rogers Halls combined with the Mathematics Department. According to Richard Carter, the Colonial Williamsburg Training Supervisor who worked extensively in developing the Wren building interpretation used by hosts and hostesses today, it must have been an exciting place. Both metaphysics and physics were taught, but not as we know them. Metaphysics was the philosophy of science and learning, similar to today's cybernetics. Physics included chemistry, mathematics, students learned surveying, cartography, astronomy, and how to construct musical scales using mathematical formulas. It was customary to invite New England Merchants National Bank distinguished intellectuals of the community and special guests to lecture to the

It was this atmosphere that drew Thomas Jefferson to the College, because of his interest in the field of Natural Philosophy. In Room #100 he studied under Dr. William Small, whom he credited with fixing "my destinies for life." Last autumn, Time Magazine presented the College with a copy of the portrait of Jefferson used on the cover of the special July 4, 1776, issue, in honor of his association with the College. It hangs in the room where he studied.

Historical evidence also indicates that true. The college excelled in the study of the College acted as Surveyor General of Natural Philosophy, for good reason. The the Colony of Virginia, a title bestowed single classroom, #100, was the 18th by the Crown to increase the College's revenue through licensing fees. As the mathematics professor supervised examinations given, it is probable that surveyors may have been examined there before receiving their commissions. In 1749, George Washington was one of the successful candidates. Later known as the 'Father of Surveying'', this commission was Washington's first public office.

Because of its link with the surveying profession, the Virginia Association of Surveyors chose Room #100 as the site for a Bicentennial exhibit of antique biology, and geology. In addition to surveying equipment. The display features an impressive array of 18th and 19th

John M. Farmer, known as "Jack" writes that, although he is a layman, he is now serving his third four-year term as a Probate Judge. The few law courses he took at the College have proven very helpful to him.

Mildred Daly Milton has had some very delightful trips to Leningrad, Kiev, and Moscow. She also toured many interesting spots in Germany, flew into Munich and took day tours to Garmisch-Partenkirchen with ascent to the Zugspitze which was a most interesting experience and that the Garmisch-Partenkirchen's setting is worthy of its renown as the metropolis of the Bavarian Alps. She also got in a few days of the OCTOBERFEST.

Irwin A. Jaslow, M.D., known as "Jazz", and his lovely wife, Emma, attended a William and Mary Chapter meeting in Providence, and Herbert K. Salter attended one in Boston. The meetings were cocktail receptions. Present Graves was the guest of honor in Boston.

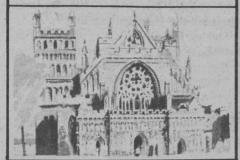

Sam Schlapfer of Pennington, N. J., attended the post-game party when William and Mary played Rutgers University in New Brunswick, N. J., on October 18, 1975. The party was held in the Somerset, New Jersey Travelodge Motel and was attended by about 80 alumni from New York, New Jersey, Connecticut and Virginia.

I received a letter from Margaret Van Oot, "Ootie", trying to separate me from a spare million dollars, although I am a Fund agent myself. Anyway, Ootie, if you are listening, I had already responded. Sorry but it was not a million this year. Wish it were.

Let us all start planning now to attend our 40th reunion in 1976. It really isn't far away - a few months!

Mrs. Margaret Heatwole Lockwood Box 526 Williamsburg, Va. 23185

Christmas has come and gone, but not without my enjoying that special privilege we all have here in Williamsburg to see the Grand Illumination of the City and the College. The President's House looks well lived in - There's the dog sitting on the stoop and people coming

For shame! I hear more from other classes than I do from ours. My roommate, Ann Davis Hunter, '37, writes that she and her husband recently took an alumni tour and loved it.

Don't forget, what may be inconsequential news about yourself may be of sincere interest to your classmates.

This spring get-togethers by classes are being planned for all College of William and Mary alumni living in and around the Williamsburg area, and possibly may even form a local chapter of the Society of the Alumni. It is indeed

disconcerting to read of all the activities of the many alumni chapters around the nation and not have one right here in Williamsburg. I'd like to hear from those of you in our class who live in this area - What do you say?

