THE COLLEGE OF WILLIAM AND MARY

Democrats Debate at William and Mary PBK Exchange Attracts National Attention to College

BY HILARY HOLLADAY

A week before Super Tuesday, dozens of people prepared for Super Monday at William and Mary. Secret Service agents cased the campus. Workmen installed rows of telephones for the press. Students and faculty members vied in a lottery for tickets to the privately sponsored event. And minutes after the last performance of a musical in Phi Beta Kappa Memorial Hall, a determined 75-member crew began removing the play's elaborate scenery so the stage could be transformed into a sleek TV set.

The team effort enabled William and Mary to host the Democratic presidential candidates' last debate before the Southern primaries. Sponsored by the Democratic Leadership Council (DLC), the evening event on Feb. 29 was the focal point of the organization's two-day meeting in Williamsburg.

While members of the DLC filled up many of the auditorium's 800 seats, about 230 students and faculty attended along with a couple of hundred members of the press. The debate was televised live by the cable network C-SPAN.

An overflow crowd of about 800 students and other members of the College community viewed the debate on a large, closed-circuit screen in Trinkle Hall and then listened to a faculty panel discussion moderated by associate professor of economics David H. Finifter. Of the five candidates on hand in Williamsburg — Gov. Michael Dukakis, Rep. Richard Gephardt, Sen. Albert Gore Jr., Gary Hart and the Rev. Jesse Jackson — three visited Trinkle Hall after the debate. Dukakis, Hart and Jackson were all greeted warmly, but Jackson garnered the loudest and longest rounds of applause from the audience comprised mostly of undergraduates.

When the candidates walked on stage before the debate, the non-DLC audience in Phi Beta Kappa Hall's balcony took stock of the men who had suddenly evolved from media images to flesh-and-blood. Dukakis was the shortest, with the reddest tie. Hart had the reddest face. Jackson was the tallest, with the most dramatic hand gestures.

Those with good vision noted that Gephardt does have eyebrows, despite his reputation to the contrary. And those with extremely good vision observed that suave young Al Gore sported dark green socks, not black ones like everyone else. And all the candidates wore little yellow ribbons on their lapels, a tribute staged by Jackson in recognition of the troubles in South Africa.

After introductions by Hays T. Watkins LL.D. '82, rector of the College, and Virginia's Gov. Gerald L. Baliles, the show began. Moderator Judy Woodruff of PBS' "MacNeil-Lehrer Report" posed a series of hypothetical questions about the presidency of each candidate, and they in turn jockeyed for the cleverest answer, the best punch line, the emotional abstraction that would stir the crowd to applause. The debate brought to mind a political version of "The Dating Game," with the eager candidates trying to woo fickle voters.

Discussion covered the expected ground of economic policy, the plight of the homeless, and American dealings in the Middle East. It was the 24th round in a series of forums for the candidates who have clearly gotten to know, if not like, each

Above, former Virginia Governor Charles S. Robb, chairman of the Democratic Leadership Council, which co-sponsored the debate with William and Mary, talks with a colleague while, below, presidential candidate Richard Gephardt is interviewed after the debate in Phi Beta Kappa Hall.

Judy Woodruff of the MacNeil-Lehrer Report moderated the debate among presidential aspirants (left to right) Senator Albert Gore of Tennessee, the Rev. Jesse Jackson, former Senator Gary Hart, Governor Michael Dukakis of Massachusetts and Congressman Richard Gephardt of Missouri. Below, Jackson and Dukakis address students and faculty assembled in Trinkle Hall after the debate.

PHOTOS BY C. JAMES GLEASON AND S. DEAN OLSON

other in the course of studying rival policies, attitudes and campaign styles.

While Dukakis, Gore and Gephardt became spirited and sometimes vehement in their attacks on each other, Jackson played peacemaker and witty crowd-pleaser. Hart, decidedly low-key in his approach, seemed to share the audience's appreciation of Jackson's humor and was piqued only by Dukakis. He said the Massachusetts governor twice evaded Ms. Woodruff's questions.

Sometimes the candidates eased up on each other and took a few shots at President Reagan. Gore drew laughs when he recalled Reagan's blithe comments to reporters after the stock market crashed in October: "He said, 'They tell me I've got to go.' He's got a point there. I think he does."

And Jackson explained Reagan's economic policy as assuming "that the poor have too much money and the rich have too little. It's a reverse of Robin Hood."

When questioned about his alliances with establishment-funded special interest groups, the self-proclaimed anti-establishment Gephardt responded that a campaign gift doesn't always reflect a supporter's political bias. His reply drew a few murmurs of skepticism from the audience as well as those on stage. After Gephardt and Dukakis

locked horns on the issue for a few minutes, Jackson waved his arms and interrupted, "These two guys have eliminated themselves; I am the choice."

After the debate and his visit to Trinkle Hall, Jackson headed to a local Japanese restaurant for another round of campaigning. He engaged the crowd in a spirited exchange ("What's happening March 8?" "Super Tuesday!" "Who're you gonna vote for?" "Jesse!"). Meanwhile, Dukakis mingled with more than 1,200 fellow Greeks and fellow-feeling non-Greeks at a Williamsburg seafood restaurant. A select group paid \$1,000 to hobnob with him, less select supporters paid \$100, and William and Mary students got in free.

The event was not the first of its kind for William and Mary. In 1976, Gerald Ford and Jimmy Carter debated in Phi Beta Kappa Hall, and in 1983, the College hosted an international economic summit. In 1981, the College drew international attention when Prince Charles came to Phi Beta Kappa Hall to become an Honorary Fellow of the College at Charter Day. Director of university relations William N. Walker said the debate, though it required a great deal of careful preparation, was a credit to the College and an exciting episode in "a continuing tradition" at William and Mary.

Alumni Gazette

THE COLLEGE OF WILLIAM AND MARY

MARCH 1988

VOL. 55, NO. 8

1 The Democrats Debate

On the eve of Super Tuesday, the Democratic presidential candidates debate in Phi Beta Kappa Hall.

2 The Cummings Professors

Scholars from Yale and Delaware accept appointments as the first Cummings Professors of American Studies.

3 The Path to a Successful Career

The Office of Career Services provides a variety of resources, including outstanding alumni, to help students realize their career goals.

4 Witness to a Vanishing World

Dr. Vinson Sutlive records the history of a Third World Society that is rapidly vanishing in the onrush of civilization.

5 Alligator Wrestling

Wrestling with alligators in South America is just another day at work for Princeton graduate student Linwood Pendleton '85.

6 A New Sports Complex

Construction begins on a new \$6 million sports complex, the result of team work by College personnel.

7 Tribe Wrestling is State's Best

For the first time since 1979, William and Mary wins the state wrestling team championship and three individual titles.

11 Alumni College '88

Plan now to attend the newest edition of the Alumni College sponsored by the Society of the Alumni.

Special Insert:

Research at William and Mary

William and Mary is known for its teaching, but a remarkable amount of research goes on at the College as well.

Ringin' Far and Near

A Different Kind of Reunion

By W. Barry Adams

There are very few relationships that Americans enter into with as much pomp, sense of achievement, and pride as the associations formed between their hearts and alma maters. The bond becomes perhaps the longest attachment and source of

identity that many of us ever know.

Regardless how far we stray from the physical structure, the mental exercises created in the classroom are forever part of our thought processes. We often find that the words and formulas, once so descriptive and challenging, will reappear throughout our lives and rattle our consciousness with memories.

The classroom, now replete with overhead projectors, video tape players, and motorized chalkboards, remains the single unifying experience traced through our alumni lineage. Students attending William and Mary today will inevitably share a common intellectual heritage with the thousands of alumni who studied and labored in classes before them.

This June alumni will have an opportunity to rediscover the academic environment, which more often than not was the determining factor in their choice of universities and colleges. Alumni College '88 is a different kind of reunion. It will link alumni with the faculty and classrooms of William and Mary in the 1980s. But for the alumni, families, and friends attending the three-and-a-half-day program, it promises a reawakening in spirit and intellectual stimulation that are endemic to one of the nation's best institutions.

Alumni colleges are certainly not new phenomena — they have been sponsored on campuses for over 30 years. Their historical profile can

be traced back to the 19th century when the Folk Schools were instituted by Denmark's Bishop Grundvig. The bishop, acutely aware of the identity crisis that gripped the nation following military defeat and subsequent loss of territory, hoped that the Folk Schools would "help those attending them develop a sense of purpose which would strengthen them as individuals and also improve the morale of the nation."

Alumni College '88 will afford participants an interdisciplinary survey of the literary, political and religious world that ushered in the accession to the throne of King William and Queen Mary. Vocal and instrumental music of the era will be performed by distinguished faculty of the music department and the decorative arts of the period will be the focus of a tour at the DeWitt Wallace Decorative Arts Gallery.

When combined with opportunities to participate in recreational activities and tours the educational vacation appears complete. It will be a relaxing atmosphere to stimulate the mind and exercise the body.

This year's topics will provide ample appreciation of the events and disciplines that are linked to the establishment of your alma mater — highly appropriate for an institution approaching a 300th birthday. Alumni College will indeed be a reunion of a different nature. As a participant of another program remarked, "It rejuvenates the alumni soul."

On behalf of The Society of the Alumni and The College of William and Mary I look forward to welcoming you on your return to the classroom June 9-12.

(For a detailed brochure and registration form send a postcard to: Alumni College '88, The Society of the Alumni, P.O. Box 60, Williamsburg, VA 23187 or call (804) 229-1693. Deadline for enrollment will be in late May.)

Scholars Named Cummings Professors Endowment Established for Minority Scholar-Teachers

Two prominent scholars have been named Cummings Professors of American Studies at William and Mary, the first permanently endowed professorships for distinguished minority scholar-teachers in the faculty of arts and sciences.

Gloria T. Hull, a professor at the University of Delaware, will be the Cummings Professor of American Studies and English, and John H. Stanfield II, an associate professor at Yale University, will be the Cummings Professor of American Studies and Sociology.

The professorships are funded by two endowments, established at William and Mary in 1986 and 1987, by The Frances L. and Edwin L. Cummings Memorial Fund of New York City.

"One of our highest institutional priorities is the number of minorities on our faculty, and for that we are grateful for the support of the Cummings Fund," said President Verkuil.

"Moreover, these outstanding scholars, and they are just that, will also have a lasting impact on our program in American studies."

Hull, an accomplished poet whose academic specialty is minority women writers, is a visiting scholar this year at Stanford University. She is the editor of three books on black women's studies and author of "Color, Sex and Poetry: Three Women Writers of the Harlem Renaissance" (Indiana University Press, 1987).

A native of Shreveport, La., Hull received an undergraduate degree summa cum laude from Southern University and master's and Ph.D. degrees from Purdue University. She joined the University of Delaware faculty as an instructor in 1971 and was promoted to assistant, associate and full professor. In 1983 she served as acting director of the university's women's studies interdisciplinary program.

Hull has been the recipient of a Rockefeller Foundation Fellowship, a Mellon National Fellowship and a Fulbright Fellowship.

Stanfield joined the Yale faculty in 1981 as assistant professor of sociology and African and Afro-American studies and was named associate professor in 1984. He is a leading authority on the ethics and organizational history of philanthropy, the

sociology of knowledge, and black intellectual history and thought.

A native of Rome, N.Y., Stanfield received an undergraduate degree magna cum laude, summa cum laude in sociology, from California State University, and master's and Ph.D. degrees from Northwestern University. Before his appointment at Yale, he taught at the University of Tennessee, Knoxville, and the University of Texas at San Antonio.

Since 1984, Stanfield has received grants totaling \$227,000 from the National Science Foundation for his research on the social sciences at white and black institutions before World War II. He has also received grants from the Ford Foundation, the Lily Endowment, the National Academy of Education and the Rockefeller Foundation. He is the editor of three books and author of "Philanthropy and Jim Crow in American Social Sciences" (Greenwood Press, 1985).

Both Cummings professors will join the faculty in the fall of 1988.

Board Nominations Solicited

Alumni are encouraged to place names in consideration for the Board of Directors, Society of the Alumni. Names and supporting statement should be forwarded to Lesley A. Ward '63, Chairman, Nominating Committee, Alumni Board of Directors, P.O. Box 60, Williamsburg, VA 23187.

The suggestions should be received no later than April 8, 1988.

The committee will nominate two persons for each of the five vacancies on the Board of Directors which will occur in 1989. The slate will be published in the May issue of the *Alumni Gazette*, and the election will be held in the fall.

Other members of the nominating committee are: John R. Blankenship '77, Baltimore; Anne M. Pratt '70, Williamsburg; Lota Spence Reid '33, Williamsburg; Keith W. Tomlinson '81, Alexandria.

After publication of the slate, nominations may also be made by petitions by 75 active members of the society. Such petitions must be received by the chairman of the nominating committee no later than July 15, 1988.

More than 55 alumni volunteered their services for Career Exploration Day on Jan. 30 at William and Mary. Sponsored by the Society of the Alumni and Career Services office, Career Exploration Day attracted 500 students who attended 20 panel discussions on different career fields. Among those involved in the activities were (seated) Anne Ward '77, Cathie Calvert '69 and Alison Fortie '68; standing: Bob Newman '83, Bob Hunt, W. Barry Adams, executive vice president of the Society of the Alumni, John S. Entwisle '44, member of the Board of Directors of the Society, Mary Beth Wittekind '88, Pat Daniels '77, Beth Groundwater '78, Peter Atwater '83, Kevin Doyle '82, David Price '83 and Liz Irby '89.

Finding the Path to Career Success

Career Services Provides a Variety of Resources for Students

BY LISA HEUVEL '74

In the 1980s achieving the right mix of career success and personal fulfillment has come to be called "having it all." For men and women alike, that's quite a challenge.

At William and Mary, there's a constructive place for students to deal with their questions about the future: the Office of Career Services.

Its primary mission is to provide students with the skills and knowledge they need to make life-long career decisions. Increasingly, Career Services' resources are being shared and appreciated by students, alumni and employers.

There are career planning workshops, employer seminars, and workshops on resume writing, interviewing and job search strategies. The popular "Careers After College" booklet, now in its seventh edition, uses survey results to list job titles of William and Mary graduates, employers of graduates and additional resources for career opportunities.

In 1984, some 150 campus recruiters came to William and Mary. Last year, 221 employers conducted approximately 4,000 interviews. According to Career Services associate director Robert P. Hunt, the business community nationwide has come to value liberal arts graduates for their good communication skills and for their ability to deal with people and to solve problems. The new national perception of William and Mary as a "Public Ivy" has also drawn employer attention.

On the flip side, Career Services director Stanley E. Brown notes that liberal arts graduates still have to work harder to promote themselves. It often takes energy and career strategies to dispell the notion that history majors, for example, belong only in fields directly tied to history.

Mary Beth Wittekind '88 is a Phi Beta Kappa economics major, resident assistant and student director of the Career Speakers Series. She was one of a few students chosen nationwide for internships at J. P. Morgan Bank in New York City last summer.

Wittekind sees her friends and acquaintances actively looking for life outside the ivory tower, even during summer vacation. "They're concerned with internships and getting good summer jobs, not just flipping hamburgers," says Wittekind. "They want to know how to get jobs in museum management — careers that are hard to get into, like public relations, and jobs that aren't recruited for on campus."

According to Wittekind, who coordinates alumni presentations of their career fields, the series at-

tracts freshmen and sophomores as well as upperclassmen.

"Thanks to participating alumni, the series has been successful this academic year. Throughout the fall, over 150 students attended seminars ranging from banking to architecture."

Career Exploration Day, which is jointly sponsored by the Society of the Alumni and the Office of Career Services, is also a highlight of the academic year. Held this past January 30 in Richard Lee Morton Hall, 20 different panels spotlighted professions from banking to life sciences for more than 500 students.

Career speakers are selected from the Alumni Career Advisory Services or ACAS, a file of 1200 alumni and friends of the College. These individuals, the "lifeblood" of Career Services, have indicated their willingness to have current students and alumni contact them for placement assistance.

"I think we have a strong network of alumni," says Hunt. "Our alumni have been very active and very supportive. Career Exploration Day is an example of alumni commitment. They come back at their own expense and promote it."

Futures is a student-edited weekly publication with career information. Career Placement Notes are published twice a month to inform students and alumni of recent job openings.

Career Services also maintains credential files for recommendations to be mailed to employers, graduate schools and professional schools. These files are maintained for five years, and as Stan Brown explains, "We have 1500 requests from students and alumni each year to send out copies of recommendations, primarily to graduate schools."

"We send all graduates a placement questionnaire," says Bob Hunt. "That triggers alumni activity with them, and if they're looking for a job, puts them on our mailing list."

A bright spot in the tough job market is that William and Mary students have a lot of confidence in their own potential. "They have confidence that low starting salaries will lead to advancement, that they'll earn a good amount of money in five years," says Wittekind. "They want to do well, and get material things, but they don't expect that the first year out — that's a reality you have to face. People also have confidence they'll be able to manage both families and careers."

"With many of my friends and people I've met, they're reluctant to accept a job they won't enjoy," adds Wittekind, who plans either to study law or become a consultant in economics. "The emphasis at William and Mary is liberal arts: 'What will you enjoy?' The Office of Career Services tells people, 'Do what you will enjoy.'"

Stanley Brown (right) is director of Career Services while Bob Hunt and Pam Ewouds serve as associate directors.

A Phi Beta Kappa economics major, Mary Beth Wittekind is the student director of the Career Speakers Series.

If you'd like to be involved in any of the Career Services programs or need assistance in placement, contact Bob Hunt, Office of Career Services, The College of William and Mary, Williamsburg, VA 23185. The telephone number is 804-253-4604.

Witness to a Vanishing World

Anthropology Professor Records History of Iban People

BY ELAINE JUSTICE '74

Vinson H. Sutlive Jr. is one of a handful of witnesses to a world that is rapidly vanishing, a world of dense jungles, exotic plants and animals, headhunters and White Rajahs.

For the past three decades, Sutlive, professor of anthropology at William and Mary, has chronicled the life, culture and language of the Iban people on the Malaysian island of Borneo. There is an urgency about his work these days, because the Iban as a people are changing as rapidly as the once pristine rain forests they inhabited. Soon, the rain forests and the Iban culture will be lost to first-hand observers.

The Sarawak Literary Society, a government sponsored agency within the Federation of Malaysia, has recognized Sutlive's considerable knowledge of the Iban by commissioning him to write the first in a series of political biographies of those who played important roles in the country's history.

The man whose life Sutlive is chronicling was the chief of the Iban people, and to most Westerners his name is perhaps as enigmatic as his life: Tun Temenggong Jugah anak Barieng, or simply Jugah. "In many ways, Jugah is an example of the best features of the Iban people and their culture," says Sutlive. He is collecting data from newspapers and government documents for the past half-century, and from interviews with 200 people who knew Jugah. Among those Sutlive has interviewed is the first Prime Minister of Malaysia, Tunku Abdul Rahman.

The Iban are the largest native tribe on Borneo, concentrated in the East Malaysian state of Sarawak. A preliterate people whose language has only begun to be taught in the Malaysian schools this year, the Iban adapted to their tropical environment by shifting cultivation and headhunting, a terror tactic for which they became world famous.

Yet, the man named Jugah, born in approximately 1903 (the Iban kept only oral records since they had no writing system), transcended the ancient world of his youth as a nomadic hunter. "He led a large Iban force in joining the Australians who parachuted into North Central Borneo during World War II and liberated the area from the Japanese," says Sutlive. During the battles in Japanese held areas, Jugah restrained some of the Iban from taking Japanese heads, having once been a target of rival headhunters himself.

In 1953, Jugah was chosen to represent the Iban and other indigenous groups of Sarawak at the coronation of Queen Elizabeth II. Jugah's appearance in London with his long flowing ponytail "made an enormous impression," says Sutlive. "Certain of his qualities came to be called 'Jugahisms' by the British; one belief was that his hairstyle inspired the Beatles' look, with its long hair and bangs."

His status as a Western trendsetter notwithstanding, Jugah rose to the position of paramount chief of the Iban in 1955, and, under the new Federation of Malaysia, became the first Federal Minister for Sarawak Affairs. "Although Jugah's illiteracy was used as an excuse not to appoint him as first governor of Sarawak, he probably used his office more effectively than the governorship, traveling endlessly and representing the concerns of the Iban and other native peoples to the Malaysian government," Sutlive explains.

In 1974 Jugah resigned as federal minister to become the first President of the Department of Customary Law. "Customary law among different tribal groups in Southeast Asia is unbelievably elaborate but fairly uneven," says Sutlive. "Jugah worked to collect, standardize and codify customary laws of the Iban. The project continues and it may be the most significant contribution he made."

Sutlive himself has made significant contributions to the body of knowledge about the Iban, including an ongoing project to create the first modern comprehensive Iban-English dictionary. He interrupted that work for the biography of Jugah, which is to be submitted to the Sarawak Literary Society by December 1988.

In terms of both anthropological theory and historical preservation, Sutlive's research on the Iban

Vinson H. Sutlive Jr., professor of anthropology at William and Mary, has spent more than three decades studying the Iban people of Borneo in Southeast Asia. He is currently working on a book, commissioned by the Sarawak Literary Society, on the life of an Iban chief, a project that will take him to the island of Borneo for the second successive summer this year.

is vital to Southeast Asian scholarship because it brings forth new materials, previously unrecorded, for use by future generations.

An ordained minister, Sutlive graduated from Asbury College in Kentucky and the Vanderbilt University Divinity School where he received his bachelor of divinity degree in 1956. After he and his wife, now a reading specialist in the James City County schools system, spent a year in missionary school in Hartford, Conn., they were assigned to Sarawak by the Board of Missions of the Methodist Church in 1957.

Except for a three-year leave of absence to study for his Ph.D. in anthropology at the University of Pittsburgh, Sutlive spent the next 15 years in Sarawak, working in theological education and church development, translating the Old Testament from Greek and Hebrew to Iban, and studying and writing Biblical texts for the Iban people. In addition, the Sutlives raised their three young children, two of whom, Vinson III '77 and Thom '85, are William and Mary graduates.

For family, professional and political reasons, the Sutlives returned to the United States in 1972, and Sutlive accepted an appointment to the faculty at William and Mary. But his association with the

Iban people has continued. In 1984, he returned for three months on a Fulbright grant to study Iban urban migration, and last summer, accompanied by his wife, he returned again to begin research on the Iban chief. The Sutlives will go back again in May, enduring a 27-hour plane flight, to complete research for the book, which is due for publication in December. This time, they will travel to Australia as well to conduct interviews concerning the Iban chief.

For Sutlive, returning to Borneo in 1984 after a 12-year absence proved to be an emotional and cultural shock. The people and the island of Borneo have changed enormously over the past 30 years, he notes. The primary forests, which covered three-fourths of the island in 1970, are on the verge of destruction. The movement of native people into the cities parallels processes occurring throughout the world. And the rich fabrics of native cultures are being reduced to a familiar ready-to-wear sameness of Western origin.

"Where the people once paddled canoes up remote rivers, they now drive Toyotas, Volvos and Mercedeses on crowded city streets," he says. "Many have moved from longhouses in rural areas into townhouses in the cities."

Chapter Events

TRIANGLE

April 12

Dinner meeting with President Paul Verkuil. 6:15 cocktails, dinner following. Call Holly Rutherford-Allen at 919-929-1283 for details.

NORTHERN VIRGINIA

The Northern Virginia chapter announces its annual scholarship competition. Applications will be accepted from relatives of Northern Virginia alumni for either graduating high school seniors in 1988 who plan to attend William and Mary or students who are currently attending the College and have at least one year remaining. This year's scholarship is \$1,000. For applications and information, contact: Margaret Miller, 703-941-4278 or write to Mrs. Miller at 4130 Watkins Trail, Annandale, Va. 22003. Deadline is April 15.

NORTHERN VIRGINIA

April 18

Spring admission reception, George C. Marshall High School, 7:30 p.m. Contact Joanna Ashworth for further details, 1180 N. Utah Street, Arlington, Va. 22201, or 202-863-8565.

CLEVELAND

April 23

The Cleveland alumni chapter will hold an organization meeting at 10 a.m. at the Kirtland Country Club, Willoughby Hills, Ohio. Please contact Greg Althans at 111 Hazelwood Drive, Chagrin Falls, OH 44022, or 216-781-3700.

NORTHERN NEW JERSEY

April 17

Spring Admission reception for admitted students from the area. Contact Barbara Wheeler at 23 Knob Hill Drive, Summit, N.J. 07901 for further details.

Linwood Pendleton '85 displays an alligator he subdued in Peru where he is studying the jungle creatures at the Cocha Cashu Biological Station in Manu National Park on a research project for Princeton where he is a doctoral candidate in biology.

Alligator Wrestling:

Just Another Day at Work

BY BARBARA BALL

Linwood Pendleton '85 is five feet five inches tall and probably weighs in on the light side of 120 lbs, soaking wet. Listening to him talk about wrestling a giant South American alligator conjures up images of the man with a cape who flew and wore an S on his chest.

The slender, soft-spoken young man across the table, dressed in blue jeans and a faded denim jacket hardly fits the model of someone who patrols a river at night in a hollowed-out Indian canoe with a miner's lamp in search of crocodilians, some twice his size. But for the past several months Pendleton has become adept at living in the jungle and trading with the Indians while undertaking important work in biological science. Pendleton is currently a graduate student in biology at Princeton University and has been working at the Cocha Cashu Biological Station in the Manu National Park in Peru, studying the black and white alligators about which little is known. The animals have been hunted almost to extinction and are now protected by an international treaty.

It is "Un trabajo nada sencillo" (not an easy job) to trap and tag the alligators, reported the *El Comercio* newspaper of Lima in a full-page story in December about Pendleton and his work. Pendleton catches the alligators by baiting a trap with fish, usually piranhas, which flourish in the lagoons where the alligators are found. Once he has caught the animal in his lasso trap, Pendleton has to grab the body of the animal, haul it on board the canoe and transport it back to the base station to be weighed, measured and tagged. The alligators must then be returned to where they were caught; otherwise fierce territorial fights would ensue.

Pendleton has trapped animals that have reached a length of 13 feet and weighed over 300 pounds. Recently one giant alligator or caiman that weighed close to 500 lbs. gave Pendleton pause to consider whether he had chosen his career wisely. The caiman resisted all attempts to control him with ropes and at one point smacked Pendleton

with its tail, tossing him in the air and into the nearby river. It was one of the largest of the species that had been trapped but was too ferocious and large to handle and had to be released.

Later this year Pendleton plans to set up his own field station outside the Manu National Park at Lake Lagarto — Lake Alligator — where he can manipulate the alligators' environment to study growth patterns and social orders within the species. The park does not permit any alterations to the natural environment. But before he returns to Peru, Pendleton will go to West Africa in January as part of a Princeton field study with Professor John Terborgh who is interested in conservation on a worldwide scale. The group will visit rain forests to make plans for setting up a field station for biological inventories. Pendleton will also teach a course at Princeton this semester.

Pendleton says he is enjoying work in the field because it satisfies his twin desires to pursue biological research and find adventure. To accomplish both Pendleton has worked hard all along the way.

To start with, it took determination to convince people he would be able to make a success of college. When he wanted to leave Lafayette High School in Williamsburg early to start college he ran into a wall of objections: too young, too immature, won't do well, bound to fail.

Pendleton enrolled at William and Mary and four years later received a bachelor's degree in science with honors in biology and a Phi Beta Kappa key, as well as membership in Pi Eta Sigma and Alpha Lambda Delta honor fraternities. His senior year he shared the Outstanding Biology Senior Award with Karen Wiler who is also in graduate school at Princeton. Along the way he worked 30 hours a week at Williamsburg Community Hospital. He had set his sights on a medical career.

Work at the hospital convinced him that a career in medicine might insure a good income but left little time for anything else in life. When he had the opportunity to go to the Caribbean to study unusual forms of aquatic life that survive inside some exotic plants for his honors thesis, he thought he had found the perfect match of adventure and

research. But despite his attraction for the Caribbean, the research did not hold his interest.

Princeton University financed a trip to the Caribbean before classes started to help him find a research project. He began work with lizards at St. Croix and was happy to be back in the area but was not able to come up with a feasible research program. Then came the trip to Peru, and the Caribbean took a back seat.

Pendleton has travel tales that he enjoys relating. How important it is to know the native language and how quickly you can learn Spanish if you are in South America and not bi-lingual and your neighborhood includes members of The Shining Path — Maoist insurgents. How important it is to spend the extra money to buy field clothing rather than rely on a denim wardrobe, which the clouds of mosquitoes can penetrate. How to keep clothes dry during the rainy season when the river can rise rapidly and flood your tent.

Main contact for the researchers in the jungle are the Piros Indians, who have no written language but have learned to speak Spanish. They are a hunting, gathering tribe, very primitive with no concept of ownership, explains Pendleton. "They will take any item from the camp without a second thought, such as clothing, even spoons."

Researchers are equipped with a ham radio for contact with the university and have basic first aid equipment. Although they are biologists and have training in the identification of snakes, all, says Pendleton, avoid contact with any species.

Dealing with Peruvian bureaucracy is perhaps the most difficult part of the whole operation, says Pendleton. He recalls losing \$500 of equipment, because it was detoured. The airlines could not forward the equipment because customs officials would not hand it over. Rather they kept it for 70 days, then gave it away. "It is not like going to the Pan Am desk and demanding that your luggage be returned," says Pendleton.

Getting into the parks in the interior can also prove difficult, even if you have navigated the roads. One ministry issues passes to get into the park, and another regulates the guards inside the park. Neither will accept the credentials of the other.

But getting there is no small feat either. The team flies to Cusco in the Andes, where they stock up with supplies including alpaca blankets and gloves for the trip over the Andes and the cool nights in the jungle when the Fria winds blow. Travel into the jungle has to be scheduled because the only road is open three days a week from east to west and three days from west to east; it is closed on the seventh day. A sober driver is also a necessity. Accidents, the result of mistakes by intoxicated drivers, have often resulted in fatalities. At the missionary town of Shintuyua, the road ends at the river and researchers and their equipment are transported in two handmade boats powered by large outboard motors on the Manu and Alto Madre rivers to Cocha Cuscha, an ancient lake believed to be more than 1,000 years old.

"My principal interest in carrying out this research," says Pendleton, "is to study how black alligators share their territory with white ones, as well as among themselves, and what determines the size and kind of territory of each individual. Up to now it appears that the males stake out a territory and watch over the females."

Pendleton is also interested in the social structure of the animals. "I want to see if a 'pecking order' or hierarchy exists. It would also be interesting to know which animals rotate among the different lagoons in the river and how frequently and why broods of both the black and white alligators are found in some lakes and not others," he says.

It is known that Colombia has been artificially breeding white alligators. By controlling the temperature of the water and diet they have managed to double the rate of growth of the animals. In the natural aquatic environment of the jungle there are temperature changes from very hot during the day to fairly cold at night.

Plans are under way to set up an applied science research station in the protected zone around Manu which, in the case of the black alligator, could develop techniques for species management with significant commercial value. Highly prized for its hide, the black caiman was almost hunted to extinction. Because it is a major predator, the decline of the caiman also poses a threat to the ecological balance of the area. The alligators eat bottom-feeding fish and will also stalk water birds. They are not known to hunt man but if surprised in their nests or extremely hungry, they may attack. A man would be no match for a large caiman, says Pendleton, from personal experience.

The outdoor life is obviously something Pendleton enjoys. He missed his graduation from high school because he was on a camping trip out west with his dad. He plans, however, to exchange field gear for academic regalia when he finishes his work at Princeton so his dad, mom and brothers can see him receive his Ph.D.

Construction Begins on Sports Complex

Private, Public Funds Finance All-Purpose Facilities

BOB JEFFREY '74

Team work is cited as the key to success in athletic competition. A similar sense of group effort towards a common goal also epitomizes the exciting new sports complex under construction behind William and Mary Hall.

The complex includes a \$4.8 million physical education/recreational sports building and a \$1.2 million mini-stadium, which will be shared by physical education, recreational and intercollegiate sports. The Commonwealth of Virginia has provided funds for the physical education/recreation building, while private support will supplement state monies for the mini-stadium.

Ground was broken in Aug. 1987 for the physical education/recreation building. The multi-purpose facility, scheduled to be completed by early 1989, will replace venerable George Preston Blow Gymnasium. Planned by the Washington Design Group of Norfolk, the two-story edifice will encompass 44,000 square feet of usable space, accommodating three basketball courts, an eight-lane Olympic swimming pool, six racquetball and two squash courts, weight rooms, lockers, showers and offices for the recreational sports staff.

Just a tennis serve's distance away will be the mini-stadium, complete with two lighted playing fields and 2,500 fixed seats for spectators. One field is an irrigated natural turf field and the other will have a synthetic surface. The Anheuser-Busch Foundation assisted generously with a pledge of \$600,000 earmarked for the construction of a facility designed to serve as home to William and Mary's nationally prominent soccer program, as well as providing space for an expanded recreational sports program during evening hours.

Jerry Ritter, vice-president and group executive, Anheuser-Busch Companies, presented the first of three \$200,000 installments to President Verkuil at a dinner at the Kingsmill Golf Club in Williamsburg on Dec. 3, 1987.

"William and Mary's prominence is based on a partnership between public and private sectors," said President Verkuil. "We are grateful to the Anheuser-Busch Foundation for assisting us as we seek to enhance the quality of facilities and programs." Verkuil announced that the mini-stadium will be named "Anheuser-Busch Field."

The Anheuser-Busch gift was the result of a long-term relationship with W&M athletics. Tribe soccer coaches Al Albert '69 and John Daly have cooperated with Busch officials for 12 years in presenting the William and Mary-Anheuser-Busch Youth Soccer Tournament, featuring some of the nation's finest teams in the under-19, under-16, and under-14 age groups.

"Anheuser-Busch has been a tremendous supporter of the College over the years," said William and Mary athletic director John Randolph '64. "This is sort of the capstone for them to participate in a facility that will have significance not only for the College, but also for the community at large."

The prospect of a stadium designed with soccer in mind is a dream come true for Albert. "I think the facility will be the only one in the state with

Preliminary renderings above show the \$4.8 million physical education, recreational sports building and a \$1.2 million mini-stadium with a synthetic surface shared-use field and an irrigated natural turf field. The construction will be financed by a combination of public and private money, including a \$600,000 gift from the Anheuser-Busch Foundation.

artificial turf, lights and permanent seating. It will be unique, a real soccer stadium."

The mini-stadium will ease scheduling woes in Cary Stadium, which had served as the site for home soccer matches. On the practical side, the move from the narrower football field to the regulation-width (75-yards) field at the mini-stadium should suit W&M's style of play, according to Albert. "We're a technical team, not that physical. We need space to work," he said.

To Denny Byrne, director of recreational sports, the new complex will mean the ability to greatly expand offerings. In recent years recreational sports have broadened their scope to include a wide range of leisure activities such as outdoor recreation, club sports, and fitness and hydro-aerobics, in addition to traditional intramural competition. These activities reached approximately 5,200 students, with a total participation count of 37,000 in 1986-87.

"Our program needs are dictated by the facilities we have," said Byrne. "Right now, for instance, we're only able to offer outdoor activities from 3 p.m. to dusk, which eliminates students taking labs or late afternoon classes from participating. If we're able to schedule events from 7 to 11 p.m. on lighted fields, we should be able to expand the program by up to 40 percent."

Despite the current upgrading of athletic and recreational facilities, there is still much that needs to be done. Even with the Anheuser-Busch gift and additional state funds, \$300,000 is needed for the seats and pressbox to complete the mini-stadium project.

To complement the swimming pool in the phys-

ical education/recreation building, alumni and friends of the swimming team are campaigning to add a diving well/warm-up pool, along with 1,000 seats for spectators, rest rooms and offices. The diving well would provide a site for diving competition from the one-meter board and the three-meter platform. In addition, the proposed 20-foot-deep pool could be used for deep water work in water safety classes, advanced lifesaving programs and scuba classes.

The price tag for the Natatorium Expansion Project is approximately \$1.2 million. A single donation of \$100,000 is already in hand, as are some \$50,000 in donations and pledges, according to William and Mary men's swim coach Dudley Jensen. "The complete natatorium would establish a world-class swimming facility for the College and the community," said Jensen.

Though achieving sufficient levels of funding is a constant struggle, the construction underway behind William and Mary Hall is part of a campus-wide commitment to upgrade and renovate facilities as the College approaches its tricentennial in 1993. The challenges remain, but with team work, success can be attained.

"The physical education/recreation complex will improve the quality of life for all students, in terms of having better recreational facilities and work-out opportunities," said John Randolph.

"Best of all, there's a sense of partnership involved here, not only between us and Anheuser-Busch, but for recreational sports, physical education and athletics, to pool our resources and work together to create a place we can all use. To me, that's the way it should be," Randolph said.

Tribe Grabs State Wrestling Championship

Team Surprises Even Its Optimistic Coach

BY MARTY BENSON

The William and Mary wrestling team celebrates the first Tribe state championship since 1979. Holding the trophy are individual titlists (left to right) Thierry Chaney, 134 lbs., Rob Larmore, 167 lbs., and Mark McLaughlin, 142 lbs. The team is coached by former Tribe wrestling great Billy Pincus '79.

At the outset of the season, Head Wrestling Coach Billy Pincus set winning the state championship as his team's goal. "I'm a person who doesn't believe in competing in anything if your goal is not to win," Pincus said.

But even the 1981 graduate, an optimist who could make the likes of Will Rogers blush, held private doubts as to the possibilities of the Tribe's becoming the old dominion's top group of grapplers.

His team was young. Two of his best, 1987 national qualifiers Kevin Turner and Buzz Wincheski, were redshirting. Most of his wrestlers were could-be overachievers who probably were a year away.

"If I had had to bet on states at the beginning of the season, I wouldn't have bet on us," the former two-time state champion admitted.

Had he chosen to place a wager, the part-time coach who serves as a full-time psychologist at Eastern State Mental Hospital, would be a wealthy man. For the first time since 1979, William and Mary claimed the state title, winning in dramatic fashion on January 23 in Norfolk, edging Virginia 63 to 62 1/4. If possible, the final margin was even narrower than it sounds.

William and Mary entered the championship round with wrestlers at three weights — sophomore Thierry Chaney at 134, senior Mark McLaughlin at 142, and sophomore Rob Larmore at 167.

"I knew that in order to have any chance of winning the team championship, we had to win all three, and even then we needed a couple of breaks," Pincus recalled.

Even if the first two wrestlers won, which was by no means certain, Larmore would have to beat James Madison's Brian Kurlander, a 1987 All-America, the only one from the state of Virginia.

Chaney opened the championship door with a 5-4 win over John Viola of the University of Virginia, avenging an early season loss in which he was "beaten badly." Had the sophomore lost, Virginia would have won the title.

"There were a lot of happy people in the gym

Old Dominion University head coach Pete Robinson congratulates Mark McLaughlin who was named the state championship tournament's outstanding wrestler.

after that because it meant that three other teams had a chance to win it," Pincus said.

McLaughlin, who was named the tournament's outstanding wrestler, completed step two of the unlikely sweep when he downed Kris Selthousen of Virginia 8-3.

Larmore made it three Tribe championships and clinched the state title for William and Mary, winning 3-2, avenging a previous loss.

"I had made my mind up that this time I was going to stay in his face and not give him a chance to initiate the tempo," Larmore said. "If I got ahead I wouldn't sit on the lead.

For Pincus, the win was a sign of the program's arrival. It was especially sweet, because for the most part, the squad is like the old Oakland Raiders — a lot of people nobody else particularly wanted.

"U.Va. probably could have had any of these kids if they really wanted them, but they didn't," Pincus said.

Take McLaughlin. By winning the state championship, he accomplished something he had never done when wrestling for the Pingry School in New Jersey — three times he was runner-up. Not a bad

record, to be sure, but he wasn't heavily recruited. An outstanding student with a 3.4 grade point average, he liked what the College had to offer.

"I chose William and Mary because the school offered me an excellent academic curriculum and reputation as well as competitive Division I wrestling team. I wanted to become a doctor and be an All-American. William and Mary gave me the chance to do both.

Then there's Larmore, who transferred to the Tribe from the University of Tennessee, a perennial top-20 program. Things were going fine in Knoxville until the Volunteers decided they didn't want Larmore — or any other wrestler — after Rob's freshman year; they dropped the program. Larmore knew Tribe assistant coach Glenn Gormley from a high-school trip to junior nationals and gave him a call. Larmore brought another Tennessee refugee with him to Williamsburg, Wincheski, a native of Oswego, Illinois.

Also joining the team last year was another man without-a-country, heavyweight Damon Whitehead, another native of Oswego. Whitehead, who finished third in his class at the state championships as a sophomore, had enrolled at Hampton University and intended to wrestle there, until the coach left after the first week of school. He also got on the horn to see if he was wanted at William and Mary.

Chaney, who had a 27-0 as a senior at York High School, is one of the few top recruits on the squad. He picked William and Mary over national power Lock Haven State. Even with his high school credentials, he was one of the wrestlers Pincus thought might be a year away. Last year he was 19-20, but this year he was 26-5 after 19 dual meets and two tournaments. He also finished sixth in his weight class at the toughest tournament in the nation, the Midlands Open.

What would attract a guy like that to a program that calls home Blow Gym, an ancient structure that's about as gaudy as Mike Tyson's ring garb? Many things, one of them being Blow.

"It's a gladiator pit," Pincus said. "The fans sit above you and judge you. It gets very loud and intimidating in there. I'd much rather wrestle in there than in a big arena."

But the attraction goes far beyond a building. Pincus said he looks for the special kid, one that is overlooked by other schools but can be developed. He does go after the blue-chippers, but often can't compete financially.

"If it comes down to strictly a bidding war, we lose every time," he said. "We offer the intangibles. We now have gained the reputation of being honest and fair. We give 100 percent and expect that in return. We want the kid who can relate to that . . . My favorite part of the job is being able to associate with the guys on the team. They're outstanding people."

Perhaps McLaughlin manifests that philosophy best.

"Wrestling has molded a lot of aspects of my character, mainly my determination and intensity," he said.

Though he will have been graduated when next season rolls around, attitudes like McLaughlin's pervade the team, which will help the Tribe as it pursues Pincus' next lofty goal, a top-20 ranking in 1989.

Before you dismiss that as another one of Don Quixote's windmills, consider this: The wrestlers aren't that far away now. They recently dropped a one-point decision to 19th-ranked Wilkes College. Add Turner and Wincheski and another year of dedication and who knows?

SEASON SUMMARY

Journey with the Czars, van Gogh & Cezanne

La Belle Provence

CRUISE

Barcelona • Monte Carlo
September 3 — September 14, 1988

The picturesque *Costa Brava* in Spain. The history-laden *Cotes du Rhone* in France's "La Belle Provence." The sparkling, sundrenched *Cote d'Azur*. These are the destinations dreams are made of . . . three different yet equally enticing places linked by the mild climate and blue waters of the Mediterranean . . . and each featured in a delightful trip offered in September 1988.

Come savor the mystique of *Provence!* What makes this wedge of southern France so memorable, so distinctive, such a magnet for artists, chefs and poets? What attracted van Gogh and Cezanne here? Was it the clarity and brilliance of the surroundings, the Roman ruins, dark forests, tilled fields, beautiful flowers, rocky slopes, rich history? You be the judge!

The highlights of your trip? *Barcelona*, Europe's newest "in" city . . . Spain's cultured, coastal treasure and future Olympic site. *Monte Carlo*: glamour, leisure and royalty all rolled into one. Top, deluxe hotels. Most meals. And perhaps most special of all . . . a four-night *gourmet cruise* north along France's scenic Rhone River, on one of the most luxurious river cruisers ever built. Old quaint towns will be yours to explore as you go, along with some of France's finest cuisine.

A world of memories awaits you on this adventure, truly **UNE EXPERIENCE MAGNIFIQUE!** \$3150 per person from Washington, D.C. and \$3075 from New York, based on two per room occupancy.

The Journey of the Czars

June 27 — July 8, 1988

Explore the Soviet Union in the most comfortable, most convenient and most unusual way possible.

We depart in June, 1988.

INTRAV has chartered a river cruise ship built especially for Volga cruising.

Stroll through Red Square in **Moscow**. See the treasures of the **Armory**. Cruise from **Volgograd** to **Devushkin Island, Zhiguli, Ulyanovsk** and **Kazan**. Visit the **Hermitage** in **Leningrad**, and take a trip to **Petrodvorets**, sumptuous **Summer Palace of the Czars**. Attend the **ballet, opera or circus**.

All meals and sightseeing are included.

From \$2599 per person, round-trip from New York.

Class Notes

27

M. Carl Andrews
2814 Crystal Spring Avenue, S.W.
Roanoke, VA 24014

Dear Classmates:

It's a bit too late to write much about Homecoming, but what else is new? Only four of us made it to celebrate the close of our class' 60th reunion year: **Bruce (Buzzy) Stewart (and Martha), Joe Muscarelle (and Margaret), Tom Yates (and Kitty)** plus yours truly. Compared to the 16 who

returned for Olde Guard Day on May 1, that was a poor showing. Could it be that 82 is our average age?

And so, it was heart-warming to receive Christmas cards or letters from **Buzzy, Ed Wilshin, Tom Yates, Joe Muscarelle, Max Brockenbrough Houghland, Bill Morrow, Frank Hopkins, Bill Hogan and Len Born**, more or less in that order.

This gets to be a lonely task, folks. I mailed numerous cards in January appealing for news, but only two classmates responded.

My chief joy was a telephone call from **Dave Hillegas Jr.** whom I saw at our 50th. It was good to hear a familiar voice. Dave,

who returned to his native Wilmington, Del., and a career with the Nemours Corporation, retired in 1980 and divides his time between homes in Wilmington and Rehoboth Beach, but doesn't travel much now.

Dave's granddaughter is a freshman at Duke although she could (should?) have come to William and Mary. In our conversation, Dave expressed pride in our university status but preferred to remember the College when it was smaller "and everybody knew and spoke to everyone else." Many will agree. He asked to be remembered to all other survivors.

Ed Wilshin writes that he and Blanche

flew to California for Thanksgiving holidays with sons Don and David and their families. Proudly, he reports that David's teenage daughters make straight A's. (William and Mary material?) He likes to do carpentry among other things and boasts a physician who predicts Ed will live to 100! Carry on! Ed had cataract surgery before Christmas and concluded his letter with a customary joke. Remember his familiar laugh?

Bill Morrow, who brags about becoming a great-grandfather in June, is planning his third retirement to Greenfield, Mass., where his apartment will be "within walk-

Alumni College 1988

The Alumni College will take place June 9-12, 1988. Participants will enjoy a number of lectures by eminent members of the faculty, special dinners and activities in the evening and optional leisure activities. Participants will stay in Pleasants Hall, one of the units in the new Randolph Residences on campus. Following is the schedule for the program along with a reservation form.

For a detailed brochure, please write to Alumni College '88, Society of the Alumni, P.O. Box GO, Williamsburg, VA 23187. Program cost of \$275.00 includes all meals, lodging, tuition, fees and activities.

SOCIETY OF THE ALUMNI Alumni College Schedule June 9-12

Thursday, June 9, 1988

1:00 PM - 5:00 PM	Registration and check in	Alumni House and Dorms
6:00 PM	Social Hour	Alumni House
7:00 PM	Welcome dinner - Special guest speaker President Paul R. Verkuil	Alumni House

Friday, June 10, 1988

8:00 AM - 9:00 AM	Breakfast	The Marketplace (Campus Center)
9:00 AM - 10:15 AM	Session I - Group 1: Dr. Robert P. Maccubbin, Professor of English: "Language and the Literary Arts of the era of William and Mary"	Wren Building
	Session I - Group 2: Dr. Dale E. Hoak, Professor of History: "The English Monarchy and the Legacies of William and Mary"	Tucker Hall
10:15 AM - 10:30 AM	Break - all groups	
10:30 AM - Noon	Classes continue	
Noon - 1:30 PM	Lunch	The Marketplace

1:30 PM - 2:45 PM	Session II - Group 1: Dr. Dale E. Hoak	Tucker Hall
	Session II - Group 2: Dr. Robert P. Maccubbin	
2:45 PM - 3:00 PM	Break - all groups	
3:00 PM - 4:30 PM	Classes continue	
6:00 PM	Social Hour	Andrews Foyer
6:30 PM	Dinner	Andrews Foyer
8:00 PM	Concert of vocal and instrumental music of the era of King William and Queen Mary -Dr. Frank T. Lendrim, Professor of Music -Mr. James S. Darling, Lecturer in Music -Mary Eason Fletcher, Lecturer in Music -Ryan Fletcher, Lecturer in Music	Bruton Parish Church

Saturday, June 11, 1988

8:00 AM - 9:00 AM	Breakfast	The Marketplace
9:00 AM - Noon	Special guided tour of the DeWitt Wallace Decorative Arts Gallery, focusing on the decorative arts of the era of William and Mary.	Colonial Williamsburg
Noon	Lunch	The Marketplace
Afternoon optionals 1:30 - 4:30 PM	Tennis	Adair Courts
	Swimming	Adair Pool
	Tour of the Virginia Institute of Marine Science	VIMS, Gloucester Point, VA
6:00 PM	Social Hour	Gallery Wren Building
7:00 PM	Dinner in the manner of the Court of William and Mary; "Graduation" exercises.	Great Hall Wren Building

Sunday, June 12, 1988

8:00 AM - 9:00 AM	Breakfast Check-out	Alumni House
9:00 AM - 12:30 PM	Free time	
12:30 PM - 2:00 PM	Luncheon -David L. Holmes, Professor of Religion: "Religious Philosophy and Thought during the reign of William and Mary"	Campus Center Ballroom

Reservation Form

Please complete and return this form with payment in full or a deposit of \$50.00 for each participant. Make your check payable to "The Society of the Alumni" and mail to: Alumni College '88, Society of the Alumni, P.O. Box GO, Williamsburg, VA 23187. A final billing will be sent to you.