Mrs. Franklin D. Henderson (Bobby Clawson) Box 17, Irvington, Va. 22480

I thought I would be all retired from this job this year and at Homecoming those present requested that I remain as class reporter, so I guess we're all stuck!

It was a fabulous Reunion for our 35th and even those back for the first time since graduation agreed it was a super weekend. We had lots of opportunity to get reacquainted yet I'm not sure I actually had a chance to really chat with all 85-plus who returned. We had a joint cocktail hour and dinner Friday night with the class of '39, a cocktail party Saturday before the dinner dance plus of course the parade, President's breakfast, game and Sunday morning's revival get-together, plus impromptu gatherings in our hospitality room. And would you believe the weather was perfect?! Jack and Ann Garrett deserve a heap of thanks for all the planning and arranging they did - everyone was most grateful for all their efforts.

Those attending form our class were: From California: **Bob (Pinkie) and Kay** Newton, Al Alley, Betty Carter and Walt Zable.

From Florida: Charlie and Marjorie Frey, Elizabeth Cook (Cookie) Bassett, Gene and Hope Hunt White.

From Connecticut: Stan Ebb, Bill and Grace (Jimmie) Elliott St. John.

From Illinois: Joan Jarrett and Bob Woods.

From New York: Rosa Ellis Long, Willard and Florence Mode Smith.

From New Jersey: Otto and Anne Boysen, Len and Alice Owen, Lanny Styer Laslocky, Charlie Roberts, Bruce and Jane Groggins Beard.

From Pennsylvania: Guy and Shirley Griffin Allen, Betty and Austin Lee, Ed Miller, Eldon and Louise Eppinger Nuern-

From Delaware: Al and Ginny Fraser. From Maryland: Ed and Dinny Forwood Wetter, Evelyn Robinson Funk.

From Washington D.C.: Scrib and Ginnie Claudon Allen.

From Virginia: Jack and Ann Terrill Garrett, Caldwell Cason, Kitty Edge and Tweedy Bryant, T. and Leah Waller, John and Lennie Dillard, Jeanne Parker Collins, Shirley Sheain Battison, Virginia Garrett, Vince and Carolyn Moses Lusardi, Bob and Mazie Coggin Sanders, Dorothy Sease Rowland, Gervais Wallace and Nils Brekke, Bill and Ruth Ann Holzmueller Mahood, Frances Wagener Reed, Dorothy Gammack Poland, Ruddy and Margaret Tucker, Mary Willis O'Farrell, Anne Cross and Carney Pearce, Red and Jane Hern, Charley and Maureen Quittmeyer, Merritt and Mary Foster, Bill and Lillian Waymack Amburgey, Chester and Helen Jones Baker, Frank and Bobby Henderson.

And where do you live, Jack and Mary Ellen Lokey Geddes? I've forgotten. From the Alumni Office we have notes from: Dave Senft saying how much he regrets missing Homecoming. (unfortunately Infrequently Stainton, David Forer and Ellis Perry.

Since the incoming letters from the '42 Class are, mildly expressed, sparse, and since your Class Reporter believes in writing a full column, I decided to obtain news where the action is, and I went to Homecoming in Billsburg. It paid off, as you can see below. Although I know faces when I see them, I declare all I see to belong to the Class of 1942 (with apologies to other Class Reporters).

As a general observation of the Class of 1942: The women are holding up better than the men.

I saw some of your superb football players of yore. Jimmy Howard, who now sells Schlitz beer in Richmond; Bill Goodloe, who is a superintendent in Richmond. I still remember the field goal of Golden Toe Johnson who beat Navy 3 - 0. Them were the days!