MIKE D'ORSO '75 NAMED WRITER OF THE YEAR

Mike D'Orso '75, a feature writer for the Lifestyles section of The Virginian-Pilot and The Ledger Star in Norfolk, Va., has been named writer of the year by the Virginia Press Association. D'Orso won first place awards in both the feature and lifestyle writing categories in the largest newspaper class for his articles on a Marine sniper and on death and dying expert Dr. Elisabeth Kubler-Ross. In addition, D'Orso is the author of a new book that will be published by Doubleday & Co. this fall. Titled "Somerset Homecoming," the book is about a black Portsmouth woman who spent 10 years researching her ancestral roots and then reunited fellow descendants of slaves who had worked on a North Carolina plantation. Alex Haley, author of "Roots," wrote the book's foreword.

ing distance of the drugstore, hospital, undertaker and St. James Church next door."

Bill, who numbers former students in the thousands, finds it necessary to write his annual "Morrow's Message to Santa" in circular letter form. During the past years he joined Wilshin at the assembly line with two transplants for better vision. (I must have started something.) One of his grandsons is Phi Beta Kappa from the University of Massachusetts. Takes after grandpa!

Martha Curtis Wessells writes that she spent Christmas holidays with her son, his wife and two grandsons in Signal Mountain, Tenn. She also occasionally visits Nina Trevvett Miles, whose home is in Nelsonia, Va. Like the rest of you, she enjoys looking for the class letter in the Gazette.

Bill Hogan recommends one of his hobbies to classmates: pressing cider. He and Holt Hogan have their own press and "make the best cider it has ever been my good fortune to taste . . . far better than trumpeted English cider." He also grows four varieties of boxwood.

"Since not everyone desires to make cider or grow boxwood," he writes, "I'd be interested in hearing how some classmates spend their time on the plateaus or tablelands of life." Bill's address is "Tipperary," Keysville, VA 23947.

Bill reports he has "come up in the world." He no longer wields a trowel in ruins of the Roman palace, but is now a summer guide at "the premiere attraction of Roman Britain," Cicerone, I believe it is.

Frank Hopkins always has some interesting item. His father, a Gloucester farmer, was a nephew of the famed Johns Hopkins of Baltimore. He attended William and Mary three years but had to withdraw to run the 480-acre farm, cattle, sheep and eventually daffodils, now Gloucester's best-known crop. He married into the Hepburn family and that's how Frank came to be cousin to actress Katherine Hepburn. Three Hopkins brothers and two Hepburn brothers attended the College in the 1890s and early 1900s so it was no accident that Frank and brother Sewell were in our class.

Dr. Roy R. Powell and his wife spent the Christmas holidays in Bermuda, which was good for his golf game in retirement, he reports.

I cannot close without mention that the big feature of Homecoming was the dedication of the new two-story addition to the Muscarelle Museum of Art. This is rapidly becoming a marvelous jewel in the William and Mary crown.

Of course, other friends have made sizeable contributions to the museum, but the fact that the Muscarelles have put over \$1 million into construction and have established a permanent endowment fund of \$250,000 should cause every classmate to swell with pride.

The museum makes our alma mater unique in the nation. So remember: if, by chance, you possess worthy art that you would like to contribute in support of Joe's magnificent gift, contact Mark M. Johnson, director. That's where my large collection of Indian arrowheads, spear points, pipes, tomahawks, etc., is scheduled to go.

One other thing: five classmates were among deceased alumni honored at the beautiful Sunset Ceremony at the Wren building during Homecoming: Samuel Q. Johnson, Art Matsu, E. Cotton Rawls, Ella B. Rouzie and Mary Elizabeth Rubush Wood.

If you have not attended one of these moving ceremonies, plan to do so next Homecoming. This is indeed "the link among the days that knits the generations each to each."

A final personal note: Did you ever receive 2-1/2 birthday cakes? At the spring OWJ board meeting, thanks to Howard Smith '43, I was given one big cake with a huge folder of signed OWJ pictures. Dropping by the Phi Kappa Tau house after the Homecoming game, I was surprised with another cake. During the OWJ banquet, John Dayton '50, a fraternity brother, gave me half of his cake. How about that!

Here's wishing you all a blessed and glorious Easter. Let's get together on Olde Guard Day, April 16.

29

Joseph N. James
5707 Williamsburg Landing
Williamsburg, VA 23185

A letter from Polly Hines Brown, Eden Prairie, Minn., is quoted, in part, below: "So kind of you to take over the 1929 news. I used to send in an annual newsletter to Macon but since he's gone I'll pass on the duty to you. Hope you won't find it too boring.

"Living in a condo, which has changed from a retirement community to an all purpose one, is something like living in a pressure cooker. You have to think fast and step lively to keep from becoming embroiled and enveloped by all kinds of activity and people wanting to stop you to lure you into listening to them. I use the scenic route, the stairs, because most people use the elevator. You'd never get through the day if you stopped and chatted very often.

"I think it's great that you are in Williamsburg. That would have been my choice had my son not been up here among "God's frozen people," and being near someone in your close family seems to be what matters most in the end. "If you're in need of some good companionship in a new home look up Marj and Burt Sherwood. Last I heard they were moving to Williamsburg. He was class of '30 at Dartmouth with my husband. Happy 1988 in your new home."

Page Vaughan Wright reports, "I'm for enjoying life doing volunteer work with the historical museum, church and am in my 16th year 'working with a blind group plus gadding about having fun.'"

Helen Bristow Ralls says, "I am sorry to say that I cannot read the Gazette anymore. I have lost my eyesight but my good and dear husband occasionally reads it to me. I do have a refuge in tapes of good books and period articles to listen to through the courtesy of The Library of the Blind."

A note from William E. Warren follows: "After retiring from Virginia National Bank (now Sovran Bank) I still maintain an office in Norfolk and keep my interest in real estate and finance with an active real estate license and am a member of the advisory board of Life Savings Bank. Lois and I attended the Oyster Bowl game and saw W&M win over VMI."

Eleanor and I also saw the game in Norfolk since we now live in Williamsburg. Keep the news coming.

31

Milton Salasky, M.D.
7342 Millbrook Road
Norfolk, VA 23505

The class of '31 is revived!

An interesting note from Ellen Ticer King, still as regal looking as ever, tells us that she has now come full circle: Out of W&M in 1931 to Alexandria, Va., and now returned to Williamsburg to live at Williamsburg Landing. A life-care facility, which she considers actually a sort of "annex" to the College, because so much of the life there is centered around W&M — and among such wonderful people. The W&M Choir, the football games, schedules of College plays and concerts, Town and Gown lectures make her feel at home. Her words: "You must come to see us sometime!"

Katherine F. Lam, who still possesses her pleasing personality, writes from the elegant Westminster-Canterbury retirement home in Virginia Beach, Va., where there are nine W&M alumni among its roster. She mentioned two: Virginia Williams Laylor and Millie McQueen Chandler '30 (Scrap Chandler's window). Katherine has been in close touch with Randolph Hardy MacLachlan of Littleton, Colo., Martha Barrow Hatcher, and Marion Handy Anderson. Katherine's words: "Just give me a phone call and stop by."

I'll accept any other invitations from any of my classmates, try me!

Here's a 10,000-to-one shot: two cars parked side by side behind Cary Field prior to a football game. One bore the Virginia license plate, W&M '31; the other, '31 W&M. One car belonged to me, the other

HOPPER EXHIBITION AT MUSCARELLE MUSEUM

Urban and rural landscapes by Edward Hopper, one of this century's most prominent realist painters, are on exhibit at the Muscarelle Museum of Art at William and Mary through April 24. Edward Hopper: City, County, Town includes 51 oils, watercolors, drawings and etchings from the permanent collection of New York's Whitney Museum of American Art.

to Leigh R. Trotter, who writes from the Imperial Plaza, a complex of buildings catering to retirees, in Richmond. Leigh was honored by being made an honorary member of his Masonic Lodge and received the 33rd degree of the Scottish Rite.

In addition to the football games, Leigh and his charming wife, Louise, attend Olde Guard celebrations, White Jacket banquets and Homecomings. Way to go, Leigh! Keep it up for many years!

33

John V. Holberton
10130 Chapel Road
Potomac, MD 20854

Jacob J. Freeman of Silver Spring, Md., reports a recent enjoyable trip to Alaska. His son Donald N. Freeman '68 is a practicing optometrist in San Diego, Calif.

Bromley S. Freeman is partially retired from his practice of plastic surgery in Houston, Texas. Among his many honors is the Alumni Medallion from William and Mary.

J. Eldred Swartz '31 a friend of many members of the class of '33, reports that he has retired after 38 years of teaching and principalships in Shenandoah County. At present, he is a cattle farmer near Mt. Jackson, Va. He has one daughter and three grandchildren.

Colin Vince of Newport News, Va., reports that his daughter has returned from Germany and he has a new grandchild. Colin has been retired for 16 years and is an enthusiastic gardener.

35

H. Mason and Hazel Johnson Sizemore
P.O. Box 126
Halifax, VA 24558

Homecoming last fall found Mason and Hazel in Halifax instead of Williamsburg. The first time this has happened in many years. Hazel was in the hospital getting a pacemaker. She is fine now and it is hard for Mason to keep pace with her.

Another of our class members Ann Northington Westlow, who is always there, was absent because of sickness. Ann writes that she and Ed are fine now and will be at Olde Guard Day in the spring.

Ann also told of the death of Albert Nurnberger from a heart attack last July 13. Albert, an SPE at William and Mary, became a very successful banker upon leaving school.

A note from L. Parker Buck to the Alumni Office was passed on to us. Parker says he has been retired for nine years. He sold his home in Demerest, N.J., and moved to a condo in River Vale, N.J. He spends about one-half of the year in Florida.

A note from Max and Lois '33 Doman tells of Max's collapse on May 30 from pulmonary emboli. Max is fine now.

Christmas cards brought news of several classmates:

Mary Roberts Agay and husband, Denes, have sold their summer home in Norton, Va., and will live year-round in New York City.

Jane Whittaker Criddenton recently traveled through the canal and other nearby areas.

Joe Pollard and wife, Marrietta, had a lovely trip through the Canadian Rockies and then to Seattle and other Northwest places.

Lloyd and Cynthia Langbauer are still traveling many places.

We received a very interesting letter from Leona Yoder Sangster.

George and Leona celebrated their 50th wedding anniversary last June 5. Their three children — son Dr. Paul of Wagstaff, daughter Jakky of New Mexico and daughter Dianah of California — plus eight of their nine grandchildren and numerous sisters, aunts, cousins and friends were present. It

seems the event lasted almost a week. It was the first time in 20 years the three children had been together. We are sure George and Leona's cup ran over as well as their home. When meal time came about two dozen were present.

George is still working in real estate. They both work for Presley tours doing promotional lectures plus much volunteer work.

A memory flashback for Leona might be the time when returning from a night football game between Cary Field and Blow Gym she stepped in a mud hole above her shoe. Instead of being upset she began laughing and laughed all the way to Chandler Hall. She was always a good sport.

We hope to see Leona and George at Olde Guard Day in the spring.

37

Connie Land Hardenbergh
Spring Grove, VA 23881

Class members at Homecoming were: Ben Kincannon Jr., Oscar Ward Jr., Dan Velsor, Shale Tulin, Sally Elmore Palmer, Elliot Cohen, Peter Hansen, Thomas Baines, Elliott Bloxom, Harold Gouldman Jr., Walter Zable, Linwood James, Jane Sunderland Broudy, Carolyn Richardson McMurrin and myself.

Many of us attended the Olde Guard luncheon on Friday and shared a table. There were more members sharing a table at the Luncheon on the Lawn on Saturday — which, due to inclement weather, was held under the marquee. Very nice!

Marion Rose Abbitt had two 50-year celebrations last year — our class reunion and her 50th wedding anniversary. She and Andy celebrated by going on a cruise to Bermuda. During the summer the Abbitts visited daughter Mary Webb, husband, Alain, and grandson Andrew in New York and then went on to Canada. They returned home via Wisconsin to see daughter Sally and family and thence to Ohio to visit daughter Ann.

Bernice Shield Hassinger was on the College-sponsored tour of "Iron Curtain Countries" along the Danube. My sister, Mary Land Gill '28 reported this news item to me. She enjoyed meeting and talking with Bernice.

Al and Bertie Courtney Zuger spent Thanksgiving in Grosse Pointe Farms, Mich., with son Peter and family.

Doris Campbell Desmond has moved to Buffalo, N.Y. She is happy she no longer has grass to cut!

Hall and I went to a lovely party at Jimmy and Fay Bryant Savedges' home before Christmas. When I saw Fay after Christmas she told me she had a phone call from Frances Jewell Groves. "Deedles" told her that Anne Reynolds Wood had been in an automobile accident in Pennsylvania but was at home and had recuperated nicely.

Without cards or letters from you there is no further news to report — so please lend me a helping hand — or a handwriting hand!

39

Frances L. Grodecoeur
81 Howard Street
Monongahela, PA 15063

Greetings and belated best wishes for the new year. May you all have good health, happiness and enjoyment in all you do (house cleaning, dishwashing, weed pulling, keeping the car running included).

Given the schedule for class letters we have to face the fact that old news may go back six months or more — but, as you-know-who says, "That's the way it is."

Most of the notes from the holiday greeting cards read like a travelogue — but what better way to spend a winter day than thinking of warm spots like Monongahela, which escaped the big oil spill, or Fiji.

Betty Roberts Osborn spent most of her summer in Michigan and Colorado Springs, the latter with daughter Babs, her husband and their three children. Her other daughter, Bonnie, her husband and their two children are in Stuart, Fla., not

ACCOUNTING GETS HIGH MARKS AGAIN

For the third straight year, the undergraduate accounting program at William and Mary has been ranked among the best in the country in a nationwide survey by Public Accounting Report (PAR) magazine. The program ranked 18th in 1987 after finishing 21st in the 1986 survey and 15th in 1985. William and Mary was one of only two of the top 20 schools that do not offer graduate accounting degrees, according to James E. Smith, director of the accounting program, who noted that 40 percent of the William and Mary students pass the Certified Public Accounting (CPA) exam on the first try. Among other attributes, Smith attributed the high ranking to an excellent faculty and "great students."

far from Betty's place in Fort Lauderdale. Betty will probably "Elderhostel" again this summer.

Elaine Woody Walker, who retired last June, writes that she's enjoying her newly found freedom. She visited son Andy and his wife in Missouri in July, driving 1,000 miles back home so she could see the country. What stamina! Next was a quick trip to North Carolina for a reunion with former neighbors from Huntington, Long Island, Elaine's home for many years. Finally, in November she took her first trip to Florida where she visited son Peter and his wife in Fort Lauderdale, staying on board their boat. (That really appeals!) She has the welcome sign out at Lushland, her home in Port Tobacco, Md., just in case you happen to be in the neighborhood.

Dot Hosford Smith and Herb: Let's start with these two peripatetic travelers in Florida, when they took a 14-day trip in May up the Intercoastal Waterway from West Palm Beach to Rhode Island. The report: congenial people, marvelous food, chance to explore various ports and near-perfect weather. Off they were in June, via Amtrak, to the Portland Rose Festival, then to Boise, a rafting trip on the Salmon River, a stay at Sun Valley and back through Salt Lake City.

For the life of me I can't figure out how they had time to unpack, sort through an accumulation of mail and be on their way again in July, when they traveled east for family visits in Pennsylvania and New Jersey, returning home to California via Amtrak! (I forgot to mention that Herb is a train buff.) Not to let any grass grow under their feet, they took off in August for a week in Lake Tahoe and then took in three Elderhostels at the University of Nevada, University of Utah and a Shakespeare Festival in southern Utah. Back home they are "into" lectures, concerts, plays, etc.

Winnie Nelson '38 met up with the Smiths when she, her daughter and son-in-law visited a relative who lives in the same adult community. You may ask what the Smiths do in their spare time. Save the questions for 1989; they plan to return for our 50th.

Peggy Prickett Miller, Miley and number 1 and number 2 daughters — Maile Doyle and Peggy Jr. — had a splendid trip Down Under in the early fall. Ten days in Hawaii preceded a week in Sydney and then on to Coffs Harbor, south of Brisbane, where they "wandered with the wallabies, kuddled a koala and heard the kookaburra laugh." This in a lovely flower-filled semi-tropical resort. (How can I go on like this when it's all of 20 degrees outside with snow on the ground?) Their next stop was New Zealand ("all they say it is") with stop-overs in Fiji and Hawaii on the way home.

Other short trips throughout the year were to see the kids. The immediate family, which now numbers 28, includes granddaughter **Ginger**, who will graduate from the College in the spring.

Bill Eppes continues his efforts in the interest of historic preservation. Most recently, he has been asked to serve as consultant for Historic Buckingham (Va.), Inc. Bill is another Elderhostel fan and enjoyed a trip to Great Britain in the fall.

Notes from the Alumni Office:

John Hodges, mayor of Williamsburg, is one of the 34-member Commission on the Tercentenary Observances of the College of William and Mary, which was established to insure that the 300th anniversary of the second oldest college in America be appropriately commemorated. The commission is headed by retired U.S. Supreme Court Chief Justice Warren E. Burger, Chancellor of the College, and by Harvard economics professor Henry Rosovsky.

Fred M. Felmet Jr. is enjoying retirement from his post as elementary principal in Montgomery County, Md. He and his wife, Adelaide, play in the Montgomery Symphony and sing in the Masterworks Chorus and Woodside Methodist Chancel Choir. His hobbies are gardening and photography.

Deadline time is breathing down my neck so adieu for now. Need your news — please write.

KECK FOUNDATION GIVES COLLEGE \$65,000

The W. M. Keck Foundation of Los Angeles has given William and Mary \$65,000 to purchase a spectrometer for the chemistry department that will be used to identify and characterize molecules. The Keck grant has been added to \$110,000 received last year from the National Science Foundation for chemistry department equipment. The Keck Foundation is one of the nation's largest in terms of annual grants.

SENIOR WINS DUDLEY SCHOLARSHIP

Craig L. Crawford, a senior at William and Mary, has been named the 1988 recipient of the Karen Elisabeth Dudley Memorial Scholarship. The scholarship was established in 1984 through gifts from the family of Miss Dudley, a senior at William and Mary who was killed in an automobile accident. The scholarship supports a senior at the College who displays "high academic achievement, campus leadership and character epitomized by those students who are chosen for membership in Omicron Delta Kappa."

41

John H. Prince
202 Cheadle Loop
Seaford, VA 23696

The very top communication is from **Margaret Jahnke Brennan**. "The get well cards from Homecoming 1986 were warmly received and the snapshots from Ruth Rapp from the Hospitality Room were great fun. I'm holding my own and hope to make a future Homecoming. John would enjoy the golf."

Mirabile Dictu! That's also the very bottom communication.

Homecoming 1987 was pleasant, though rather sparsely attended. At the end of this you'll find a list of the attendees. I was going to say that quality made up for lack of quantity, but after looking over the list of names, including my own, I decided against it.

We missed **Austin L. Roberts Jr.** He wasn't only under the weather, he was ailing. We understand he's better and hope that means that he's well. Austin and Barbara were planning a February cruise with **George '58** and **Ella Dickenson Hurt**.

By the way, Ella and Jane Young, wife of **Herb Young**, had cataract operations and now can see like crows.

I bought a book titled *William and Mary: 50 Years of Theater*, which had on the jacket a picture including the daughter of **Art** and **Carolyn Kneip**. I can't find that book now. Did I loan it to any of you?

Here's what you have been waiting for — the list of those attending the Homecoming from the gold medal class of '41:

Robert '38 and **Kay Hoover Dew, Harry '43** and **Elizabeth Davis Hartman, Bob** and **Lois Hornsby, George** and **Ella Dickenson Hurt, David** and **Ann Read Jones '44, Irma Luxton Nelson, John** and **Charlotte Prince, Arthur** and **Carolyn Kneip, Barbara Roberts** without **Austin, Dorothy P. Whitfield** and **Herb** and **Jane Young**. Also **Mrs. Waldo Matthews** and **Betty Craighead Stousland '42** and her son **Mike '76**.

Mike made a beautiful sterling silver tie tack with my initials and a crown honoring my pseudonym. It is attractive and certainly unique. Thanks Mike.

My grandson, **Christien Murawski**, had a small part in "The Three Sisters" and will have a larger one in "Anything Goes." It's good being close to the school. We went to a Christmas vocal concert given by the W&M Choir and Chorus. They were great.

43

Virginia Curtis Patterson
109 Northpoint Drive
Williamsburg, VA 23185

Greetings from the Gentle City.

We are half-way through the tunnel of winter with spring peeking at the end. Flowers are raising their pretty heads.

Scotty Cunningham will serve as vice chairman of the distinguished 34-member Tercentenary Commission established by Virginia Governor Baliles to insure proper commemoration of the 300th anniversary of the College of William and Mary in Virginia. The events commence this year and continue into 1993.

Governor Baliles hailed the College "for its service to the state and the nation throughout its existence by its unflinching commitment to excellence in education. William and Mary is recognized today as an undergraduate institution of outstanding quality with a deep commitment to the value of education in the liberal arts. It is also a full university offering outstanding graduate and professional programs." Neat.

Roommate **Jean Norris Daniels** is having fun learning computer magic. She said she has reached the "no-fear" stage and is happily programming the family history.

Marion Smith Turner and husband, **Dave**, were present at the America's Cup Race last year while traveling around New Zealand and Australia.

The Reverend **Lloyd A. Clarke** has retired as an Episcopal minister to the Shenandoah Valley and is living in Grottoes, Va.

Virgil and **Jean Clark Ford '45** are busily retired in Foxboro, Mass., which reminds

them of the Gentle City in many ways. Virgil is serving as the organist/choirmaster at the restored Central Congregational Church in Foxboro.

George and **Nancy Holland Blanford '48** enjoyed Homecoming 1987 so much that they will return this year.

One of the great joys of doing the class news for '43 is hearing from **Suzanne Eppes Felchin**. Her letters are both amusing and informative. Suzanne moved to Switzerland 35 years ago after marrying a Swiss native. She has a dual citizenship, maintaining her ties with America — paying taxes, etc. — but also living in her adopted country, Switzerland — paying taxes, etc.

Suzanne and her fellow Swiss fight the battle of waste. They save bottles, tin, paper and have a compost heap. "Every household is expected to take as much responsibility for its private wastes as possible to save the public space and money. It works like a charm, but only because each individual works for the good of all."

Suzanne lives in Schwyz, the little town that gave its name and its flag to Switzerland. She wrote that Schwyz is "neutral, beautiful, mountain-ringed, lake-fringed and, to tell the neutral truth, just occasionally a mite dull. Especially in fog-bound November. But, the farmer who leases our next-door land has just put out five dear young heifers to graze and their bells clink and clank through the grey day and as the psalm says, 'make a joyful noise.'"

Suzanne, I am there sometimes. Our family will never forget our beautiful vacations in various towns in Switzerland and especially the tunnels through those mountains. Going aboard a flat-bed railroad in our car, which was tied down for the fast and furious ride through the blackest of tunnels with other trains speeding in the same and opposite directions. We made it. Amusement parks have no ride to equal it.

45

Martha Macklin Smith
3609 Seapines Road
Virginia Beach, VA 23451

Dear Classmates,

Happy 1988! I finally have enough news to write a decent letter.

From the Alumni Office I received several items.

First, our famous artist, **Willie Anne Boschen Wright** is at it again. Her photographs were in a group exhibition at the Ledel Galley in New York City, Nov. 1987 - Feb. 1988. **Dinny Lee McAlinden** wrote that Willie Anne was featured in a big article on pinhole photography in the Jan. issue of *Popular Photography*.

Second, a note from **Jeanne C. Nelson** said she had a wonderful trip to England in June to see stately homes. She enjoyed three weeks of beautiful sights, mediocre weather and, much to her surprise, good food.

The third item was from **Julia Sullivan Murray** informing us that her younger son, **David**, was married last November — the first of her children to marry. He lives in Pismo Beach, Calif., and is a planner for the department of transportation.

The biggest item of all was a nice article on the **Viehmans (Barbara Sanford)**. It was in *Trailer Life Magazine* in June. Jay and Bobbie use their 33-foot Sportscoach to travel all over the continent. Jay has retired from the Air Force. He had been based in Washington, D.C., and was part of the elite special air mission squadron. He flew many famous people and world leaders all over the world during the tour of duty.

Bobbie is a celebrity in her own right. Her wall hangings are in such demand that she now works on commission only. Last year while they spent 4-1/2 months touring the U.S. and Canada, she purchased a spinning wheel and has now mastered another skill. The Viehmans will attend the Sportscoach rally in Nashville this summer.

Thanks to those of you who sent me Christmas cards with notes on them. I will share these with you.

Dinny Lee wrote that she is to be a grand-

mother a second time when her daughter has number two in June. Granddaughter Shannon will be 3 in March. Dinny went to Pittsburgh in October to a regional garden club conference. She was fascinated by the way the city has been revived.

Gloria Gruber Blakelock sent a nice note accompanied by a picture of her godson and his lovely family. Her godson is Abner and Libby Pratt's oldest child. George S. W. Pratt has recently been made a vice president of Drexel Burham Lambert. He and his pretty wife have three charming children.

Gloria saw **Pat Bodine Lovejoy** at Theta Foundation Day. Gloria and Ralph spent Christmas in Wisconsin with their two youngest daughters and their families. Gloria says that she is now involved with the New American Episcopal Church, which is really the old with the service the way it was at Bruton Parish when we were in college. Gloria, we use that service at Galilee on Thursdays for those who still prefer the old prayer book.

Marge and **Wayne Gibbs** sent word that they have enjoyed traveling all over the world.

Mary Jane Chamberlain Howard wrote that she and **Nellie Greaves** attended the Gamma Phi Beta Founders' Day Luncheon at the Congressional Club in Washington in November. She and Vaughan are now retired and spend a lot of time with their six grandchildren who reside in Lynchburg, Williamsburg and Gates Mills, Ohio. They attended the 45th reunion of Vaughan's class at Kansas State in April.

Floss Metius Johnson and **Dwight** had a marvelous trip to the Orient in the fall. It exceeded all their expectations. Loved the card you sent, Floss. The temples were intriguing she said, especially in Bangkok, and the cultures and customs were very interesting. Daughter **Cindy** has a daughter **Brittany**. Grandmother is ecstatic, naturally.

Marion Lang Van Dam and **Ted** don't let much grass grow under their feet, either. In November, they were in New Orleans. In December, they were in Massachusetts to visit their newest grandson. Last winter they went to the Dominican Republic to see an old friend. After leaving there, they stopped at several places in Florida on their way home.

Last October, I received a very nice, long letter from **Mary Schaffhirt Barnes**. I had just mailed my letter to the *Gazette*, so I'll now share with you what she wrote then. Mary wonders if she will be remembered since she was with us only a year. She has, however, kept up with Dinny, **Mac Kaemerle Quinto**, **Janie Woods Adams** and **Ginger Prickett Cage**.

In 1942 Mary married Jack, her West Point cadet. They have had 45 wonderful years. Jack retired in 1974 as a major general. They live in Seattle and love it. They have three children and three grandchildren and have lived all over the U.S. plus Japan and Taiwan. They travel a great deal and are heavily involved with volunteer work. Mary is a lay eucharist minister in the Episcopal Church, only one of her many volunteer services. Many thanks, Mary for your newsy letter.

Ruthie Weimer Tillar is just about the busiest person I know. I don't know how she keeps up with everything she does. Homecoming Weekend was wonderful, she said. **Sunny Trumbo Williams '44** and **Ralph, Ruthie** and **K. T.** stayed with **Fran Loesch** and **Bob Brunner** at their Kingsmill home. Ruthie is still "up to her eyeballs" in volunteer work. Not only is she heading up the hospital auxiliary for the next two years, she is involved in six other organizations.

She says there is never a dull moment. I guess not. Just reading about them exhausted me.

Now listen to this, you cats. "We've only missed going to a dance one Saturday night since mid-August! We go to dance in Richmond, Roanoke Rapids, N.C., or Emporia. It keeps life interesting and fun." I can't believe such energy. I love it!

Last, but not least, a note from **Jeanne Schoenewolf Preston**. In November, she and Page had a lovely eight-day trip to London. They shopped, visited museums, saw four plays and attended services at

SOCIETY OFFICERS ELECTED

J. Edward Grimsley '51 and Dr. Lesley A. Ward '63 have been reelected to second one-year terms as president and vice president of the Board of Directors of the Society of the Alumni. Carolyn Todd Schaubach '59 of Norfolk was elected to succeed Jerry Van Voorhis '63 of Chatham, Va., as secretary and A. Marshall Acuff '62 of Riverside, Conn., was elected treasurer, succeeding Harriett L. Stanley '72 of Philadelphia. Stanley and John S. Entwisle '44 of Williamsburg were appointed to the executive committee.

Grimsley

Ward

Acuff

Schaubach

Westminster Abbey on Remembrance Sunday, which was most impressive.

Audrey Hudgins Thompson had a granddaughter last fall. The family is thrilled beyond words to have a girl, finally, after so many boys. She and Page will be in Florida for February and March. They had 14 — all of the family — for Christmas, including two 2-year-old grandsons. Such fun, she said.

Thanks. Many thanks for all the news. Now that I have it all recorded, I finish exhausted but with such a nice feeling for those of you who have supported my efforts.

Keep in touch.

47

Eleanor (Ellie) Westbrook Heider
517 Richmond Road
Williamsburg, VA 23185

Homecoming 1987 was a beautiful weekend in every way.

The weather was perfect for the parade and game; there were excellent and unusual new ideas added to the agenda this year because of much time and careful planning at The Alumni House.

I still can't become used to the new name Royce for The Hospitality House, but it was the center of much activity.

I missed having my class picture taken because I was with the William and Mary Alumni Band at The Royce enjoying a box lunch and attending the meeting prior to the game. That is when I paid for my band jacket, although I've never participated on the field for Homecoming. I might get brave and try marching some time in the future.

I also missed welcoming Priscilla Cobb Denison and her husband, John, and Ellen Diggs Wilson and husband, Jack '50 when they stopped at my home.

I did see them later that evening at the class of '47 dinner at The Royce and was sorry not to have had more time to visit with them.

Christmas mail brought a lovely note and card with pictures taken at Homecoming from Sally Rue Justice Hanson '46 and Howard. We sat at the same dinner table and then spent a long time visiting in their hotel room. They were nice enough to walk home with me at that late hour.

Hopefully, I'll see more of them in the future. They live in Richmond, and I head that way to shop, dine and attend the theater or concerts rather than travel to the Peninsula.

We were so privileged to have Ginny Lewis Glass travel here from Geneva, Switzerland. Her correspondent career has taken her to many different countries in Europe.

She had volunteered to act as mistress of ceremonies at our Saturday evening dinner and did an outstanding job. Thank you, Ginny.

Jane McDowell Lynch visited me prior to the Christmas holidays. It was a pleasant surprise when she knocked at my door. She lives in the Shenandoah Valley and was visiting in Williamsburg for a few days to be with her freshman granddaughter at William and Mary and also enjoy the Christmas decorations.

A note from George Stoddert Sullivan Jr. said that he is still plugging away as a counselor in the Atlanta schools. His friends have had sense enough to retire and he thinks it is really tempting.

Nelle Wright Tavener sent a list of many of her Florida involvements including being appointed to the state committee on the bicentennial of constitution for planning the 1987 activities.

Sally Marthann Phillips Mileur enjoyed being back for Homecoming and hopes ALL members of the class will attend our 45th reunion.

Jane Heller Frieden and Joe wrote at holiday time they are booked for a cruise in the Caribbean sometime this month to visit places they've never visited before. Their son Robert and new daughter-in-

law, Tracy, were married at Wolf Trap Farms last November. I enjoyed working with Jane prior to our class reunion. Maybe we'll have more time together this year.

January is zooming by and I failed to write many Christmas cards and notes.

We had 12 for Thanksgiving dinner, 14 for Christmas dinner and Beth's engagement party the evening of Dec. 26 for a very large group of friends. Debbie, Brook, Brook II and Danny arrived that day and stayed for the weekend. It was nice to have the family together again.

The wedding is May 7 at the Wren Chapel and the reception at The Alumni House. I seem to think there is a lot of time left before May but the month will soon be here. Beth is very efficient and has everything under control so I should not worry.

Good health, happiness and prosperity to all of you out there!

49

Alice Baxley Anthony
53 Hickory Place
Livingston, NJ 07039

Harvard University economics professor Henry Rosovsky will serve as chairman of the Commission on the Tercentenary Observances of the College of William and Mary. U.S. Representative Herbert Bateman has been named a member of the commission.

Sallie Adams McBride reports that she had a summer holiday in Rhode Island with Carol Achenbach Taylor, who now has a new retirement home in Virginia.

Jo Wattles Spencer is also in Virginia — in Richmond — and Audrey Allein Hoitsma and Lou have a townhouse in Williamsburg.

Elaine Campton Baker and Jim are continuing to enjoy their retirement home in Williamsburg.

Penny Allenbaugh Goodsill is now living in Georgia.

Babs Griffin Smith has moved in the other direction — to British Columbia — where they are settled in their new home in the Canadian Rockies.

Dot Dettmer McLaughlin and Ben are enjoying the best of two worlds now with a townhouse on Long Island, where she still works part time, and an apartment in New York where Ben works.

Jackie Andrews McKeon has retired after teaching for 25 years. She and Harry live in Flourtown, Pa.

Lynn Graves Whitaker reports that Bill has now retired. They still live in Penn Yan, N.Y., where they both enjoy cross-country skiing during the winters.

Mary Wilcox Rietman and Jerry had an exciting trip to Morocco recently, which they found exotic and fabulous.

Lou Hostetter Winder and Gus spent seven weeks visiting Australia (their second trip down under), New Zealand and Fiji. My husband and I took the William and Mary Rhineland cruise in the fall, but found there were very few others from William and Mary on board.

51

James W. Baker
100 St. George's Boulevard
Williamsburg, VA 23185

Before reading this month's column, please do a little arithmetic as follows: Select a number. Add to it the next highest number. (For example, if you selected 364 you would add to it 365.) Add 9. Divide your answer by 2. Subtract the original number you selected. Now read the column, including my prediction at the end.

Mary Jones Smith and her husband have lived in Charlottesville, Va., for 30 years. "In the middle of the University of Virginia," she reflects, "I constantly feel great pleasure and pride in my years at William and Mary. They were very important years in my life."

Roy D. Lorenz and Carol Gardner Lorenz have moved from Carmel Valley to Pacific Grove, Calif., and now live in a real log cabin two blocks from the Pacific Ocean where they take frequent walks. Roy has retired from McCormick and is now working part time for Nestle as personnel manager. Roy and Carol added

another granddaughter to their clan (the second).

Olga de Sparre Rowland and her husband, Jim, took a cruise to Australia and New Zealand. They found the Aussies "very friendly" and New Zealand like the U.S. was 40 years ago. They also visited the Grand Canyon and Santa Barbara, Calif.

Peyton R. Hatcher of Danville, Va., is a self-employed Certified Public Accountant who plans to phase out his work in 10 years. He and his wife have three daughters. The oldest is an attorney with the Virginia Attorney General's office. Their middle daughter, who graduated from William and Mary in 1984, lives in Pasadena, Calif. The youngest daughter works in U.S. Senator John Warner's office on Capitol Hill. Peyton, who walks every morning at 6:30, reports that his main activities these days are "work, work and work . . . until April."

Mary Earhart Jenkins and her husband, Bob '50, took a two-week trip to Italy, visiting Rome, Venice and Florence. Mary, who works as a children's librarian, has no plans to retire. She and Bob have four children. The Jenkinses live in Flemington, N.J.

Charles L. Craig, who lived in Atlanta since 1964, is vice president of Mutual of America, a New York-based insurance company. Both of the Craigs' daughters are married and live in Atlanta. "Since everyone comes through Atlanta sooner or later," Charlie says, "how about a call from some classmates."

Nan Jones Hodges lives with her husband, who is retired, in a 151-year-old cobblestone house in the "fascinating academic community" of Ann Arbor, Mich. Nan is in second-year Russian at the University of Michigan. "I am a non-degree student with a desire to read Russian poetry in the original language," she says. Nan spent four months in London last year while her husband studied tropical medicine. While there, she took a three-week trip to the Soviet Union alone, traveling by train, to try out her new language. Nan is also working on a long-term project of editing a 19th-century journal. She and her husband spent a month in Australia and New Zealand visiting friends and relatives. The Hodgeses have four sons.

Dr. Frederick T. Krause is solidly occupied with his pathology practice and teaching residents and medical students. He has a son Grant, who practices law in Washington, D.C., a daughter Madeleine, who is a medical student at Washington University in St. Louis, and another daughter, Caroline, who studies English at William and Mary "while playing field hockey with great enthusiasm."

Joe Benedetti was re-elected to the Virginia Senate last Nov. 3.

E. Bolling Conner Carter and her husband, Richard, live in Appomattox, Va., where Bolling works as a middle school counselor. The Carters have two children. Her main activities are work, church, walking for her health and a little traveling to see their children. She says her hobbies include walking, birding and gardening, "along with helping our children get settled in new homes and jobs." The most important thing in her life right now is "helping middle school children cope with the stresses of early adolescence and succeed in school."

J. Edward Grimsley, editor of the *Richmond Times Dispatch* editorial page, has been named by Virginia Governor Gerald L. Baliles to serve on the Commission on the Tercentenary Observances of The College of William and Mary in Virginia. Ed also spoke last fall to the College Republicans at William and Mary on Virginia politics, focusing on the gubernatorial races in Virginia.

Peggy and Arnie McReynolds live in Vero Beach, Fla. They took a three-week vacation trip to the northeast last fall, their first chance to take an autumn vacation since they began in education in 1954. "We had almost forgotten what fall leaves looked like," she said. Peggy works as a children, youth and family services counselor. Arnie has retired after 34 years in the education field, 20 years as an elementary school principal. The McReynoldses

have two sons — Herb, a physician who lives in Tucson with his family, and Tony, who is completing his Ph.D. in rural economics and sociology at Cornell University.

Dave Rogerson, who is married and has three children and three grandchildren, lives in Rockville, Md. He retired once in 1979 and again (for good) recently. His main activities these days are golf and traveling. (He returned recently from Hawaii and the West Coast.) The most important thing in his life right now? "Staying healthy so I can enjoy retirement and golf," he says.

Holmes Bailey and his wife, who have two children, live in Short Hills, N.J. Holmes is president of AMS New Business Venture General Electric Company in Princeton, N.J.

Now, back to the arithmetic you did at the beginning of this column. If you followed the instructions carefully, you should have ended up with "5" as your answer. If I predicted correctly, you owe me a bit of news for the next class of '51 column. Let me hear from you.

53

Barbara Jo Mott Woolston
116 Talleys Road
West Chester, PA 19382

Barton Hellmuth writes that he is pastor of two country churches south of Lexington, Va. Since graduation he received a master of divinity from Union Theological Seminary in Virginia and a master of science in home economics (child and family major) from the University of North Carolina in Greensboro. He has traveled extensively outside the U.S. The Hellmuths have four children and a grandson.

Franklin "Sonny" Cowling's daughter will be married at sea this May in Nags Head, N.C., on board a rebuilt Chesapeake Bay shipjack named *Chesapeake*.

Nona Schulse Starr recently was named vice president of project development of the National Institute of Certified Travel Agents (ICTA) based in Wellesley, Mass. ICTA provides educational programs for travel personnel at all levels. Nona joined the organization in 1980 and has developed training programs for both American Airlines and TWA. She holds a master's degree in education and human development from George Washington University.

Patrick Wright took an early retirement from Maryland public schools (Anne Arundel County) in 1981. He and his wife live in Orlando, Fla., where Patrick is a part-time church musician, writing and arranging sacred choral and handbell music.

I am sure Dave '52 and Lee Bradley Wakefield have spent long hours diligently seeking funds since taking the alumni chair for the William and Mary Fund. I hope our class was able to surpass 1952's in fund giving! The Wakefields have moved back to New York and live in New York City. Lee has been involved in community volunteer work wherever they have lived, her interests being centered in the arts. She served on the arts council of the Morris, N.J., area and with the Morris Museum of Arts and Sciences. While living in Delaware she was involved on the board of the Delaware Symphony. She and Dave have two children and two grandchildren.

I hope some of you received Emmy Kettererson Smith's wonderfully informative Christmas letter describing the Smiths' trip to China. Husband, Dan, was on a sabbatical and lectured at Hangzhou University. One highlight for Emmy was a visit to a church where she sang "Jesus Loves Me" in Chinese and a trip to a now-modern 425-bed hospital. Both structures were founded by her grandparents. Her letter was especially interesting to me since John, our son, spent eight weeks in China studying the Chinese language and touring the country with a group of fellow Penn State students and other students from all parts of the U.S.

Ginny Campbell Furst and husband, Bill, enjoyed a well-deserved vacation week on Maui this fall. *Chicago* magazine devoted a page to Ginny's superb ability and responsiveness to the needs of others

DEATH CLAIMS DR. ED JEWUSIAK

Dr. Edward M. Jewusiak, an orthopedic surgeon for 14 years in Williamsburg who was active in sports medicine at William and Mary, died Jan. 19. A close friend of many William and Mary athletes and coaches, Dr. Jewusiak was a graduate of Holy Cross University and Seton Hall College of Medicine and a 13-year Navy veteran.

FORMER FACULTY MEMBER DIES

Curtis L. Newcome, who served as a member of the faculty of the Department of Biology at William and Mary from 1940 to 1946 and as director of the Virginia Fisheries Laboratory in Yorktown, died recently in Biloxi, Miss. In addition to his work at William and Mary, Dr. Newcome taught at the University of Maryland and California State University, San Francisco.

COMPANY NAMES
ALUMNUS PRESIDENT

Gregory F. Jennings '68 has been named president of A.B. Van Metre Jr. Companies of Alexandria, Va. The 18-year-old company operates the largest dump truck fleet in the Washington metropolitan area. Jennings was formerly with the tax accounting firm of Seidman & Seidman where he was a partner in charge of the Washington office. He received his master's degree in taxation from the American University in Washington.

through her real estate expertise with Merrill Lynch Realty. She has surpassed \$100 million in career sales and has received Merrill Lynch's prestigious Inner Circle Award and membership in its Leading Edge Society, Hall of Fame and President's Circle. For several years Ginny has held the number-one position in her Winnetka office and throughout the metropolitan Chicago area. Congratulations, again, roommate!

Jim and Helen Shatynski's letter told of the activities of their seven children. Helen has found time to be a substitute nurse in the Downey, Calif., Unified School District. Jim still serves as a eucharistic minister, trustee for the Knights of Columbus and chairman for the Right to Life and vocational areas.

Jim '51 and Bev Simonton Kelly's daughter is a sophomore at the College. Daughter Sharra and new husband, Rev. Jeffrey Dugan, are living nearby in Durham, N.C. Bev continues teaching and singing with Bruton Parish Church. Jim serves as secretary to the Board of Visitors.

Ed '52 and Ginnie Gary Lupton sailed across Florida to the Gulf Coast in their sailboat. They sailed down the Intercoastal Waterway to Stuart, onto the Caloosahatchee River, to South Seas Plantation Resort on Captiva Island and finally to Port Canaveral. Despite thunderstorms during their travels, they anchored safely and reached home in Cocoa Beach. Their daughters are involved separately in the commercial art business and a partnership in a national architectural firm. Son Gary still enjoys sailboating in Key West.

Scott and Caroline Petrequin's pictorial letter updated activities and whereabouts of their four children. Their family seems similar to ours.

Jay and I are looking forward to adding a daughter-in-law to our fold when Jack marries this May. They will live near Portland, Maine. Perhaps Jay and I will have a chance to see more of New England now.

Bill and Nancy Ruth Adair visited Martinique and especially enjoyed seeing the birthplace of Empress Josephine.

I hope you all are making plans and reservations for our 35th reunion in November. It should be a special time for renewing old friendships. See you there.

55

Elaine Elias Kappel
104 Spring Forest Drive
Pittsburgh, PA 15238

It must have been a good year for most of the class of '55 if Christmas notes are any indication. Next year let's begin a new tradition and have everyone from the class mail me a card or postcard with a note. What a column we could have!

Pat Sperb Waby's card told of children Craig, Stephanie, Lee Anne and Derek's busy lives. Pat visited Norway with her father for three weeks in June but the weather didn't co-operate and she ended up with seven fractured ribs and a rib band day and night for eight weeks.

Joan Mattson was sadly preparing for Christmas as her mother had lost her battle with cancer, however she noted that her friends were keeping her busy.

Diane Broderick Hamilton was thrilled with the townhouse she and Will found overlooking the Frank Lloyd Wright Civic Center in an area called Quail Hill, Calif. She also related activities of four children, one dog, three cats and one "grandcat" that visits.

Florence DeHart Burns vacationed in Cancun last April. She also became a grandmother for the first time. Her children Daryl, Colin and Camille are well and happy.

Florence visited Barbara Huber Pankey last October. Barbara had a humorous article, "Computer Widows," published on the editorial page of the *New York Times*, and she is free-lancing for a local newspaper.

Bunnie Scheie Belford's note said that she had a quiet year highlighted by son R.L.'s family visit in July. Her grandchildren are 8, 6 and 5. R. L. is in Yuma, Ariz., with the Marine Corps.

Anne and Jim Steele's letter told of their completion of their deck, their busy lives — Jim at Westinghouse and Anne at Yeshiva — and their many short-spurt vacations, which will be topped off by a month in South America after the new year.

Helen Male Katz spent most of her fall on the college-search circuit visiting six states with her son John. She was astounded at the changes that have taken place since her last visit in 1977.

Marge Willard Duer and Jack '58 are wait-listed for a freighter in South America this winter. If that doesn't work out, they will take up residence in Williamsburg. Marge was my substitute agent at Homecoming as we were on a three-week tour through the People's Republic of China — a long column in itself!

Allison Sandlass Carr and Pete spent Thanksgiving aboard the *Independence*, their daughter Sue and husband Peter's home afloat. Allison has been keeping up with her art work and has been in several shows, "mostly drawings," she says!

Elsa Stromberg Bandi is still busy working for B. Stromberg Construction while husband, Fred, has retired and is busy becoming a computer expert.

From the Alumni House comes a note that Elizabeth G. Hudson is enjoying her volunteer work for the AARP defensive driving course called 55 Alive Mature Driving.

Carlton Press, Inc., has announced the publication of a book written by a prominent Halifax-area woman, Diane West van Wert of Ormond Beach, titled *Meditations for Children*. Prior to this book Diane had published three articles in *Halifax* magazine and another in *Sharing* magazine. Diane is married to Leon van Wert, an attorney for 29 years, and is a mother of three sons.

A note from Martha Wren Briggs, now a resident of Williamsburg, relates that she has retired from C. W. Post College (not the post office), where she was art librarian emerita, and that the American Horticultural Society will publish her article, "The Gardens of Louis Comfort Tiffany: A Reconstruction" in their February issue. She also has been asked to submit an article on C. M. Walsh, a Petersburg, Va., gravestone carver, to the Gravestone Society for the next issue of their publication called *Markers*.

There seems to be something missing — the male side of the class — please help support the column you guys!

57

Lee Hammer Scott
1009 Regency Circle
Penlynn, PA 19422

Time sure does fly — and here it is three days before the class notes deadline, and I don't have anything to report! Where are all those cards and letters you should be sending me?

Since I didn't make it to Homecoming this year (Can you believe it's been 30 years?), I can't even write about everyone who was there.

I received Christmas cards from Bruce and Betsy Davis Hathaway and Tom '56 and Mary Jo Milam Rink, but that's all!

Do you all have writer's cramp like I do? And does anybody know where my old "roomie" Lynne Bennett DeVost is? My Christmas card to her was returned "addressee unknown."

Had a wonderful holiday with all the kids home for too short a visit. I think there should be a law that grown children are not allowed to live more than two hours away from their mother. Charlotte, N.C., and Dallas are just too far! Now the house is quiet again and Jim and I are looking forward to spring.

Please write, you all, so I'll have something for the next issue.

59

Sollace Molineux Bommer
995 High Mountain Road
Franklin Lakes, NJ 07417

61

Johelen A. Martin
2144 Laurel Lane
Altavista, VA 24517

Gerry Goldsholle completed the senior executive program at Stanford University's graduate school of business last summer.

Elizabeth Franklin Hardesty still makes the Yorktown area home. Her duties as a band parent have continued beyond high school to the Tarheel Band at UNC-Charlotte where her daughter Cindy will be co-captain of the flag corps for 1988-89. Since Cindy has been at Carolina, Elizabeth has made new flags for the corps. Her son Tom graduated from Virginia Tech last June.

Dave Bottoms made a \$200,000 gift to the College to establish a permanently endowed professorship in music. The David N. and Margaret C. Bottoms Professorship in Music honors Dave's late father and his mother, a resident of Auburn, Ala.

I had a Christmas note from Hollie Ruffner Clarke reminiscing about our wonderful 25th class reunion.

My family is busy with June wedding plans. Our daughter Michele '83 will be married in the Wren Chapel.

News is light. Please keep in touch and share your fun times and achievements and any word you receive from classmates.

63

Judith Murdock Snook
(Mrs. Donald Snook)
1029 Sanderling Circle
Audubon, PA 19403

Paula Margolf Whitaker received her Ph.D. this past July. Our congratulations! I know Paula would enjoy hearing from old friends — her address is Water Edge Farm; Route 3, Box 891, Dade City, FL 33525.

The Rev. Thomas Law and Gay Barnes Law celebrated Tom's 20th anniversary as pastor of St. Paul's Christian Church in Raleigh. Anyone in the area, do stop in on Sunday morning!

Diane Rivinus took an enjoyable trip last spring to the Turks and Caicos Islands north of Haiti.

And while on the subject of travel, Barclay Bell Nakhleh has been at it again. This November found her touring Muscat, Nizwah and Salalah in the Sultanate of Oman. During the summer she came to the States. (She lives permanently in the United Arab Emirates.) While here she talked to Phyllis Garris Powers. Phyllis' husband is a retired U.S. Navy captain and now has a consulting business in Virginia Beach. Phyllis does substitute teaching there.

Peggy O'Neil Kossler is keeping busy this year as secretary of the League of Women Voters of Virginia and is serving on the Williamsburg Regional Commission on Growth. Her son Neil was married this past year, which was a highlight for her.