Enough about football. Milton Green-

blatt owns several supermarkets in Waterbury, Conn. Arthur B. Kneipp has a youngster at the College. He is Director, Business Research and Development of ITE Corporation in Philadelphia. Myers N. Fisher is Assistant General Counsel of the Federal Deposit Insurance Corporation in Washington, D. C. William B. Lucas is the brother of Margaret Lucas, which is a H... of a way to introduce the Senior Vice President and General Counsel of Wheat First Securities, Inc., of Richmond, Va. Bill Sewell is a professor at the University of Virginia. Now you write me, Bill, and tell me (1) what you are teaching and (2) how you are keeping so young looking. Julia Woodbridge Oxrider now lives in Williamsburg, took library science at the College, and, at the time of publication, works in the law library. Her brother Hensley is a professor at the Southern Illinois University. He publishes the most interesting "Jack London Newsletter" and you can subscribe to it at 5 er year by writing to the De ment of Foreign Languages and Literature, Faner Hall, SIU, Carbondale, Ill. 62901. Blake Newton is now President of the Association of Life Insuranse Companies. His Deputy is also William and Mary and Charlie King is also an attorney in his office. Now you call me, Blake, and correct any and all mistakes. Better have a calling card next time. Tommy Crane was there, but the Alumni Office does not have his address. Better write me or them. Stephen Harris is a partner in Geddy and Harris in Williamsburg. He has the cutest blond boy! Regina Williams of Norfolk was a lady of leisure when I talked to her, and had

Tabb Taylor May lives Clarksville, Md. She spent one month in Britain with her husband, Bill. And held a reunion in London with Mary Patten Monyhan and her husband, Colonel. The Colonel is with SHAPE stationed in Belgium.

Joyce Mathes Malcolm moved to Escondido, Calif., where her husband teaches part-time at Mira Costa College. She would love to meet any William and Mary alumni in the Escondido and San Diego area. Joyce also sent me a Christmas card with photo - she still is a good looking dish.

Mary Ruth Black Dowling of Severna Park, Md., serves now as President of the Girl Scouts of Maryland. Daughter Lynn who graduated from the College in 1974, is enjoying a career and a new apartment, and the younger daughter, Dana, is at Shepherd College in West Virginia.

Mrs. Margaret Meinhard Steinbrecher is on the faculty of the University of Rochester Medical School.

Arthur B. Hanson, better known as Tim, is the Chairman of the Board of Governors of the National Graduate University in Washington, D.C. He moved for my appointment to that Board, and, naturally, he succeeded. In order to show to my gratefulness I quote from The Washington Star of September

"Arthur B. Hanson, a retired Marine General, was unconventionally in trousers with a left red leg, and green right leg. He wore a blue blazer bearing the insignia of the Royal Bermuda Yacht Club, juggling a cup of beer, a cigar and a pair of binoculars from hand to hand." Where did it happen? At the Balcony Potomac Club.

Reunion? Let's see...if this were 1946, and it were mealtime, we would probably be in the cafeteria, eating a wartimetype supper with rationed sugar, meat and butter; and we'd be listening to Johnny Mercer sing "ACCENTUATE the POSitive, eLIMinate the NEGative...". Right? If we were lucky we'd be at the Travis House for supper; and if we were REALLY lucky, we'd know the waiter, who would realize we were starved, and would, maybe, come around twice with the condiments! THAT's the way it

It's 1976, though, and we're all just as busy as we can be. Let's catch up with some of us, and see what's going on.

Greetings in our Bicentennial Year. There seems to be much alumni activity around the country as various groups have gathered this fall. Attending a post-game party when we played Rutgers Oct. 18, were Bette Hotopp van Aken of Somerset, N.J. and Wilma Spewak Galbraith of Watchung, N.J. There were about 80 alums in attendance from New York, New Jersey, Conn., and Va. Bette and Wilma wish more of our classmates had attended

In Boston on Nov. 11 a cocktail-reception was honored by President Graves attendance. Present from our class were Anne Moore Parker, who said it was delightful meeting, and Lou Hoitsma.

In Washington on Dec. 4 there was a pre-game reception before the basketball game with George Washington University. In attendance was Iris McCoy.