All you "frequent flyers" will be delighted to know that David Middleton, now an aerospace engineer living in Yorktown, is a member of the research team that has developed an airline safety invention. The device, called TOPMS (takeoff performance monitoring system) will aid the pilot in takeoff decisions. Dave and the team were presented with an award by the *Industrial Research and Development* magazine. Our congratulations and thanks!

Jane Hendricks Lindsey found time to write a note — how, I don't know. Her nine children range from a preschooler, three in elementary school, a high school junior and three in college, to daughter Sherri, who graduated from BYU and is on a church mission in Japan. Two of the three in college are also serving missions — one in England and the other in Argentina. Jane's husband, Tom, is a dentist. They team together teaching marriage communications skills and/or parent-teenager relationships to groups in Virginia, West Virginia and Maryland. Jane, it was great to hear from you!

The common thread on many, many Christmas cards this year was "See you at our reunion!" We should have a great turnout for our 25th!

Lee Williams McBride is back in the United States now, living in Chevy Chase, Md. One daughter is in high school; the other, at Washington and Jefferson College. Lee is enjoying an oil painting class and visiting exhibits downtown.

Vi Sadlier Huse also has one child in high school, and another, a daughter, is at Dartmouth. Both children have been participating in school play productions. Vi is still busy with church activities although she is trying to whittle the number down to allow more time for other things.

Sandra Dixon Bowen, secretary of the Commonwealth of Virginia, is a member of the Tercentenary Commission, a group of illustrious men and women who will be planning observances of William and Mary's 300th anniversary in 1993. Events will begin this year and continue through 1993.

Susan Shaw Bowden began with our class, but graduated with the class of '62. Her daughter is at the University of Virginia. Her son graduated from William and Mary last year. She is considering herself part of '63 for our reunion!

Karen Harkavy Toker is still in private practice in pediatrics in Rockville, Md. Their daughter is in high school and their son is at Yale.

Christine Grosser Lotts is a supervisor in the structural mechanics unit of the Aerospace Technologies Division of PC Kentron, Inc., in Hampton. She has authored and co-authored 12 technical publications and has received many NASA letters of commendation.

Marie Lynn Hunken hopes to travel from Tucson to our reunion. She spent Thanksgiving in Mexico and was back in Virginia last June. Marie Lynn is becoming more involved with environmental issues through her job of arranging public participation on projects funded by the various levels of government. Recent growth in Tucson has affected many areas. Southern Arizona wants to preserve the desert.

Pat Thomas Ogren and Ken '79 M.B.A., have a daughter at William and Mary now. Their son is at the high school where Pat teaches. Ken moved into a new office recently.

Dale Harris Cohen and Dick '61 have both children at Duke. Dick and Dale traveled to Scotland and London last summer. Dick continues to practice law, and Dale is running a consulting information business in scientific, business and market research for several Johnson and Johnson companies and Union Carbide.

Sally Siegenthaler Lichtenstein and Dan attended a wedding in Aspen and visited Mary Fuller Osborne '61 and Ed in Colorado Springs. Mary is a partner in an accounting firm, and Ed is in private industry after retiring from the Air Force Academy. We also heard from Sally's brother Pete '61, who sounds fine in Atlanta.

Sherry Parrish Swan keeps busy just keeping track of her and Al's children. They are all going to schools from London to California with Atlanta and Colorado in between. Sherry has quit her job and is enjoying having the time to spend on their sailboat in the Bahamas.

Betsy (a.k.a. Liz) Holland Lunger and George are in Louisville. Their children are at the University of Kentucky and the Naval Academy.

I loved getting a photo Christmas card from Kathy Dudley Okada. She has been keeping me up with pictures of their twin daughters who are at Stanford, but I loved seeing Kathy and her husband in this year's picture. The Okadas live in Connecticut but travel to California with their daughters going to school there and having David's family there.

Begin making your plans now for that big 25th reunion in the fall! Hope to see you then!

65

Susan Stevenson Landis
405 Lake Drive
Daniels, WV 25832

ALUMNUS NAMED BAR PRESIDENT

Ronald L. Buckwalter '62 BCL, of Lancaster, Pa., has been named president of the Lancaster Bar Association. Currently a judge of the Common Pleas Court in Lancaster County, Buckwalter holds his bachelor's degree from Franklin and Marshall College in Lancaster. His term runs through 1988.

WATKINS RE-ELECTED COLLEGE RECTOR

Hays T. Watkins LL.D. '82 and Henry T. Tucker Jr. '72 have been re-elected rector and vice-rector of the College by their colleagues on the Board of Visitors. James E. Ukrop '60 of Richmond was elected secretary, succeeding Harriet Nachman Storm '64 who completed eight years of service on the board.

ALUMNUS TO MANAGE THEME PARK

John Hudacek '73 has been named general manager of Worlds of Fun and Oceans of Fun, a 223-acre entertainment complex located in Kansas City. As general manager, Hudacek will oversee the day-to-day operation of the park, which has 130 permanent and 2,200 seasonal employees. He has held the position of assistant general manager and director of resale since April 1986. Hudacek has 11 years of entertainment experience, including a period with Busch Gardens in Williamsburg.

67 Mrs. Thomas C. Murphy (Cathleen Crofoot) 17173 Overlook Drive Chagrin Falls, OH 44022

Writing this late in January, the gloriously sunny and warm weekend of our 20th seems many seasons past. What an outstanding turnout and memory font for people were very real parts of our lives for four years.

As Laurie Uhl Swanson put it, "personalities were the same only stronger. . . we seemed caricatures of ourselves, larger than life." I think the pleasure from seeing old friends was, in so many instances, an unanticipated feeling. Business cards and notes on the corners of napkins did not all make it back to Ohio, so please forgive me for omitting those of you I shouldn't; drop me a line for the next column!

We have a Guinness number of attorneys and attorney spouses in our class. Bob Bradenham is with the U.S. District Court in Norfolk. Tron Brekke is with FBI headquarters in Washington, D.C. (and still single).

John Bane practices in Hampton, Chuck Sievers in Manassas. Jeff Gaber and Sharon are in Herndon, and Nancy Dyson Shaw and Jim live in Springfield.

I think Bobby Willner is also in Northern Virginia, as are Glad Bulwinkle Hatchl and Russ '66.

John Wagstaff practices in Clearwater, Fla. Stu Spirn, new wife and new baby are in Williamsburg.

Ruth Eye Sours and John '66 are in Atlanta, where John has a practice and Ruth is a flight attendant for Piedmont. Their daughter Cindy is a sophomore at the College.

Bill Register and Nancy are in Alexandria. John Parsons has a practice in Salt Lake City, and Jim Lewis (you were missed!) is in Jacksonville, Ore.

I'm inclined to include Tom Niles (in Manassas) and Chris Coggins Rowland and Bob (Chesapeake, Va.) in this group also. Please correct me in writing with news if I'm mistaken.

Peggy Butt Richards owns a printing business in Virginia Beach. Jan Heinemann Kitchin and Butch live there also; Jan is a school librarian and Butch owns a restaurant(s?).

Recalling Jan and Peggy brings to mind one classmate's comment that we are "aging gracefully;" I think a phenomenal number hasn't aged at all! My husband thought Billie Cayot was someone's daughter. Billie recently sold a computer firm she owned for several years and is now doing private consulting in San Francisco.

Mary Van Lear Van Kirk and Phil '64 are in Morristown, N.J. Mary is a sales executive in yellow pages advertising and their daughter Larissa is a freshman at the College.

Linda Trice Smith and Gus J.D. '67 are in Potomac, Md. Linda has her own business, Gus is an attorney and son Mark is a freshman at the College.

Mike '66 and Julia Ann Dickenson's daughter Ann was accepted on early decision and will be coming down from Richmond as a freshman in the fall.

I think Louise Callahan Chambers' daughter, Lalie, is another applicant for fall admission, as is my daughter, Kelly. Louise and Ron are in Tenafly, N.J. I ran into her with Lynn Skerrett Gilliken and her husband (I felt like a dwarf on the sidewalk), who were at Homecoming for the day from Newport News.

Mary Lynn Murphy also lives in Newport News, teaching high school English and studying for the seminary. Kathy Tupper came up from Nashville. She was an illustrator for J. Walter Thompson for a long time and I can't remember who she is with now.

Laurie Uhl Swanson and Fred are still setting in Haddam, Conn., after many years in Saudi Arabia. Their son Eric is a freshman at Vanderbilt, Peter is a high school junior, and Laurie is teaching first grade south of Haddam on the Connecticut River.

Mary Nuernberger Mason and husband

Dick are in Chambersburg, Pa.; Mary has continued doing social work and I think her husband is an attorney.

Mary Ward Frohn came up from Lake Charles, La. Her husband David is an attorney and Mary remains active with the Junior League and the activities of their two gifted children.

Merrill Barber Dick and Jim '66 are living in Gainesville, Va.

Charlie McCandlish and Anne came down from Newark, Del.; is a chemist with Dupont.

Mary Jim Baskerville Shaw and Steve were up from Stuart, Fla., where Steve is in banking.

Debbie Thomas Pomeroy '66 and Ben live in Midlothian. They have three children, Brad, 18; Scott, 15; and Christie, 13. Ben is with Colonial Life. Gary King also lives in Midlothian.

Two people I owe an apology for not recognizing are Mike Keyes now a bank executive and living with his family an hour south of me in Massillon, Ohio, and John Haley, an automotive executive in Houston, bodily transformed by 60 well-toned pounds.

Davey Crockett was another face from the past, healthy, happy, and tremendously proud of a very lovely daughter whose picture he shared.

Bill Westbrook was also a physical fitness specimen — tan, happy and prosperous.

Lou Bradley flew in from Oklahoma City (I can't remember his profession).

Betty Bishop Griffin and Gene '66 a Williamsburg attorney, heard from Del Harnsberger Sayers and Nick '65 at Christmas, stating they have moved to Tampa with their daughter and son, 14 and 11. Nick is in the food brokerage business and Del is teaching English at Brandon High School. Betty remains busy working part time for Gene, conducting entrance and placement testing for a private academy, and driving to swim meets for Beth, 15, and John, 10.

Louise Hudgins Phillips ended up in a cast and on crutches for a month after sustaining torn muscles at the Alumni Tennis Tournament. She was planning to resume play early this spring and should be in top shape for our 25th!

I know I've left a lot of you out . . . having forgotten facts about locations, jobs, families, etc. Please enlighten me with a note and details. My next deadline is April 8. PLEASE KEEP IN TOUCH!

69 Mrs. Harold E. Williams, Jr. (Mary Chris Schmitz) 40 Cameron Glen Drive Atlanta, GA 30328

Thank goodness for Christmas cards or the news for this column would be skimpier than the last column! Mary Margaret Pastore Dolph wrote mostly about our high school friends but did let me know she is alive and very busy with her four children — Cyrus, Katie, Peter and Chester. Mary Margaret lives in Norfolk where her husband is an attorney.

Jeanne Forrer and Jack McPherson are my most faithful holiday - only writers. They live in Arkansas but Jeanne managed trips to Richmond and Williamsburg while Jack spent most of his traveling time overseas. Jeanne says she "refuses to write anyone, so the Gazette is the only way I can keep track of everyone."

That is what many of us feel. Don't you wish more people took the time to write their news?

My college roommate Trisha Frazier Rigney wrote that she is now a self-employed executive-search consultant working on retainer to locate top-level management types in many fields. She used to place data-processing people, so this is branching out. Trisha lives in Walnut Creek, Calif., if any of you are looking to make job changes. Her oldest daughter, Vanessa, is a college freshman; Page is a high school senior; and her little boy is 3-1/2. I don't know where she finds the 30-plus hours a week that she works!

Trisha hears from Helen Rhea Gretz and Ellen Mauck Lessy from time to time.

Happy news from Becky Vaughan Gillette. She and Walker (University of

Richmond '70) are expecting a baby in May and Becky will retire from teaching high school English for a couple of years.

John Mowen sent me a note announcing — that he has been appointed a "Centennial Professor" at the College of Business Administration of Oklahoma State University. What that means, says John, is a research chair that offers a travel budget, research support funds and full-time summer research support. It's a nice honor. Congratulations!

Jim Barton, director of emergency medicine at Williamsburg Community Hospital, was the ship's doctor for the trans-Atlantic reenactment voyage of the *Godspeed* in 1985 and one of only three crew members who completed the entire 8,000-mile voyage. Jim spoke about the trip last summer at the Nottoway County Historical Association meeting.

David M. Rohr is presently an associate professor of geology at Sul Ross State University, Alpine, Texas. He spent part of last summer doing paleontological field work in the Brooks Range of Alaska.

Marian "Lou" Cooper Noon reports that she is married to Tom Noon and has a 4-year-old son, Kevin. Lou is working in the research and development department of Life Technologies, Inc., developing and testing products used for cloning and genetic engineering.

Sally Barner Leslie, in a newsy note on all her family, described herself as "director of support services." With three active little boys under age 8, Sally stays busy just keeping up! She does teach parent/tot, pre-school and adult swimming in her free time.

Mary K. Thompson Pruiett sent a darling picture of her two boys, Timothy, almost 3, and Daniel, 6 months. Mary K. returned to work in September with IBM and says that life is "a little hectic."

Lou Tonelson took the time to write a long note for the column. Lou received his doctorate in educational administration from VPI in 1984 and was recently promoted to principal of Plaza Junior High School in Virginia Beach. Plaza has 1,500 students in grades 7-9 which must be a handful! Lou and Anita's daughter is in junior high, and their son is in third grade. Lou has seen Ed Kellam and Al Albert from our class recently.

Nancy Verser Brumback is enjoying free-lance writing. Her two daughters are in fourth grade and kindergarten. Ron is the vice president of marketing for a start-up high-tech company in the Boston area, and their house renovation is complete.

I had only one volunteer to take over as class news editor so if no one else comes forth soon, the job will be hers. If you want to write the column and bring some news from your college friends, please let me know.

71 Craig Windham P.O. Box 9506 Washington, DC 20016

If you saw the movie "Broadcast News," you know what Steve "Swing Thing" Abramson goes through every night. He calls the shots as director of the 11 p.m. news on KTTV, the Fox station in L.A. Steve was personally recruited by TV and tabloid czar Rupert Murdoch, who threw in the keys to a Beverly Hills bungalow to clinch the deal. But now that he's in Tinseltown, Steve has not been content to stay behind the camera. His agent has already landed him the job of vacation relief for the bailiff on "People's Court." On weekends, Steve, wife, Vicki, and son "Tiny" Tim enjoy jogging down Rodeo Drive in their matched green-and-gold William and Mary sweat-suits.

Jeff Wren never competed in a swim meet and never took a course in coaching, but he's now the fearless leader of the University of Maine women's swimming team. And lest you think he's in over his head, Jeff's career win-loss record is 101-32. Jeff also teaches at the university and is married to one of his former swim team members. To keep fit himself, Jeff swims, windsurfs, kayaks and rides his bike along

the rolling roads of Maine. (He occasionally even pedals the 150-mile round-trip to his parents' house.)

Jeryl Mumpower is on a New York state government committee that will predict the future of the state in the 21st century (if it has one).

Martin Oakes has earned a B.S. degree from the University of Texas Health Sciences Center in San Antonio.

Where Are They Now?: Oma Gail Simmons, Marsh Ricketts, Laurence Reece, Michael Norris, Marc Paster, Linda Moore, Jim McTigue, Suzanne Lewis, Jerry Lazarus, Laura Ann LaBonte, Vicki Jeffress, Zoe Ann Hall, Bruce Gravatt, Carol Ware and Brian Festa.

Just call her Queen of Artifacts: Cathy Slusser is now the Virginia state archeologist, responsible for keeping track of the many publicly and privately funded digs in the commonwealth. (She was previously chief archeologist for the District of Columbia, but her excavations kept striking deposits of red tape.) One of Cathy's key jobs is identifying historical sites that may be threatened by development or erosion.

Cathy often runs into Nick Lucretti, who's now senior archeologist for the James River Institute for Archeology, a private organization that's excavating the site of a future housing development. (A recent day's haul: arrowheads, ax blades and an 18th-century wine bottle bearing the stamp of Richard Bland.)

Cathy says Virginia is an archeological treasure trove because people have been living in the state for at least 10,000 years. She says archeological sites are like books about the past. "When a site is destroyed, the book is destroyed."

Your intrepid reporter will be following various and sundry Presidential candidates around the country during the next several months. And the reservoir of class news is dry. So please drop me a note this spring with some gossip about yourself or a friend.

73 Jay A. Gsell 320 Schley Street Cumberland, MD 21502

Well here I sit in the wilds of Western Maryland fighting off "deadskins" fever (I'm a Giants/Broncos fan) and anticipating the coming of spring. My what optimism.

On a more personal note, Cumberland just closed out its bicentennial year celebration and the Gsells went to the ecumenical closing service dressed in our best colonial costumes. Now I know what the "founding fathers" went through just to go out in public, let alone dance and party hearty.

Let's start off this version of "As the World Turns" with some long-distance notes.

Out in the snowbelt of Denver, Colo., Ann Lipton is the newly appointed director of the Central Agency for Jewish Education. She relocated from West Palm Beach, Fla., where she directed a similar education program. The Brooklyn, N.Y., native, with degrees from Hunter College as well as W&M is now pursuing her Ph.D. in Jewish education and Hebrew Culture at NYU. This follows her two Fulbright scholarships, which took her to England and Jerusalem.

John Hudacek presently in Kansas City, Mo., with his wife, Debra, and their two children, has recently been promoted to general manager of Worlds of Fun and Oceans of Fun, a Mid-West theme park complex. As you may remember from earlier tidbits on John, he brings 11 years of entertainment experience to the 223-acre park, with previous engagements with Busch Gardens, Hardees restaurants and the Hilton Hotel Chain.

David S. Peterson, our resident historian on the University of Texas at Austin faculty, is now a Fellow at the National Humanities Center in North Carolina where he is writing a book on the Florentine Church in the Renaissance.

Moving back to the Southeast, we find

ALUMNA NAMED TRUST LIBRARIAN

Sally R. Sims '72 has been named librarian for the National Trust for Historic Preservation Library at the University of Maryland, College Park. She holds her master's degree in American Studies from George Washington University and an M.S.L.S. from the College of Library Science of Clarion University. She was coordinator of the historic resources survey of Clarion County, Pa., from 1979 to 1981 and user education librarian in the Ohio State University Libraries from 1983 to 1987.

EWELL EDITS BOOK ON LATIN AMERICA

Judith Ewell, professor of history at William and Mary, is co-editor with William H. Beezley, professor of history at North Carolina State University, of a new book on Latin America titled: *The Human Tradition in Latin America: The Twentieth Century*. A collection of essays emphasizing the human element in the study of modern Latin American history, the book focuses on the lives of 23 men, women and children. Although they differ widely from each other in background and circumstance, all have been caught up by the changes that accompany the modernization of a traditional society.

Ellen M. Burkhardt at Richland Memorial Hospital in Columbia, S.C., working as a consultant dietitian and coordinator of the "Eat Hearty" program, a cardiovascular nutrition/education program. Ellen obviously has put the Trinkle/Crotty Bros. experiences behind her. To fill in the idle seconds, she is also taking pre-med review courses at U.S.C.

James E. Eldridge has just become a member of the law firm of Hollowell & Silverstein, P.A. in Raleigh, N.C., which appropriately has an office on Williamsburg Square.

Back in Virginia, the education field has also seen the rise of a couple other 1973 alums. **Ronald E. Singleton** is now Mary Washington College's director of public information. Ron took on the newly created position after coming down from a five-year stay in Winchester, Va., at Shenandoah College and Conservatory. Among his degrees Ron has a master's in science in mass communications to go along with 13 years of college administration/media relations experience in places like Ferrum College, Shippensburg University, Pa., and the University of South Carolina. To top it all, Ron and his wife, Judy, who he spirited away from Danville, Va., have two children and are living in Fredericksburg, Va.

Chalmer L. Pritchard Jr. is a member of the physical education department at Richard Bland College in Petersburg, Va. The associate professor is also into his 12th season as men's basketball coach.

John T. Reynolds has recently been appointed director of the Center for Economic Development at Southside Virginia Community College in Keysville, Va. This past July he married the former Penny Ver-ser.

In the Washington Metro area, **Mary E. Mann** was recently appointed deputy assistant attorney general of the Land and Natural Resources Division of the U.S. Department of Justice. Mary will be supervising the enforcement of environmental laws in the district courts. Superfund sites, beware!

Barbara Woodall and her husband, **Scott Kragie '72**, have recently moved to McLean with their son Alexander. Barb is juggling three separate ventures as homemaker, American University Law School instructor and graduate course student, while Scott stays sane working for the D.C. law firm of Squire, Sanders and Dempsey.

Down in Springfield, **Daniel J. Perry** is now general counsel and corporate secretary at Mandex, Inc., a professional services company. Dan is residing in Arlington.

The artistic endeavors of two our classmates have been recognized out in the real world and here are their stories. **David B. Forer** has continued his parents' card publishing legacy, where he is vice president. Masterpiece Studios has published a Christmas card etiquette booklet to go along with their very personalized "Joy" line of Christmas cards and they are truly a cut above the ordinary.

Philip B. Eastham in Charlottesville, had two of his illustrations published in the *Living Church*, a weekly publication of the Episcopal Church. Philip continued his art history studies at Cambridge University, England. In addition to his free-lance work for Ash Lawn, the home of President James Madison, and various Christmas cards, Philip is an illustrator for the U.S. Army's graduate school of law.

Finally, **Willard F. Robins III** is now chief financial officer for Universal Marine Services, Inc., in Portsmouth, Va. He also dabbles in balance sheets for the accounting firm of Browner, Robins, Edmondson and Wright in Chesapeake. Somehow with an M.B.A. from Old Dominion University in 1980, he also found time to help bring seven children into the world, whose ages now range from 1 year to 14.

No other glad tidings to pass on at this time. All you other barristers, parents, accountants, educators, clergy or just plain folk should drop me a line or use AT&T to keep us current on your carryings on. This will be our 15th year since we left the safety of the Sunken Garden and Lake Matoaka, so it's time to shake out the cobwebs. Keep on truckin'.

75 Linda Cool Larson

805 Lakeshore Drive
Beaver Dam, WI 53916

Greetings from the frigid North. I guess the Larsons have some pretty big news. First, small child number four arrived in November. His name is Matthew James, and he weighed in at 8 lbs., 1 oz. No small feat, Linda would have you all know.

Next, the Larsons are heading south. We will be pulling up stakes and moving to Greenville, Tenn., in March. I've gotten a new job managing a factory there. It seems that I've gotten a new job with each child. Linda has been quick to point out that from now on, I'm on my own.

Next, we'd like to congratulate **Mark Duffner** for his outstanding season at Holy Cross (11-0). I'm sure that we feel the same as the rest of the country, that Gordy Lockbaum should have gotten the Heisman Trophy. On to Ohio State, Mark?

David Forman called a few weeks ago. He wanted to let the class know that he finally picked up his diploma. Could be a record.

Debbie Stone wrote to say that she has finally put California dreamin' behind her for a while. She's back in Virginia and living with her mother in Midlothian, Va.

We got an interesting letter from **Bob Cumby '76** and **Erik Rasmussen**. They and their spouses traveled together on a tour of East Africa. Erik also let us know that he has left private law practice to become an in-house attorney for a group of hospitals.

Clare Monahan Corson wrote that she and her daughters Clare and Jennifer are living in Reston, Va. She's working again as a paralegal and loving it.

A big piece of news from Lynchburg, Va. Reid Johnson was chosen as Good Citizen of the Month. Reid, first grade, is obviously starting to take more after his mother, **Melissa Wright Johnson** than father **Wayne**. Reid also told us in his letter that sister Whitney loves school, and that Mom is teaching half days in their school. Reid is proud of Dad, too, because he's been promoted to director of personnel for Fleet.

We got a neat Christmas card from **Doug and Donna Follini Reichert '74**. We watched their girls grow before our eyes as they included pictures from '85, '86 and '87. They had a lot to share after all that time. The biggest news is that they've had an addition. Daughter Laura was born last April. In addition, they built a new house in Oakton. The address is 2402 Oakmont Ct., Oakton, VA 22124.

Tom and Kathy Todd Wilde '74 wrote from Williamsburg that Tom has accepted the position of adviser to the Lambda Chi Alpha fraternity. Sounds like they can use Tom's help, given the renovation project. Tom has moved to a new office complex. Kathy was promoted to assistant director of development in November. They all sound healthy and happy.

Doug Pilley wrote that he and **Mike D'Orso** had a chance to get together and reminisce. They've both become quite accomplished writers. They particularly shared memories of the '72-'73 intramural football championship team—the Noses.

William A. Prince wrote that he has become director of governmental relations for Chernoff-Silver & Associates of Columbia, S.C.

Patricia Metzger Cotts wrote from Menlo Park, Calif., to say that she has continued to work for IBM since receiving her Ph.D. in 1980. She's married and has a daughter, Sarah Kathryn, born in Sept. 1986.

Both **Bill and Hulet Easterlin Kitterman** are assistant principals in Louisville, Ga. They have three healthy, vigorous children, Parker, 8; Margaret, 5; and Mary Hulet, 2.

Lawrence D. Bussey has become the rector of St. Luke's Episcopal Church in Minneapolis. **Wayne Logrus** has been appointed general manager of the breakfast unit of Campbell Soup Company. **Emily Paul Miller** began teaching at Washington and Lee.

Laura Bechtel Meltzer wrote last fall to share her address, 259 Lawrence Ave., Highland Park, NJ 08904, and to inquire about **Shelley Nix**. Coincidentally, we got a Christmas card from Shelley. A lot has changed for her in the last year including a new job and a new country. In the spring, she started as the coordinator of educational activities for new customers in Europe. She can be reached c/o Metaphor Computer Systems, Ltd., 3rd Floor, 40/41 Pall Mall, London, SW1Y 5JG, England.

That's all from Wisconsin. Our spring letter may well come from Tennessee, but use this address until further notice. Linda wanted me to apologize that no Christmas cards were sent this year. We didn't even put a wreath on our door. I've been traveling back and forth to Tennessee, getting the operations underway, and she's been left with four short people and an absentee husband. I'm going to nominate her for sainthood!

77 Carol Baranofsky Pugh

223 Scottdale Road
Apartment B-405
Lansdowne, PA 19050

It was wonderful to see so many of you at Homecoming in October! I have also heard from several first-time writers. Keep those cards and letters coming!

It looked as if the class of 1977 had the best turnout at Homecoming '87, but I may be biased. I had the opportunity to talk to several of you and to see many others from afar. Those I did talk with seemed to be doing quite well.

I saw numerous classmates at the Homecoming Parade. **Maria Koenig Dunn** and her husband, **Kevin '78**, were there with future alumna, 5-month-old Maureen. I met **Linda Angevine Neely's** husband, Donny, and discovered that Linda is almost a neighbor of mine. She lives nearby in Delaware and is working for DuPont.

Patty Abernathy, Rick DiGiovanni, Jerrold Epstein, Mark Strattner, Pam Walker and **Karen Claussen Shields** were but a few of the other folks I saw at the parade. Karen and her husband, Mark, recently moved into a new house and are expecting their first child this spring.

At lunch I ran into several more classmates: **Diane Hull Gansauer, Katie Kraft, Ian Scott-Fleming** and **Zack and Judy Sirota Perdue**. Judy and Zack are expecting their second child sometime this spring and are keeping busy with their medical practices in Harrisonburg. (Zack is a neurologist, and Judy is a pediatrician.)

After the game, I had the opportunity to talk to still more folks at the postgame party. **Kathy Eason** is living in Charlotte, N.C., and working for IBM. **Paul Herndon** is up in Northern Virginia where he works for the American Internal Medicine Association.

Lucy Sibold is also living in Northern Virginia and is working for the EPA. **Peggy Schott** lives in Midland, Mich., and continues to work for Dow.

I'd better switch to the mailbag at this point. I wouldn't want to discourage folks from writing to me!

Nate Adams wrote from Winchester where he joined the law firm of Hall, Monahan, Engle, Mahan and Mitchell in April of last year. After graduating from Washington and Lee's law school and clerking for a federal judge in Roanoke for two years, Nate practiced with a law firm in Roanoke.

He has a question that I also heard several people ask at Homecoming: what ever happened to **George Tsahakis**? Anyone with any knowledge of George's whereabouts is asked to write to me so that I can include the information in my next column.

Other barristers in the news include **Cindy Bailey** and **Marc Weissman**. Cindy is the executive director of Virginia's Department of Waste Management and spoke on "The Solid Waste Crisis in Virginia" for the Rappahannock League for Environmental Protection this past September. Before holding this job Cindy was

an assistant attorney general for Virginia, serving as counsel to the State Board of Health, the Health Commissioner and the State Department of Health on environmental matters.

Marc has recently started his own law firm, Weiss & Weissman, in San Francisco. The firm concentrates on tax law, estate planning, real estate and general business matters. His wife, Jeannie, serves as the firm's office manager. Marc practiced law in Connecticut for three years before moving to San Francisco where he worked for a tax law firm for several years before starting his own firm. Best wishes!!

Laurel Bond Mitchell wrote from Miami where she is working as a manager of corporate control and analysis for Ryder System. Her interest in football has increased since her marriage last March to **Chris Mitchell**, an Alabama graduate. Guests at the wedding included **Carolyn Testa Rye, Sue Wasilewski** and **Betsy Johnson Garber**.

After several years in the working world, **Victoria Coughlan Czarnek** decided to go back to school and finished an M.S. in engineering mechanics at VPI in 1986. She is now living in Blacksburg with her husband, Robert, an assistant professor at VPI, and is currently working as a full-time mother caring for their son Matthew.

I'm out of space for now. Please keep up the steady stream of correspondence.

79 Mary E. Keen

3500 Colony Crossing Drive
Charlotte, NC 28226

Yet another Homecoming has whizzed by. Write with news about folks that you saw at Homecoming. The next deadline is April 8.

Genevieve Longerbeam received her M.Ed. in guidance and counseling from William and Mary last August.

Susan Snediker Newman was recently named secretary general/executive officer of the International Real Estate Federation. Susan previously served as education manager of the National Association of Realtors. Prior to joining the association, she taught and developed curricula for seven levels of French in North Palm Beach, Fla.

James Shaffran sang in last summer's Kennedy Center productions of "Let 'em Eat Cake" and "Of Thee I Sing." Other members of the cast included Maureen McGovern, Jack Gilford and Larry Kent. As of last September, James was working as an account representative for Westlaw, an on-line legal research database.

Michael C. Henry lives in McGaheysville, Va. The Henrys are expecting their first child this March.

Mary-Paula Bailey is a fashion copywriter for Macy's in the newspaper/magazine division. Her ads may be seen in the *New York Times*, *New York Magazine*, *Elle*, *GQ*, *W* and others.

Mary-Paula keeps in touch with **Nancy Antle Chilcote** (now a Mom) and **Amy Edgerton Rose** (now a resident of Baltimore). She saw **Kathy Yankovich Hornsby** and husband, Bruce, during Bruce's highly successful tour, and also attended the wedding of **Chris Royston**.

Lawrence Fineran was promoted to director for regulation and competition of the National Association of Manufacturers (N.A.M.). Lawrence, who has been with the N.A.M. for 2-1/2 years, will be dealing with regulatory issues, telecommunications and antitrust. He is also co-chairman of Americans for Safe and Competitive Trucking.

Robin McCutcheon Duncan recently expanded her family with the addition of her second child, Luke. In addition to handling two small children (her first child is 3), Robin helps her husband run his trucking business.

Mary Ann Wright Dodge was promoted to software manager at IBM in Manassas. The Dodges have been traveling all over the country, visiting Mount Rushmore and Minnesota and skiing in Utah. Additionally, Mary Ann is expecting her first child in August.

Linda Ciavarelli is still working as a chemist at NOVO Laboratories, but is cur-

HARRIET STORM '64 LEAVES BOARD OF VISITORS

Harriet Nachman Storm '64 retired from the Board of Visitors at its February meeting after serving for eight consecutive years. Mrs. Storm, who was not eligible for reappointment, received a hand-lettered resolution detailing her years of service to the College and its students. Making the presentation was Jay Austin '88, president of the Student Association.

PRESIDENT NOMINATES ALUMNUS TO FEDERAL COURT

President Reagan has nominated Shannon T. Mason Jr. '62 B.C.L. of Newport News to be a United States District judge for Eastern Virginia. If confirmed by the U.S. Senate, Mason would become the first federal judge from the Peninsula area of Virginia. Mason has received a "well qualified" rating from the American Bar Association, according to John Miller, an aide to Virginia Senator Paul Trible, who said he believes Mason "will make an excellent judge" and called on the Senate to confirm him promptly.

JOHN MILLAR '81 M.A. PUBLISHES NEW BOOK

John Fitzhugh Millar '81 M.A. of Williamsburg has published a new book, *A Handbook on the Founding of Australia 1783*, which tells the story of the European discovery, exploration and founding of Australia from 1606 to 1792. Co-published with the Library of Australian History, North Sydney, the book is available from Thirteen Colonies Press, 710 South Henry Street, Williamsburg, Va. 23185-4113 for \$16 in the sewn paperback and \$24 in hardcover.

rently applying to schools for an M.B.A. program. Linda also sells Mary Kay Cosmetics and handles four condos, which are investments. She received a visit from Mary Ann Dodge while the latter was attending IBM's Corporate Manager's School in Armonk, N.Y.

Thanks to all who sent letters. Everyone have a wonderful spring.

81

Pamela Pritchard Padgett
10552 Montpelier Circle
Orlando, FL 32821

83

Carolyn Finocchio Martin
202 Crest Road
Marlton Lakes, NJ 08004

Happy New Year! Thanks for all the season's greetings. I hope your year is off to a great start.

From your cards and letters, it looks like there's much to look forward to this year, starting with wedding plans.

Mary Evans recently became engaged to Michael Suski. Mary is a territory manager for Norrell Services, Inc.

Also planning a wedding is **Barbara Cline**. Barbara is employed as a personal computer specialist with the Supreme Court of Virginia, one of the nation's pilot court systems for developing automatic financial and case management systems in a statewide network. Besides working and planning an October wedding, Barbara is also studying for her master's in public administration at VCU. Good luck juggling; it's fun!

October must be a popular month. **Basia Deren** and **Kevin Braddish** are planning an October wedding, after Basia takes the bar. Basia is finishing her last year at Rutgers Law School. Kevin works for the Bank of New York on Long Island. A message from Basia: "The Hos survive, always in our hearts."

And those experiencing the "newness" of being married:

Captain Carlos Ortiz married Shawn Mahieu in January. Carlos, an attorney in the Judge Advocate General's Corps of the Army, is stationed in Aberdeen, Md. He is pursuing his L.L.M. degree in tax law at the University of Baltimore.

Sherri Schmulling Bowden married Jim Bowden in October. **Beth George McNamez** was one of the bridesmaids. Following a two-week honeymoon in Hong Kong and China, Sherri and Jim returned to Chicago where Sherri began a new job with Sanwa Business Credit Corporation.

Also tying the knot recently was **Ted Fauls** and **Alison Vadnais** '86. The wedding party included usher **Phil Dawson** and reader **Carol McGuire**.

Carol's note to me also mentioned news that **Scott Gregory** was being auctioned off at a Big Brother of Richmond bachelor auction.

By the way, Carol wins the '87 award for the most exotic vacation — a trip to West Africa and Timbuktu in the Sahara Desert.

And one final newlywed note, **Kathy Houser Bruinsma** reported that **Debbie Krasich** married Greg Munson last summer. Following a honeymoon in Germany, the couple lives in Connecticut.

And those with new additions to the family include:

Laura Henry and **Doug Fraedrich** celebrated the birth of their second child, Amy Lee, in September. Doug works as a physicist at the Naval Research Lab and is attending graduate school at the University of Maryland. Laura works part time as a legal assistant for the Washington office of Kirkland and Ellis.

Karen Munly and **Glenn Ruffner** welcomed the birth of their third child, David Bryan, last February.

Those finishing up their advanced degrees and/or beginning new jobs include.

Lauralyn Sessoms is preparing to receive her M.A. in museum education from W&M in May.

Tom Wong is finishing the chiropractic program in April. He is currently an intern at Goodfellow Chiropractic Clinic.

Tracy Houck began a new job with Marsh & McLennan as a technical writer and plans to start the law school application process. Tracy also reported that **Christie Baty** is working as a paralegal in Alexandria and attending law school in the evenings.

David Isaac wrote that he recently accepted the position of corporate labor counsel for Leaseway Transportation, Inc., in Cleveland.

And **Charlotte Davis**, in Queens, also recently began a new position with the NYC Housing-Building Department.

Finally, **Gary McDonald** was promoted to senior 6 p.m. (news) producer at WBIR-TV in Knoxville.

Those with new challenges include:

Bee McLeod Andrews really enjoys married life with **Rick Andrews** '81 and her advertising job as marketing and sales coordinator for *The Virginian-Pilot* and *The Ledger-Star* newspapers. In addition, Bee just completed her fifth marathon and qualified for the '88 Olympic Marathon Team Trials with three minutes to spare. Bee tries out for the team on May 1 in Pittsburgh. (And I thought I was good by running three miles on the weekend!)

Fellow marathon runners include **Parva** and **Peyma Oskoui-Fard**, who both entered last year's NYC marathon and finished in about five hours. Parva works as a database administrator at Morgan Stanley & Company.

Also living in and loving the Big Apple is **Denise Damon**. After receiving her M.F.A. in dance from the University of Michigan, Denise moved to NYC, "to be a starving artist." Actually not starving, since Denise, when not dancing, also manages the restaurant, bar and room service of the Sheraton Park Avenue.

Per Denise, **Lorleen Robinson** is working hard in Virginia. Denise also reports that **Kathy Finn** enjoys teaching French to high school students, and that **Pam Roberts**, after receiving her master's in hospital administration, now works at a hospital in Charleston, S.C.

While Denise and we fellow Northeasters are braving the cold winter (b managing to enjoy the great ski weather.), **Linda Csellak** is enjoying the Florida weather. Linda, who remains very active in the civic scene, is an assistant vice president of public finance in the Florida regional office of Prudential-Bache Capital Funding.

And on that warm note, I'll sign off this edition of the '83 news. Next deadline is April 8. Until then, be good and take care.

85

Janet L. Reed
4355 Ivymount Court, No. 36
Annandale, VA 22003

Hope you are all doing well in the new year. Not too much news this time.

I have started my second semester of night school working on my M.B.A. I have also begun studying Japanese and coerced **Tony McNeal** into it as well. Meanwhile roomie **Aileen Aderton** has been promoted at Marriott Corporation and will now have time at home to enjoy her new condo.

Elsewhere in Northern Virginia **Janet Grubber** is living in St. Mary's County, Md., and working as a personnel management specialist at Patuxent River Naval Air Test Center.

Diana Street announced her engagement to Lance Tracey of Alexandria, Va., and plans a summer '88 wedding. Lance is a graduate of RIP and is a civilian mechanical engineer working for the Navy. Diana is in her second semester at the University of Maryland at Baltimore studying for her master's in social work.

Brian White is living in Vienna in **Mark Tucker's** '83 house along with **Joe Jackson** '86 and **Chuck Shefer** '87.

In Williamsburg, **Sandra Sheffield Ingram** has married **Gary Ingram** '82. After a honeymoon in Arizona the couple returned to Williamsburg where Sandra is a chemist for the Firestone Synthetic Fibers Company and Gary works at Highland Springs High School. Those attending the wedding included **Heather Ames** and **Bill Brennan**.

Stephen Flowers and **Carolyn Baker** '87 were married Jan. 2 in Newport News. Stephen, **Mike Rackett** '87 and **Alex Martin** '87 entered the Southern Baptist Theological Seminary this past fall as master's of divinity students.

Richard Powell is back in Williamsburg working with the Colonial Williamsburg Foundation. **Susan Luebehusen** is now in her second year of law school at CBN University.

At UVA **David** and **Sharon Archer Oslin** continue their studies: Sharon on her Ph.D. in chemistry and David on his medical degree.

Andrea Connell is in Richmond working at the Gunst Corporation. She became engaged in the gardens behind the Governor's Palace in September to **Doug McGee** and plans an Aug. 1988 wedding in the Wren Chapel.

Up in Edinboro, Pa., **Aicha Cesar** is working on her master's in constitutional and international law at Edinboro University.

At Yale University **Dwayne Therriault** is in his second year of studies for an M.A. in East Asian studies. **Maria Stamoulas** is at Harvard law school with one year to go.

Robert Zaza is a platoon leader in an M1/M1A1 tank company that includes **Rick O'Keefe** '86. He is also a Civil War reenactor in the 6th Kentucky Volunteer Infantry and hopes to meet up with **Dennis Thacker** on the field in the battle at Gettysburg.

Gretchen Schmidt Conkey wrote to announce her marriage to Douglas Conkey, an '84 graduate of the Naval Academy. Douglas is an A-7 Naval Aviator off the USS *Forrestal*. Gretchen graduated from the Thunderbird-American Graduate School of International Management last August and is now in charge of the Jacksonville office of the Sea Barge Group, Inc., a container shipping company.

Todd Armstrong is now working for Norton Publishing as a sales representative in the LA area.

Overseas, **Lynn Newton** is stationed in Crete, Greece. She is planning a Dec. 1988 wedding to Brian Salley who is stationed at Goodfellow Air Force Base, Texas.

After receiving his master's in physics from UCLA, **Andrew Brandt** is doing research for his Ph.D. at CERN, an accelerator in Geneva, Switzerland. Andrew moved to Switzerland in April 1987 and will be there for two years.

Speaking of Switzerland, **Chris Walker** and **Dave Butler** flew over there for a couple of weeks of skiing during the holidays.

Leigh McDaniel was able to make it home from Seoul, Korea, for a couple of weeks to visit her family in North Carolina and some of her friends in Northern Virginia.

87

Karen Sheehan
23 Wilshire Drive
Syosset, NY 11791

Let us welcome a handful of newcomers to the alumni class of '87: **Mike Cole**, **Al DuPont**, **Jeff Heineman**, **Mark Locke**, **Ricky Miller**, **Rigg Mohler**, **Dave Pocta**, **Dave Szydiik**, **Carrie Taylor** and **Ron Weber** have all put the finishing touches on that most coveted William and Mary degree.

Rigg and **Carrie** certainly wasted no time following their graduation. Rigg is presently employed with the accounting firm of Coopers and Lybrand in Washington, joining classmates **Donna McWilliams** and **Diana Wilson**.

Following the completion of her environmental science degree, **Carrie** has relocated to Denver, Colo., in search of great skiing and, of course, employment.

The New Year finds **Theresa Jacoby** in Northern Virginia (finally!) working as an intern on Capitol Hill.

Liz Hunter has just begun her second semester as a graduate student in the School of Education at William and Mary.

After quite an extensive search, **Suzie Gruner** has found employment in Alexandria, with the United Way of America.

Hot-rodging around the D.C. area in

their twin Celicas, **Kathleen McCarthy** can still be found putting in long hours at Planning Research Corporation, while **Sallie Mae** has enlisted the services of **Beth Stanford**.

Rumor has it that **Theresa**, **Suzie**, **Kathleen** and **Beth** are ready to settle down in the Courts of Tyson. How lucky to have the inseparable trio of **Marsha Fishburne**, **Linda Seiden** and **Andrea Romig**, as neighbors.

Marsha has just finished up a three-week training program for State Farm Insurance in Chicago. Now, it's Linda's turn! Not only did the two reside together for three years, belong to the same sorority and play on the same soccer team at William and Mary, but now they have the same job — here's the clincher — for rival agencies!

Andrea has left **Dian Szczypinski** at George Mason's graduate program in educational psychology for the sandy beaches of St. Maarten to devise her next plan of action.

Marsha, **Linda** and **Andrea** certainly agree with the notion that good, not bad, things come in threes. For that matter, so do **Amanda Meyers**, **Cara Smith** and **Lester Lain**; **Darcy Curran**, **Mike Kalaris** '86; and **Scott Repke** '86, and **Lynn Flaherty**, **Andrea Smeltzer** and **Beth Buzzard**.

Sharing a house in Arlington, **Amanda** is working for the Department of the Navy, while **Lester** acts as an administrative assistant for the American Psychology Association. **Cara** is employed by the Washington Service Bureau in its marketing department.

The infamous Tribe soccer trio of **Darcy**, **Mike** and **Scott** reside in a lovely abode in Alexandria. **Darcy** is in a management trainee program for Ferguson Enterprises. **Mike** works as an accountant, and **Scott** is employed by Carnation Foods. (Although the last two characters are from the class of '86, I included them simply because they thrive on seeing their names in print!)

Finally, **Lynn Flaherty** is employed by Vickers Stock Research at the Securities Exchange Commission. Having recently returned from a training program in Florida, **Andrea Smeltzer** is underwriting for Hartford Insurance. Much to her surprise, fellow classmate **Dave Bond** was also in the program.

The Professional Society Association certainly has **Beth Buzzard** moving about. She has just returned from Paris and is preparing for a trip to sunny Florida.

Beth continues to see plenty of **John Armstrong**, who is presently working as a general contractor in Falls Church.

John's buddy **Don Moser** has shacked up in Richmond with **Mike Walsh** and both are employed by the same accounting firm. **Kim Dillard** is also an accountant nearby.

Joining the William and Mary crowd in Richmond are **Jeanne Sutphin** working for Price Waterhouse; **Kelly Keller**, who recently landed a fabulous job with Circuit City working with computers; and his roommate **Alan Reeves**. Alan has been teaching physics and math in a private school since September.

Congratulations must be extended to **Amy Furr** and **Drew Gilfillan** for their July wedding. The couple round out the crew presently living in Richmond.

Some things never change. **Lynn Flaherty** was still able to inform me of the whereabouts of many classmates.

Cindy Clark and **Cheryl Allen** reside in Bethesda, where **Cindy** is employed by Seidman & Seidman and **Cheryl** works in a museum in downtown D.C. **Cheryl's** other half, **Cheryl Ross**, is with a public television station in Arlington.

First Virginia Bank has recruited classmates **Ed Hohmann**, **Joe Valentino** and **Kim Dority**. (I got it right this time, Kim!)

Meanwhile, **Amy Beauchamp** is employed by Sovran Bank in Richmond, and **Tami Krein** is in Northern Virginia with Crestar Bank.

Daniel Sheehan is working as a legislative correspondent for Congressman Norman Susinsky.

Ross Spicer is employed by the State Department in Washington.

Following the holidays, I ventured down to Washington for a week-long respite and, of course, to attend the Fedewas' sixth annual New Year's Eve gala. Many familiar

NEW MEMBERS JOIN BOARD

Three new members joined the Board of Directors of the Society of the Alumni at the board's semi-annual meeting in February at the Alumni House. Attending their first board meeting since being elected to three-year terms were Dr. Vincent T. DeVita Jr. '57 of Bethesda, Md., Jane Ottaway Dow '55 of Grosse Pointe Farms, Mich., and Lucy Jones Murphy '48 of Manassas, Va. Two other members, J. Edward Grimsley '51, Richmond, and A. Marshall Acuff '62, Riverside, Conn., were reelected to the Board of Directors. Retiring from the Board of Directors were Vernon L. Nunn '25 of Williamsburg, William G. Prince '55 of Norfolk, Va., and Warren E. Winston '73 of Bowie, Md.

DeVita

Dow

Murphy

faces from our alma mater were there.

The most exciting news of the evening was the announcement of the engagement of **Barbara Walters '86** to Lodge 12's **Troy Toth**. Barbara presently resides in Nashville, Tenn., where she has just received a recording contract for her musical composition of "Carry Me." A springtime wedding is in the works and the couple plan to reside in Pensacola, Fla., where second lieutenant Toth will serve in the United States Marine Corps.

Lodge 12's **Mike Donahue**, **Rob Garnier**, **Eric Fedewa**, **Joe Ball**, **Mike Torre** and **Tom Kennedy** were all out to celebrate the occasion. Eric continues to be modest about his great success as a car salesman for J. Koons. Much to my surprise, Joe has been attending Georgetown Medical School since the fall semester began.

Ring in the new year in style were bio-buddies **Tony Kanakry** and **Frank Geoly**. Tony is working for the Environmental Protection Agency and also writing sports for the Fox Network's channel five in Burke.

Frank continues his studies at Virginia Tech's School of Veterinary Medicine with fellow classmate **Joe Davis**.

Unfortunately, bio-buddy, **Sarah Sawyer** was unable to attend. Her graduate studies at the University of Maine have been quite demanding.

While in Washington, I was excited to experience, for myself, exactly how a few schooners in Old Town affect you. A group of alumni, including **Mike Hoess** and **Rich Gunderson**, ventured to the Fishmarket one evening. **Jape Fitzpatrick '84**, head resident of Dupont Dorm our freshman year, was among the William and Mary alumni we ran into!

Dennis Whelan was quick to inform me that he is "living out his fantasy" as Eddie Albert of "Green Acres" by living on a farm in Gloucester, Va.

The future **Dr. Amy Ward** stopped by and claims she is working hard at MCV with classmates **Cathy Ferguson**, **Dan Pieper** and **Greg Holmes**.

Molly Mulquin recently brought me up to date with some of her college cronies. For starters, Molly relocated to Binghamton, N.Y., in July, where she is working in a financial management program with General Electric.

Molly's roomie **Melanie Laz** is back in Florida, after spending the summer in Richmond. She's working as a physical therapy aide and loves the field so much that she'll be attending physical therapy school in the fall.

Susan Winiacki also spent the summer in Richmond before moving to Northern Virginia. She is now employed by the *Potomac Daily News* as a feature reporter.

Mary Ann Eitter, after a four-month sabbatical, is working as an editor for the American Geological Institute in Northern Virginia.

Audrey Edwards and **Bob Rhoad** were married in late May in Hampton. They're living in Boston now, where Audrey works in a cancer research laboratory and Bob joins William and Mary classmates, **Johnny MacGranahan** and **Elaine Frye** at Harvard law school.

I just received a letter from a freshman hallmate of mine, **Margaret Farrell**. Margaret is presently working in Belize City, Central America, as a member of the Jesuit International Volunteers, teaching health science at continuation high school. She claims the culture shock has worn off and she really looks forward to her next 18 months there.