Anne Moore Parker also writes that her daughter Mary Katherine graduated Cum Laude from Boston College in June majoring in English and Drama. Her son is in Washington after graduating with honors from Georgetown School of Foreign Service.

Wish we could get some alumni activity going out here in the mid-west.

First off, I am so sorry that I didn't make it back to Homecoming but at least it brought lots comments and notes that I might otherwise not have received. I had really planned to attend until the last minute and there was so much here to keep me home that I just couldn't manage it.

Had nice letters and cards from many of you and if you want the column you

had better keep it up.

Bob Harper made it to the reunion. His son Curtis will enter William and Mary in the fall.

Obi and Mim Root also made it back to Homecoming. Others attending were Nancy and George Falck who claimed it was an excellent reunion. Nancy mentioned that Martha Belford Root was going to write and tell me in great detail about it but I am still waiting for that. Nicky said everybody looked pretty much the same, just a little more distinguished. How tactful Nicky is. Nicky did mention the marvelous slide presentation given by Bill Kepner. She felt it really rated many encores. And since Nicky's note I have received others saying the same. Woody and Yvonne Wayland also attended and fusses with me for not showing up. The Scofields, Joanne and Dick, also made it back. The real difference they noted was that the Lodge is further from the Campus than it used to be. Sue and Randy Davis also had a grand time. They enjoyed seeing, among others, Ellie Seiler and Barbara Campbell (I am sorry she didn't put in their married names.) Lots of others attended, among them Al and Kay Ayers, Walter Gander, Howard Wiseman, John Dayton, Yvonne Hickey Parker, Dare Wrenn, Jack Alley, Frank Teass, Irma Popper, Beverly Abrams, Doug an Barbara Leard, Dorothy Smith Wilson, William Burnett and M. Lyla Rubin Longman and husband Bruce attended Homecoming '75, for the first time in 19 years. The 'ole' College has really changed, hasn't it, Lyla? Hope

to see you at '76.

Three states have the 2nd highest number of 56ers: California, New Jersey, and New York. Your quiz for next time: Which state comes next with the 3rd highest # of '56ers? (Hint: Is it north of the Mason-Dixon line or south of the M-D line?)

I threatened to institute a "Where Are YOU?" question each time. Here goes round one. Where are you Samuel D. Cole (Calif.), Dolores Mannion Barker (N.J.), and M. Bradley Tonkin, Jr. (N.Y)? Let me know what you're doing, etc. If I don't hear from you within one month of the publication of this article, I will call you COLLECT to get the information!

I saw very few of you at Homecoming '75. Do hope to see lots of classmates for the '76 one. Do get your motel reservations in early. The Queen of England won't be coming to Billsburg, but everyone else will. As we begin to celebrate our Bicentennial, let me close with a quote from Carl Sandburg. The College and certainly the class of 1956 have been part of the strength, sanity, and wisdom of our nation:

"Always the path of American destiny has been into the unknown. Always there arose enough of reserves of strength, balances of sanity, portions of wisdom to carry the nation through to a fresh start with ever-renewing vitality."

Mrs. N. Davis Wrindle, Jr. (Polly Stadel) 7741 Rockfalls Drive Richmond, Va. 23225

## **Historic Room Aids Visitors**

(Anxious to assist the many thousands of visitors who come to William and Mary each year, the College has opened a new "Information Center" in Room 100 of the Wren Building. Lisa Liberati Offley '74, who operates the Center for Information Services at the College, recounts here the unique history of the Room.)

The College Visitor Information Center in the Sir Christopher Wren Building has opened another chapter in the colorful history of the room it occupies. Located across the hall from the Wren Chapel, the Information Center is a reference point for Bicentennial visitors who want current information about the College, including its size, curriculum, entrance requirements and extracurricular activities. Some questions are neither current nor predictable, however. They deal with geneology, furnishings and architecture of the Wren Building, and the College's history since 1693. Visitors often