Although she is rather far, Margaret has managed to keep up with a few William and Mary types.

Ellen Sullivan is working at Rachel's Place, a women's shelter/resource center in Washington.

Sharon Varallo is working at a drug/alcohol rehabilitation center just outside of D.C., while continuing her search for a position in advertising.

Karen Wintermute is now married to **Michael Richards**. The couple now reside in Gaithersburg, Md., where Karen works at the National Cancer Institute as a research assistant. Michael attends graduate school at the University of Maryland pursuing a master's degree in philosophy.

Phyllis Wolfteich is teaching social studies at Long Island Lutheran High School.

Rich Lavance joins classmate **Troy Toth** as a second lieutenant in the United States Marine Corps at Quantico, Va.

The sun, sea and surf have attracted a few alumni to the West Coast.

George Stoides has just begun his first semester at California Western School of Law, while **Colleen Bilas** also attends law school in the state.

Melinda Spear has been employed by a law firm in LaJolla.

Soon, **Ron Weber** will be joining these alumni. Although his theory is why not enjoy the weather, why work?

Ironically enough, native Californian **Kay Fanestil** is in Ashland, Va., working in the admission office of Randolph Macon College.

Marie Murphy, vice president of Human Resources, wrote to inform me that the SD Warren Company, a division of Scott Paper, was excited to have William and Mary alumni **Davy Boone** and **Brien Poffenberger** aboard. Neither of the two were aware they would end up working for the same company. Doug and Brien are finishing up an extensive 10-month training program and will soon represent the company in its sales division.

A while back, **George Buckley** wrote me about his whereabouts. George is living on the French border in Saarbrücken, participating in a German Internship Exchange program. Much to his surprise, **Adam Hogge '86** and **Chantal Emerson '86** are also participants in the program, working in Konstanz, Germany. William and Mary alumni, **Patrick Frakes '86** and **Kathy Hecker Frakes '86** have also had the pleasure of George's company in Ansbach, Germany.

Many classmates are furthering their educations in a variety of schools in many different areas.

Fred Ablondies is attending Catholic University while **Suzie Aucella** is in the School of City Planning at the University of North Carolina-Chapel Hill.

Fred Franko is at Columbia University pursuing a doctorate in classical studies.

Remaining at our old alma mater, **Betty Chang** is attending the Marshall-Wythe School of Law.

Homecoming '87 saw the official engagement of **Scott Trimble** to **Janet Aldrich**. Janet wanted everyone to know that she did indeed find a job in her hometown of Philadelphia. The couple plan a June wedding with classmate **Lisa Fraim** in the wedding party. Lisa continues to work in retail in Norfolk, Va.

Lisa Viviano is enjoying her job in Richmond, rarely getting a chance to see **Mary Hazinski** who lives in the same complex.

Through the grapevine, Lisa did hear that **Mark Locke** may soon be employed by Benchmark Computers, the company that employs many.

A few last-minute updates on classmates:

Bob Ross is teaching at a prep school in Connecticut, while **Kim Read** is following wherever her windsurfer will lead her.

If you pick up a copy of *US Magazine*, be sure to check the credits. **Karen Schoemer**, has been employed as a news editor for this national magazine.

Scott Bell has been doing exceptionally well in the world of professional soccer. He is presently wearing the number seven jersey for the Dallas Sidekicks in the MISL.

Michael Clemons played out his first season as a professional football player for the Kansas City Chiefs. If you caught any games on television, you saw that he still wears that familiar number two and played on special teams.

As for me, I am recently recovering from a broken leg and still living all the way up here in icy, snowy and freezing cold New York. Of course, two weeks prior to my immobilization I bought a brand new ski package.

Before I close, I would like to inform all classmates that if you enjoy seeing your name and those of your friends in print write to me and let me know what's new! Our next article is due early April — write now so you'll be included!

VIMS

Mo Lynch
School of Marine Science
College of William and Mary
Gloucester Point, VA 23062

Tom Stauffer M.A. '69 can now add a Ph.D. to his credentials. Tom, a senior research chemist with the U.S. Air Force completed a Ph.D. in marine science in December.

From the group completing requirements in December: **Cliff Ryer** Ph.D. has a postdoctoral appointment at Oregon State University. **Chang Kim** Ph.D. will be returning to South Korea to the Korea Ocean R&D Institute. **Mal Green** Ph.D. will be doing some contract work on shoreline erosion at VIMS while looking for a postdoctoral return ticket to Australia or elsewhere.

Brian Bowen M.A. will be pursuing a Ph.D. in genetics at the University of Georgia. **Doug Huggett** M.A. is working in a North Carolina State University research laboratory.

Finally, the husband-and-wife team of **Steve Skrabal** M.A. and **Tracy Eanes Skrabal** M.A. Steve is working on a Ph.D. at the University of Delaware while Tracy is working for Coastal Design, Inc., in Delaware.

Tappan Banerjee has been appointed chair of the American Fisheries Society Steering Committee for the World Fisheries Conference. Tappan can be reached at NOAA, U.S. Department of Commerce, Room 3130, Washington, DC 20230.

We hope to have the new alumni directory before spring. You'll note we found a few of our missing members.

The latest was **Art Zachary** M.A. '70, Ph.D. '75, who is with the Department of Biological Chemistry, University of Maryland, School of Chemistry. I'm almost willing to bet that Art didn't even know he was among the missing!

The only others missing are **Bob Wong** M.A. '69, **Nancy Windsor** M.A. '77, **Nick Tsimenides** M.A. '71, **Eng Chow Tan** M.A. '62 and **Henry Meyer** M.A. '73. Drop me a line if you have any idea of the whereabouts of any of the missing.

Don't forget to let us know when you move so we can keep your address current.

Grads

Mary Spitzer Etter
486 West Market Street
Harrisonburg, VA 22801

Jean Kumiko Takeuchi M.A. '76 received her Ph.D. in chemistry in Dec. 1987 from the University of South Carolina and is currently doing postdoctoral work at the University of Michigan.

John Robert Fiesta M.B.A. '84 has left the consulting firm of Booz-Allen and Hamilton and joined the firm of Strategic Planning Associates.

Lawrence J. Cumbo Jr. M.B.A. '75 was recently promoted to full professor and appointed chairman of the social sciences division at Emory and Henry College in Emory, Va. He was named to *Who's Who of Emerging Leaders in America*, first and second editions.

Pamela Schaper Cabalka M.B.A. '72 is a regional manager for Software AG of North America (a mainframe software company headquartered in Reston, Va.). Pam and her husband, Rick, have been living in the Minneapolis area for about 10 years and have a 3-year-old son, Blake.

Christian L. Kyrios M.B.A. '85 continues to work for Figgie International in Richmond. At present he is working on a manufacturing plant relocation from Los Angeles to Cleveland.

Holly Steele Osgood M.B.A. '85 is employed by The Woodlands, a country club and real estate development under construction in Falmouth, Maine.

Anita Nolen M.A. '64 is working as a

chivist at the National Reference Center for Bioethics Literature at the Kennedy Institute of Ethics, Georgetown University, Washington, D.C.

Robert Lee Gorham M.B.A. '86 is working as a special projects manager for Rose's Stores, Inc., at their corporate office in Henderson, N.C.

Glenda Elizabeth White M.B.A. '86 has been working as internal auditor at the Department of Internal Audit of the College of William and Mary since Aug. 1986.

Leonard Jefferson Jones Jr. M.B.A. '86 is pharmacy manager of Drug Emporium, Hampton, Va.

Donna Michele McDermott M.B.A. '86 was recently promoted to assistant product manager of hot dogs for Oscar Mayer Foods Corporation in Madison, Wis.

David Hooker Weybright M.B.A. '86 is residing in Kill Devil Hills on the Outer Banks of N.C., working in real estate sales with Coastal Horizons Realty and Construction. If any of you are on the Outer Banks, he would like you to call him at work 919-261-7325 or at home 919-441-0218.

John Gordon Clarke M.B.A. '84 is a product manager for the Mid-Atlantic Division of the Progressive Group Insurance Companies based in Richmond, Va.

Maureen Ann Brille M.B.A. '86 reports she is enjoying New York City and last spring was promoted to corporate finance associate at Chemical Bank in Capital Markets Group.

William Edgar Brown M.B.A. '81 is a federal account manager with the Rohm Systems group of IBM in Vienna, Va. This year will be his sixth consecutive year in the Hundred Per Cent Club.

Thomas Matthews Neal M.B.A. '78 was promoted to one of six managing directors for corporate banking, reporting to the senior vice president for corporate commercial lending at Maryland National Bank. He was previously with the company from 1979 to 1983. He rejoined Maryland National in Jan. 1987, having spent three years at Chase Manhattan where he was vice president manager for the Mid-Atlantic commercial lending team.

James Renni Jr. Ph.D. '78 has been appointed director of administrative affairs at Gary, Stosch, Walls, & Co., P.C. He will be responsible for the financial management of the Richmond-based certified public accounting firm and will supervise the administrative staff.

Chesapeake Corporation, West Point, Va., announced the promotion of **Andrew John Kohut** M.B.A. '83 from group controller-kraft products to senior director-strategic development.

Lisa Flick M.A. '87 put her archeology degree to work last summer in France with the Renaissance du Chateau. She was part of a team of 16 students who excavated sections of a Gallo-Roman villa in the French Alps. Lisa had done excavations in Colonial Williamsburg and was able to compare Old and New World archeological techniques. She is eager to share her experience with past and present William and Mary students.

Michael Hunley DeWitt M.A. '83 of Norfolk, Va., has been appointed eastern operations manager for Sovran Financial Corporation. He has been supervisor of the remittance processing department in Sovran's Royster Building Center in Norfolk since July 1987. Michael has been an instructor of political science at J. Sargeant Reynolds Community College and a teacher and coach at Gloucester High School.

Sarah O. Gunn, vice president of the Toymaker of Williamsburg, received an M.B.A. degree in the executive master of business administration program at the College's School of Business Administration last September. She is a member of the first graduating class of the program, which is a 20-month general management course designed for mid-career executives.

Kenneth Wayne Fitchett M.B.A. '79 has been elected senior vice president for First Virginia Bank's Eastern Operations Center, Inc. He is cashier for the center where he is responsible for managing the financial reporting for the corporation's six eastern region banks as well as the three departments within the cashier's office.

HIGH SCHOOL RETIRES LAYCOCK'S NUMBER

The high school where Tribe football coach Jimmie Laycock '70 excelled in athletics has retired his football jersey. In a ceremony at halftime of a basketball game in February, Loudoun Valley high school in Purcellville, Va., retired number 12, the first jersey to be permanently retired in any sport at the school, where Laycock starred as a quarterback in football and in basketball and baseball in the mid to late '60s. "He was a leader," said Laycock's high school coach and now activities director Lawrence "Bootsie" Leonard. "Jimmie set high goals and worked to achieve them. He was an extremely hard worker, an outstanding person as well as an outstanding athlete." Laycock still holds records at the high school for most passes completed in a game (27), most touchdown passes in a game (six) and most yards passing in a game (364). As a pitcher, Laycock won 14 games and lost only two in his senior season, leading Loudoun Valley to the school's first-ever Northwestern District title. As a basketball player, he led the team in rebounding and scoring in his senior year, averaging around 18 points per game. In the accompanying photo Laycock receives a gift from Leonard who, along with Phil Bolen, Jim Strip and Ronnie Pyle (background l. to r.), coached Laycock at Loudoun Valley High School.

Vital Statistics

BIRTHS

To: Barry James Walsh '63, fourth child, a son, Brian Joseph, Sept. 25, 1987.
 To: Blake T. Newton III '64, a son, Samuel Tyler Blanchard Newton, adopted Dec. 8, 1987, born Sept. 21, 1987.
 To: Kathy Clarke (Van Meter) '68 and Quentin Van Meter '69, second son, fourth child, James, July 16, 1987.
 To: William C. Luebke '68, second child, first daughter, Lisbeth Merry, July 17, 1986.
 To: John T. Morello '70, first child, a son, Anthony John, Sept. 23, 1987.
 To: Michael Doughty '72, third child, first son, Timothy Alling, Jan. 5, 1987.
 To: Penny Quinn (Seaman) '72 and Jim Seaman '70, a son, Nathaniel Quinn, Sept. 25, 1987.
 To: Joy Topping (Unger) '74, second child, first daughter, Jessica Lee, July 4, 1987.
 To: Stephen A. Neal '75, '77 M.B.A., a daughter, Jessica Tate, April 16, 1987.
 To: Lynda Guild (Simpson) '76, second child, a daughter, Morgan Anne, Aug. 29, 1987.
 To: Douglass O. Hill Jr. '76, first child, a daughter, Bethany Elaine, Nov. 21, 1987.
 To: Vicki McKee (Crow) '76, twins, second and third children, John David and Kraig Russell, Aug. 21, 1987.
 To: Pamela Lampert (Kyrios) '77 and Christian L. Kyrios '85 M.B.A., a son, Alexander Christian, May 23, 1987.
 To: Rhonda Apperson (Campbell) '78 and William C. Campbell '76, first child, a daughter, Claire Elyse, adopted Nov. 14, 1987, born May 30, 1987.
 To: William L. Bowles '78 M.B.A., a son, William Andrew, Dec. 20, 1987.
 To: Jane Clemmer (Bromfield) '79 and Edward "Tad" Bromfield III '77, second son, Joseph Clay, June 9, 1987.
 To: Robin McCutcheon (Duncan) '79, second child, a son, Luke Randolph, Sept. 25, 1987.
 To: Nancy Shelton (Clements) '79 and Paul B. Clements '78, '82 M.B.A., first child, a daughter, Kristen Blair, Dec. 4, 1987.
 To: Mary Bateman (Bennett) '80, first child, a daughter, Sara Eileen, July 1, 1987.
 To: Wendy Buehler (TenHoeve) '80, second child, a son, Oliver Edward, Dec. 10, 1986.
 To: Evalyn Gates (Pelander) '80 and Eric Rupert Pelander '78, second son, Jordan Gates, Jan. 13, 1988.
 To: Leslie Lowdon (Reeks) '80, a daughter, Robin Elaine, Sept. 8, 1987.
 To: John J. Short '80 M.B.A., second child, a daughter, Hilary Ann, Aug. 17, 1987.
 To: Rick B. Weitz '80, twins, Joshua Dean and Caleb William, Aug. 23, 1987.
 To: Marie Cruz (Buck) '81, a daughter, Stephanie Marie, July 2, 1987.
 To: Linda Dewitt (Gallagher) '81 M.B.A., a son, Daniel Lawrence, June 30, 1987.
 To: Milissa Reeks (Spring) '81, a daughter, Jennifer Lauren, Jan. 3, 1988.
 To: Murry Unruh (Edwards) '81, first child, a daughter, Margaret Murry, Oct. 2, 1987.
 To: Linda Kramer (Macrae) '82 J.D. and Howard T. Macrae '85 J.D., a daughter, Elizabeth Alexandra, Nov. 17, 1987.
 To: Anne Preston Robertson (Farmer) '82 M.B.A., a son William Page, Dec. 3, 1986.
 To: Cheryl Dow (Baker) '83, first child, a son, Kyle Dow, Sept. 15, 1987.

MARRIAGES

Jacquelin Crebbs '64, '71 M.E.D. and Graham Evans, Dec. 18, 1987.
 Sandra K. Camden '69 and Roger E. McDaniels, Aug. 23, 1987.
 Jane R. Muse '72 and P. Lyman Partin Jr., July 12, 1986.
 John T. Reynolds '73 and Penny Verser, July 25, 1987.

Sylvia A. Lundquist '77 and Douglas Hill, June 6, 1987.
 Alan D. Hilliker '80 and Elissa D. Riznyk, Sept. 12, 1987.
 Carol A. Morris '80 and Brad Settler, June 6, 1987.
 William L. Ruppertsberger '80 and Melinda M. Mace, July 26, 1986.
 Elizabeth Katz '81 and David Hutchens, Dec. 5, 1987.
 Cathy A. Loving '81 and Don P. Staples '81, May 30, 1987.
 Elizabeth E. Tolley '81 and Mark Healy, May 1987.
 Luis H. Navas '82 and Dolores Urcuyo, Oct. 10, 1987.
 Kathryn Mary Whitworth '82 and Richard Francis Knollmann, Oct. 31, 1987.
 Elaine W. Bowden '83 and Anthony S. Durkin '83, Jan. 4, 1986.
 H. Scott Stadler '83 and Diane Elaine Downing, Nov. 28, 1987.
 William Roger Allen '84 and Robin T. Lambert, Jan. 9, 1988.
 Dana Charlotte Enslow '84 and Carl Leslie Hammock, May 16, 1987.
 Julia M. Shen '84, '87 J.D. and Evan H. Farr '87 J.D., May 23, 1987.
 Dorothy B. Kirk '85 and John H. Porter, April 25, 1987.
 Eva Jane Lopdrup '85 and Manuel Enrique Benitez, Jan. 9, 1988.
 Nadine L. McLaughlin '85 and Joseph E. Morgan, Dec. 5, 1987.
 Sandra Sheffield '85 and Gary Ingram, Aug. 1, 1987.
 Holly Steele '85 M.B.A. and R. Bartlett Osgood III, Oct. 9, 1987.
 Tracy Lynne Wolf '85 and William Craig Strickland Dickey, Oct. 3, 1987.
 Erik O. Gilbert '86 and Donna Lee Korff, Jan. 2, 1988.
 Anne E. Gulesian '86 and Peter J. McAteer, Nov. 28, 1987.
 Lisa Ann O'Brian and Michael J. Kelly, Nov. 21, 1987.

OBITUARIES

LLOYD NATHANIEL KING '22 B.S. of Williamsburg, Va., died Dec. 3, 1987. He was a retired commercial fisherman, the last lamp lighter for the Coast Guard on the lower James River and an oyster inspector. He was active in community organizations and his church. Among survivors are a daughter, two sons and a sister, Mary '23.

WILLIAM EDWARD PULLEN '22 of Hollywood, Fla., died Jan. 9, 1988. He later received a bachelor of laws degree from the University of Indiana. He was a member of Theta Delta Chi. In 1926, he began his lifelong career by joining the United States Fidelity and Guaranty Company. Promotions carried him through positions as assistant superintendent of claims, claim superintendent, claim supervisor, executive assistant of the claim department, assistant agency director, vice president, agency director, executive vice president, senior executive vice president and member of the board of directors, president, chairman of the board and finally chief executive officer of the company. Although he retired from active service in 1965, he remained on the board of directors and served as chairman of the board's finance committee until 1970. In 1979, USF&G established the William E. Pullen Professorship in American History at the College of William and Mary with a permanent endowment fund in honor of his distinguished service. He was also active in numerous professional and civic organizations. His career was interrupted by WWII in which he served as a major and finally a lieutenant colonel in the finance division of the Army. He was also chief of the contract insurance division of the War Department. He had served on the board of directors of the Society of the Alumni and was awarded the Alumni Medallion in 1964. Survivors include his wife, Imogeine, a son, John '50, and a granddaughter, Nancy '79.

HOWARD RANDOLPH STRAUGHAN '23 A.B. of Heathsville, Va., died Dec. 18, 1987. As a student, he was a member of the Honor Council and president of the Rappahannock Club. He began a 38-year career with the Bank of Northumberland as an assistant cashier in 1923. He subsequently filled positions as cashier, a member of the board of directors, executive vice president and finally president and chief executive officer. Upon his retirement in 1976, he was elected chairman of the board of directors, which post he held until his death. He is survived by his wife, Alma, a son, Howard Jr. '52, a daughter and two sisters.

MARY AYRES (MONCURE) '25 of Richmond, Va., died May 12, 1985. She was a Kappa Alpha Theta and vice president of her freshman class. Among her interests were public relations and civic and community affairs. Among survivors is her husband, Tinsley.

NANCY RIDLEY PRETLOW (BOZARTH) '26 of Williamsburg, Va., died Jan. 19, 1988. She was a charter member of Kappa Kappa Gamma sorority at William and Mary and served as an adviser to the chapter for 58 years. She was a communicant and historical guide for Bruton Parish Episcopal Church, served as a hostess for Colonial Williamsburg for 35 years and was a member of the Jamestown Society and the Association for the Preservation of Virginia Antiquities. Survivors include a daughter, Nancy Bozarth Hart '48.

KATHERINE KENNON HOLMAN (MACKALLOR) '28 A.B. of Alexandria, Va., died June 14, 1987. She had been a teacher at St. Catherine's School in Richmond, Va., and at the Sharp Health School in Washington, D.C. She is survived by her husband, Lorraine, and two sisters, Margaret H. McCoy '27 and Emma '31.

JOHN LAWRENCE ELY '30 of West Orange, N.J., died Aug. 14, 1987. He studied chemistry and psychology at the College. He had worked compiling genealogical data, as a field parole officer for the state of New Jersey and as a machinist and mechanical parts expeditor for an experimental equipment company. Survivors include his wife, Elizabeth Hugo Ely '31.

GIBSON JERRY PIERCE '31 of Suffolk, Va., died Oct. 6, 1987. He was a retired meat packer for Pierce Meat Packing Company. He was active in his church and community organizations. Surviving are his wife, Mary, four daughters, a son and a sister.

CLARENCE CLIFTON BURNS JR. '33 of Williamsburg, Va., died July 27, 1987. He joined Pi Kappa Alpha as an undergraduate. Among survivors is his wife, Virginia.

MAUD HUNTER NEWBURY (POWERS) '33 B.S. of Clearwater, Fla., died June 30, 1987. At the College, she was a member of Kappa Delta Pi, YWCA and the German Club. She was a retired social worker. Survivors include a sister.

THEODORE EPPS JONES '34 B.S. of Hanover, Va., died Oct. 1, 1987. He majored in biology and education. He was manager of the Wigwam at William and Mary from 1934 to 1945 and also worked for the College's boarding department. Among his interests were gardening, hunting and his church. He was a member of the Order of the White Jacket. He is survived by his wife, Mae.

STEED S. KEELING JR. '34 of Hampton, Va., died May 15, 1987. He was a member of Sigma Phi Epsilon. Survivors include a sister.

FRANCES CREASY (VANSANT) '35 of Williamsburg, Va., died Dec. 12, 1987. She was a retired legal secretary. Among survivors is a sister, Lola '37.

DOROTHY DUNLAP '35 A.B. of Blackstone, Va., died Jan. 8, 1988. As an undergraduate, she was a member of Alpha Chi Omega, the Dramatic Club, German Club, K.O.B., Debate Council, the J. Lesslie Hall Literary Society and YWCA. She worked on the *Indian Handbook* in 1932, and served as managing editor of the *Flat Hat* and assistant editor of the *Colonial Echo* in 1934, treasurer of Theta Alpha Phi, historian of Mortarboard and president of the Board of Control. She was supervisor of the Newport News (Va.) School Lunch Program from 1961 until her retirement in 1976. She is survived by a sister, Anna Dunlap Weatherford '32.

CHARLES SAXTON HARVELL '38 B.S. of Midlothian, Va., died Sept. 23, 1986. At the College, he was active in Lambda Chi Alpha, baseball, the *Colonial Echo*, the literary magazine and YMCA. He is survived by his wife, Amie Cobb Harvell '40, two daughters, Susan H. Carchman '68 and Carol H. Keenan '72, and a brother, James '36.

NANCY DICKINSON JOHNSON (PIDDINGTON) '41 of Kill Devil Hills, N.C., died Dec. 13, 1987. She also attended Columbia University Presbyterian Nursing School. She was a registered nurse and was active in professional and community organizations. Surviving are her husband, Thomas, and a daughter, Anne P. Boggianno '64.

KATHRYN VERRAN BROWN (HARRIS) '43 of Roanoke, Va., died Dec. 11, 1987. At the College, she was active in the German Club, the Women's Glee Club, the Scarab Society, the Royalist and the *Colonial Echo*. She belonged to Delta Delta Delta. Survivors include a son and two daughters.

MARY MARGARET ALSOP (HUBBARD) '45 of Towson, Md., died Jan. 27, 1988. She was a member of Pi Beta Phi. She is survived by her husband, James, four sons, including J. David '77, a daughter and a brother.

JAMES BROOKS WARWICK '46 B.A. of Alpharetta, Ga., died Jan. 4, 1988. He was a member of Pi Kappa Alpha. Surviving are his wife, Marie, a daughter, a son and two sisters.

BILLY WILSON GORE '50 of Fulton, Ky., died June 20, 1987. He belonged to Sigma Pi. He was co-owner of Billy and Ann's Flowerland from 1963 until his retirement in 1980, and was also a Navy veteran of WWII and the Korean War. He was active in community and civic organizations and his church. Survivors include his wife, Ann, and a sister.

ORRIE CLARE ROSADO (STRUBINGER) '52 B.A. of Miami, Fla., died Nov. 30, 1986. A Spanish major, she was also a member of the choir and the Newman Club. Her career with the Dade County Transportation Administration included positions as program analyst, publications editor and manager of special transportation. She had also served as the director and vice president of the League of Women Voters. Surviving are her father, a son, Eric '85, and a sister, Valda '64.

ALLEN B. SINCLAIR '73 M.B.A. of Fairfax, Va., died Jan. 6, 1986. He received a B.A. from Middlebury College in 1955. Following his retirement from a 25-year career in the Army, he became a controller for a Washington, D.C. law firm in 1982. Survivors include his wife, Barbara.

RONALD SELBY SUMMERBELL '75 M.B.A. of Arlington, Va., died Nov. 1985. He received his bachelor of science in 1973. Survivors include his father.

**Presenting:
The
Official
William
and Mary
Executive
Lamp**

The College of William and Mary's Society of the Alumni takes great pride in offering the Official William and Mary Executive lamp to alumni, students, faculty and friends. This beautifully designed Bouillotte lamp bespeaks the highest quality and symbolizes the image of excellence, tradition, and history we have established here at the nation's Alma Mater.

The craftsmen of SIRRICA, Ltd, have created this exquisite 22" hand polished, solid brass desk lamp which will provide lasting style and beauty for generations. William and Mary's coat-of-arms is richly detailed in gold on a black parchment shade. This lamp features a black marble base and centerpiece as well and shall serve as a handsome reminder of your days on the campus and the insuing fellowship, fun, and achievements.

This executive lamp is ideal for an office, writing table or any room in your house. Since you can purchase your lamp directly from SIRRICA Ltd. you can own it for significantly less than similar lamps purchased from custom brass shops.

You are invited to take advantage of this introductory opportunity to acquire this exceptionally handsome lamp which should serve as a source of pride for many years to come.

MAIL ORDERS TO:

SIRRICA, LTD.
POST OFFICE BOX GO

THE COLLEGE OF WILLIAM AND MARY

MARCH 1988

WILLIAMSBURG, VIRGINIA 23185

VOL. 55, NO. 7

WITNESS TO A VANISHING WORLD
See Page 4

Grants and Research Report

When William and Mary was ranked 22nd among the nation's major comprehensive universities in a poll of university presidents conducted by U. S. News and World Report, the magazine noted that the ratings were based not only on excellence in teaching and resources but on the scope of research as well. "These universities," said the magazine, "award more doctorates, perform more research and offer more courses in more subjects than any other colleges in the U.S., if not the world."

That William and Mary, long noted for its excellence in teaching, would be rated as a nationally-prominent research university as well may come to a surprise to many, but not to Dr. David Kranbuehl, associate provost for research at the College. "What William and Mary is about is excellence in education," says Kranbuehl, a professor of chemistry who works with faculty in

seeking research funds. "One part is classroom instruction and another is one-on-one teaching in which students and faculty together address open-ended problems. Education through faculty-student research represents the highest form of instruction."

William and Mary faculty receive grants from a variety of sources, including federal agencies, state and local government, private corporations and private foundations. The grants are a major source of revenue for the College as well as the basis of funding for an expansion of knowledge. The awards represent national recognition by both government and the private sector because they have been competitively evaluated and selected as among the best research and instructional projects in the country. What follows are highlights of the 1986-87 year in research at William and Mary.

1986-87 Highlights

- Expenditures for research and instruction from public and private grants totalled \$7.2 million in 1986-1987, a 4.3 percent increase over 1985-86.
- Expenditures for externally sponsored faculty projects in arts and sciences, business, education and law were in excess of \$3 million in 1986-87.
- Externally sponsored research support at VIMS grew 12 percent in 1986-87.
- Federal, state and private grant support for research and instructional programs is equivalent to an additional \$1,000 per student and represents 10 percent of the total education and general for the university.
- William and Mary averages \$26,800 in research dollars per faculty member, ranking fourth in its 20-member peer group, only slightly behind the University of North Carolina at Chapel Hill at \$30,000; and well ahead of Dartmouth College, \$18,900; Tulane University, \$21,700; and Wake Forest University, \$21,751.
- Approximately one-fourth of the university's faculty members received some support from external agencies for their research interests.
- Over 75 faculty members received compensation, including summer research salaries, from grants.
- Over 200 students received at least partial support from research grant funds.
- Indirect costs included in these awards generated approximately \$250,000 for support of the Summer and Semester Research Grants programs.
- Since 1983-84 there has been an increase of five Summer Grants and four Semester Grants as a result of the faculty's ability to increase the level of external support for research. Thirty-seven faculty members received Summer Faculty Research Grants; and 22 faculty members were awarded Semester Research Assignments.
- Fourteen faculty members received summer course development or seminar fellowships which were funded by endowment income from the National Endowment for the Humanities Challenge Grant which was awarded to the College in 1979-82.

Meeting National Needs

An important dimension of external support is the additional resources these grants provide to William and Mary. These additional resources enable the university to strengthen its activities in areas that are recognized as high priorities at the national and state levels. During the past year, William and Mary was very active in a number of these areas:

Expanding research experiences in the sciences for undergraduate students

- Twelve undergraduate students participated in a special Research Experiences for Undergraduates program in physics funded by a grant to the Physics Department from the National Science Foundation. William and Mary's program was one of 128 research sites funded by NSF in all areas of science, only eight of which were in physics.
- Thirty other undergraduate students participated in research projects in biology, chemistry and physics under grants from the Petroleum Research Fund, Jeffress Memorial Trust and National Science Foundation.

Increasing the number of scientists and the representation of minorities and other underrepresented groups in areas of national need

- During the past three years, 14 minority undergraduate students have spent the summer working closely with faculty and staff at the School of Marine Science. The minority internship program was funded by a three-year grant from the Exxon Foundation with additional funding from the Mississippi-Alabama Sea Grant Program.
- Since 1981, 21 students from minority and other groups underrepresented in areas of national need have received Patricia Roberts Harris fellowships funded by grants awarded to the College by the U.S. Department of Education. These students have obtained advanced degrees in business, clinical psychology, law, marine science, and physics.
- Approximately 150 graduate students received stipends to support their master's and doctoral degree work under grants and fellowships awarded to William and Mary by a number of agencies, including the National Science Foundation, Department of Energy, National Aeronautics and Space Administration, Environmental Protection Agency, and U.S. Fish and Wildlife Service.

Improving instruction at all levels, in the humanities, especially in foreign languages and writing skills

- Thirty-two foreign language teachers participated in the 1987 Tidewater Summer Language Institute designed to improve the language skills of French, German and Spanish secondary school teachers. Participating in the 1986 Summer Institute were 23 French and Spanish teachers from Tidewater secondary schools. Both programs were funded by grants to the Department of Modern Languages and Literatures from the U.S. Department of Education/State Council of Higher Education.
- Twenty elementary and secondary school teachers participated in the 1987 Eastern Virginia Writing Project (EVWP) funded by a grant from the Virginia Foundation for the Humanities and Public Policy to the School of Education. Since the EVWP began in 1979, nearly 150 teachers in grades K-12 have attended the EVWP whose goal is to increase the competency of student writers at all grade levels in all disciplines.
- A Writing Resource Center for William and Mary students opened in the fall of 1987. Major funding for this Center was provided by a 1986-88 Funds for Excellence grant from the State Council of Higher Education.

Increasing the supply of certified special education personnel to overcome the severe manpower shortage in this field

- In the spring, eight doctoral students completed a Special Education Leadership Training program under a three-year grant to the School of Education from the U.S. Department of Education.
- Twelve students are currently enrolled in a master's degree program leading to teacher certification in special education under a grant awarded to the School of Education by the U.S. Department of Education. Since the grant was awarded in 1985, 36 students have participated in the program.
- During the 1987-88 academic year, 40 experienced elementary and secondary teachers will participate in the Peninsula Special Education Institute, a collaborative project between William and Mary and Hampton University. Funded by a grant from the State Department of Education, the program is designed to certify teachers in their current teaching assignment and other areas of special education.

Messmer, Donald J., "A Market Research Study of the Impact of Virginia Welcome Centers," Virginia Division of Tourism, \$19,898 (6/9/87-11/30/87).

School of Education

Adair, Fred L., "Family Counseling Program," Peninsula Area Cooperative Educational Services, \$26,475 (9/1/86-5/31/87).

Gulesian, Mark G., "1987 Eastern Virginia Writing Project," Virginia Foundation for the Humanities and Public Policy, \$30,000 (3/13/87-7/31/88).

Maidment, Robert and Robert J. Hanny, "Manpower Development and Training Service," Virginia Department of Personnel and Training, \$1,710 (5/8/87-5/15/87).

Messier, Louis P. and James M. Patton, "Special Education Institute Planning Grant," Virginia Department of Education, \$5,423 (5/1/87-6/30/87).

Nagle, John M. and Kevin E. Geoffroy, "Elementary School Counseling Program," Newport News Public School Division, \$87,000 (8/16/87-8/15/90).

Prillaman, F. Douglas and Loraine A. Korinek, "Preparation of Special Educators: Master's Degree Program for Training of Teachers of Seriously Emotionally Disturbed Students," Department of Education, \$97,063 (7/1/86-6/30/87), \$98,823 (7/1/87-6/30/88).

Marshall-Wythe School of Law

Butler, Lynda L., "Legal Barriers to Comprehensive Natural Resources Management in Virginia," Virginia Environmental Endowment, \$14,829 (9/1/86-8/31/87).

Levy, John M., "Post-Conviction Legal Assistance Project," Department of Justice, \$4,200 (10/20/86-9/30/87).

Levy, John M. and Lelia B. Hopper, "Juvenile Justice and Delinquency Prevention," Virginia Department of Criminal Justice Services, \$13,131 (7/1/87-6/30/88).

Ott, Judith and Faye E. Shealy, "Indian Education Fellowship Program," Department of Education, \$5,088 (8/25/86-5/12/87).

Rosenberg, Ronald H., "Environmental Law Fellows Program," Virginia Environmental Endowment, \$50,000 (3/1/87-12/31/89).

Rosenberg, Ronald H., "Regionalism and Virginia Land Use Policy," Virginia Environmental Endowment, \$14,436 (9/1/86-8/31/87).

School of Marine Science

Austin, Herbert M. and Mark Chittenden, "Chesapeake Bay Stock Assessment," National Marine Fisheries Service, \$337,724 (7/1/86-6/30/88).

Bender, Michael E., "Analysis of Kepone Samples," Virginia Power Company, \$1,820 (4/15/86-7/31/87).

Bender, Michael E., "Kepone Analysis," State Water Control Board, \$8,250 (7/1/86-6/30/87).

Bender, Michael E., "Sample Analysis," American Petroleum Institute, \$2,883 (8/1/86-8/31/86).

Bender, Michael E., "Sample Analysis from Proposed Dredging Site on the James River Park," \$975 (9/15/86-10/15/86).

Bender, Michael E., "Scotland Wharf Ferry Kepone Analysis," Virginia Department of Highways and Transportation, \$1,409 (5/15/87-8/31/87).

Bender, Michael E., "Sediment Sample Analysis," Maryland Department of Health, \$7,171 (7/1/86-11/30/86).

Bender, Michael E., "Summer Research Aide Program," Virginia Environmental Endowment, \$12,000 (1/1/87-9/30/88).

Bieri, Rudolf, "Pilot Toxics," State Water Control Board, \$213,827 (11/1/86-6/30/88).

Boon, John, "Evaluation of Sediment Dynamics and the Mobility of Heavy Minerals," Virginia Department of Mines, Minerals and Energy, \$23,635 (3/1/87-12/31/88).

Boon, John, "Testing Datasonics Model ASA-920 Sonar Altimeter," U.S. Army Corps of Engineers, \$2,000 (7/10/86-9/8/86).

Chu, Fu-Lin and Beverly Ann Weeks, "Investigation of Acquired Immunity Adaptive Response in the American Oyster," Sea Grant/National Oceanic and Atmospheric Administration, \$35,247 (1/1/87-12/31/87).

Diaz, Robert J., "Equipment Funding for Low Dissolved Oxygen Studies," Sea Grant/National Oceanic and Atmospheric Administration, \$5,590 (5/1/87-12/31/87).

Diaz, Robert J., "Evaluation of Benthic Resources Value of Impounded and Non-Impounded Tidal Creeks/Eastern Shore," Virginia Soil and Water Commission, \$17,000 (12/1/86-6/30/87).

Diaz, Robert J., "Marine Life Sampling," Newport News Shipbuilding, \$6,862 (7/1/86-7/30/86).

Diaz, Robert J. and Linda Schaffner, "Baltimore Channels, Benthic Monitoring," Army Corps of Engineers, \$216,208 (5/17/87-5/17/88).

Diaz, Robert J. and Linda Schaffner, "Fowl River Benthic Profiling," Taxonomic Associates, \$10,800 (5/15/87-12/31/87).

Diaz, Robert J. and Linda Schaffner, "Sediment Profiling, Long Island Sound," Evans and Hamilton, \$18,000 (5/15/87-12/31/87).

DuPaul, William D., "Marine Advisory Services," Sea Grant/National Oceanic and Atmospheric Administration, \$421,006 (1/1/87-12/31/87).

DuPaul, William D., "Sea Scallop Research," Sea Grant/National Oceanic and Atmospheric Administration, \$9,135 (4/1/87-3/31/87).

DuPaul, William D., "Vessel Support Activities for the Mid-Atlantic Seafood Project," \$17,922 (7/1/86-4/1/87).

Ellis, Lehman L., "Cryopreservation of Commercially Important Marine Bivalves Gametes and Larvae," Sea Grant/National Oceanic and Atmospheric Administration, \$29,181 (1/1/87-12/31/87).

Gammisch, Robert, "Side Scan Sonar of Artificial Reef Sites," U.S. Fish and Wildlife Service, \$3,730 (8/8/86-8/8/87).

Grulich, P. Ronald; David L. Gosselin, Roy L. Pearson and Robert A. Whitehorne, School of Business Administration; **Richard L. Kiefer**, Department of Chemistry; **Kelly G. Shaver and John B. Nezek**, Department of Psychology; **John Usher**, Project Director of CEBAF Technology Transfer Grant, "An Entrepreneurship Center at William and Mary," Center for Innovative Technology, \$9,097 (2/1/87-11/30/87).

Hardaway, Scott, "Joint Commonwealth Programs Addressing Shore Erosion in Virginia," Virginia Soil and Water Commission, \$95,780 (7/1/86-6/30/87).

Hardaway, Scott, "Virginia Breakwater Marsh Study," Virginia Department of Conservation and Historic Resources, \$3,511 (4/1/87-6/30/87).

Hargis, William J., "Fish Pathology Studies," Sea Grant/National Oceanic and Atmospheric Administration, \$18,000 (3/1/87-12/31/87).

Hargis, William J., "Histopathology of Eye Tissues of Indigenous Fish," National Marine Fisheries Service, \$4,500 (8/19/86-10/31/86).

Hargis, William J., "Ulcerative Disease Syndrome Committee," Sea Grant/National Oceanic and Atmospheric Administration, \$735 (5/1/87-12/31/87).

Hershner, Carl and Jim Perry, "Endangered Plant Survey," Virginia Natural Heritage Program, \$1,800 (5/27/87-11/30/88).

Hershner, Carl and Richard L. Wetzel, "Forested Buffer Zones," Virginia Soil and Water Commission, \$32,957 (12/1/86-6/30/87).

Hobbs, Carl H., "Fossilized Oyster Shell, Pocomoke Sound," Virginia Marine Resources Commission, \$33,625 (2/1/87-6/30/87).

Hobbs, Carl H. and R. Berquist, "Offshore Heavy Minerals Investigations," Virginia Department of Mines, Minerals and Energy, \$118,581 (7/1/86-6/30/87).

Huggett, Robert J., "TBT Analysis," Department of the Navy, Weyer/Livesey, \$13,800 (3/15/87-9/30/87).

Huggett, Robert J., "TBT International Conference," Johns Hopkins University, \$10,000 (10/1/86-10/31/86).

Kator, Howard I., "Shellfish Pathogen Indicators," Technion International, Inc., \$31,496 (7/7/86-9/30/87).

Kator, Howard I. and Martha W. Rhodes, "Bacterial Counts in Shellfish Growing Area," National Oceanic and Atmospheric Administration, \$28,650 (10/1/86-9/30/87).

Kimball, Suzette, "Interpersonnel Agreement," Army Corps of Engineers, \$8,536 (4/30/87-4/30/88).

Kimball, Suzette, "Sand Resource Exploration," City of Virginia Beach/Erosion Council, \$51,240 (6/15/87-6/15/88).

Lawrence, Lee F., "The Bay Team," Council on the Environment, \$150,000 (7/1/86-6/30/88).

Lawrence, Lee F., "Marine Science Mentorship Program," Virginia Department of Education, \$4,924 (6/15/87-7/31/87).

Lipcius, R. N., "Ecology of Juvenile Spiny Lobster and Conch at Lee Stocking Island-Bahamas," Caribbean Marine Research Center, \$8,600 (1/1/87-12/31/87).

Lipcius, R. N., "Experimental Ecology of Spiny Lobsters in the Mexican Caribbean," State University of New York, \$12,535 (3/15/87-3/15/89).

Lipcius, R. N., "Interactive and Non-Linear Effects of Predation," National Science Foundation, \$80,936 (4/1/87-9/30/89).

Loesch, Joseph G., "Mark and Recapture Study of Striped Bass in the James River," National Marine Fisheries Service, \$50,380 (5/1/87-4/30/88).

Loesch, Joseph G., James Colvocoresses and William Kriete, "Striped Bass Abundance in Virginia," National Marine Fisheries Service, \$119,568 (8/1/86-7/31/87).

Loesch, Joseph G. and William Kriete, "Assessment of Commercial Fishing Effort in Virginia," National Marine Fisheries Service, \$26,600 (11/1/86-10/31/87).

Loesch, Joseph G. and William Kriete, "Striped Bass Stocking Experiment on the Pamunkey River," U.S. Fish and Wildlife Service, \$27,316 (3/1/87-2/28/88).

Lucy, Jon A., "Catch Trends in Offshore Recreational Fishery," U.S. Fish and Wildlife Service, \$32,265 (8/8/86-8/8/87).

Lucy, Jon A., "Evaluating Catch Data on Artificial Reefs," U.S. Fish and Wildlife Service, \$23,920 (7/29/86-7/29/87).

Lynch, Maurice P., "Cooperative Agreement/Graduate Student," Scientific Environmental Associates, \$9,274 (10/1/86-9/30/87).

MacIntyre, William G., "Sorption, Organic Mixture Components," Air Force Office of Sponsored Research, \$35,000 (6/1/87-5/31/88).

Mann, Roger, "Chuckatuck Creek Survey," Virginia Department of Highways and Transportation, \$3,500 (5/15/87-8/31/87).

Mann, Roger, "Influence of Low Oxygen Tension on Oysters," Sea Grant/National Oceanic and Atmospheric Administration, \$21,999 (9/1/86-12/31/87).

Mason, Patricia, "Inspection of Styrofoam Samples," Huntsman Chemical Corporation, \$1,800 (7/1/86-To Be Announced).

Meehan, Brian W. and Herbert M. Austin, "Stock Identification Using Electrophoretic Analysis," U.S. Fish and Wildlife Service, \$202,805 (7/29/86-11/30/87).

Musick, John A., "Ecology of Sea Turtles in Virginia," Virginia Commission of Game and Inland Fisheries, \$53,000 (7/1/86-6/30/87).

Musick, John A., "Empress Study/Sea Turtle Census," University of Maryland Center for Environmental and Estuarine Studies, \$10,000 (4/25/87-7/31/87).

Musick, John A., "Stock Identification, Flounder Mark and Recapture," U.S. Fish and Wildlife Service, \$104,845 (8/8/86-10/30/87).

Neilson, Bruce J., "Bay Monitoring," Environmental Protection Agency, \$240,114 (10/1/86-11/30/87).

Neilson, Bruce J., "Buffer Zones, Marine Flushing," Virginia Department of Health, \$90,000 (12/1/86-6/30/88).

Neilson, Bruce J., L. D. Wright and R. J. Huggett, "Salt Pond Survey," Southall Development, \$10,000 (6/1/87-12/31/87).

Nichols, Maynard M. and Robert J. Diaz, "Plume Monitoring of Rappahannock and York Spit Channels," Army Corps of Engineers,

\$177,000 (4/7/87-12/31/88).

Norcross, Brenda L. and Herbert M. Austin, "Characterization of the Relationship between Seasonal Wind Regimes and the Recruitment of Croaker and Flounder," Sea Grant/National Oceanic and Atmospheric Administration, \$19,082 (1/1/87-12/31/87).

Orth, Robert J., "Distribution of Sub-Aquatic Vegetation," National Oceanic and Atmospheric Administration, \$6,000 (10/1/86-9/30/87).

Orth, Robert J. and Jacques Van Montfrans, "Value of Shallow Water Habitats for Early Stages of Blue Crab," Sea Grant/National Oceanic and Atmospheric Administration, \$46,326 (1/1/87-12/31/87).

Roberts, Morris H., "TBT Bioassay," Johns Hopkins University, \$50,000 (9/1/86-3/31/87).

Roberts, Morris H. and Robert J. Diaz, "Historical Environmental Survey of Broad Creek, Norfolk, Virginia," MMM Design Corporation, \$10,000 (3/5/87-8/31/87).

Schaffner, Linda, "REMOTS and Trawl Survey, Duck, North Carolina," Army Corps of Engineers, \$12,362 (9/16/86-12/31/86).

Silberhorn, Gene S., "Remote Sensing Analysis of Coastal Wetlands in the Chesapeake Bay Region," Martin Marietta Corporation, \$7,980 (8/86-11/7/86).

Theberge, N. Bartlett, "Erosion and Sediment Control Evaluation," Smith, Demer and Norman, Inc., \$4,660 (11/1/86-6/10/87).

Webb, Kenneth L., "Is Phosphorous Removal an Efficient/Effective Chesapeake Bay Management Practice?" National Oceanic and Atmospheric Administration, \$45,000 (10/1/86-9/30/87).

Wetzel, Richard L., "Response and Stability of Eelgrass Communities in Chesapeake Bay," Sea Grant/National Oceanic and Atmospheric Administration, \$22,326 (1/1/87-12/31/87).

Wright, L. D., "Bed Response of Mid-Shoreface to Wind Events," National Science Foundation, \$65,197 (1/15/87-12/31/88).

Wright, L. D. and Betty Salley, "Sediment and Water Sample Analysis," Alpine Seismic Corporation, \$5,849 (5/1/87-7/31/87).

Office of Student Affairs

Hardy, Carroll F. and W. Samuel Sadler, "Student Leadership Development Conference," State Council of Higher Education for Virginia, \$3,000 (1/6/87-6/30/87).

Hardy, Carroll F. and W. Samuel Sadler, "Virginia Student Transition Program," State Council of Higher Education for Virginia, \$50,969 (7/1/87-6/30/88).

Irish, Edward, "College Work Study Program," \$148,886; "Pell Grant Program," \$272,850; "Perkins Loan Program," \$96,745; "Supplemental Educational Opportunity Grants," \$66,366; Department of Education (7/1/87-6/30/88).

Other

Greene, E. Kenneth, Office of the Treasurer, "State Graduate Fellowship Program," State Council of Higher Education for Virginia, \$34,000 (7/1/86-6/30/87).

Holmes, Carolyn C., Ash Lawn-Highland, "Ash Lawn-Highland Summer Festival," Virginia Commission for the Arts, \$4,000 (7/1/87-10/30/87).

Johnson, Mark M., Muscarelle Museum of Art, "Muscarelle Museum Gallery/Studio Program," Williamsburg Arts Commission, \$3,400 (7/1/87-6/30/88).

Reed, David, Computer Center, and **Henry Krakauer**, Department of Physics, "Connection to NSFnet," National Science Foundation, \$20,000 (4/1/87-9/30/88).

Expenditures for Grants and Contracts 1986-87

Arts and Sciences	\$2,442,420
Business Administration	59,309
Education	219,933
Law	78,723
Marine Science	3,277,842
Student Affairs	918,259
Other (public service, library, museums, business affairs)	203,887
TOTAL	\$7,200,373

Sponsored Programs Expenditures

Sources of Funds 1986-87 Expenditures

Faculty Fellowship Awards

Faculty of Arts and Sciences

Anthropology

Kerns, Virginia, May Seminar Fellowship: The Rationality of Science, The College of William and Mary.

Sutlive, Vinson, Summer Residency Fellowship, Virginia Center for the Humanities.

Biology

Aceto, Henry, Jr., "Response of DU-145 Human Prostate Cells to Radiation and Hyperthermia," William and Mary Summer Research Grant.

Bradley, Eric L., "Body Temperature and Reproductive Inhibition," William and Mary Summer Research Grant.

Fashing, Norman J., "Ecology of Mites Restricted to Water-Filled Treeholes," William and Mary Summer Research Grant.

Terman, C. Richard, "Delayed Puberty in Female Deermice: Factors Influencing Recovery from Reproductive Retardation," William and Mary Summer Research Grant; Travel Grant, National Science Foundation.

Chemistry

Abelt, Christopher J., "Synthesis and Catalytic Properties of Bis-cyclodextrins," William and Mary Summer Research Grant.

Djordjevic, Cirila, "Peroxo Complexes of Vanadium and Molybdenum," William and Mary Summer Research Grant.

Jones, Tappey H., "An Investigation of the Exocrine Chemistry of Certain Ants, Ophilinids and Thrips," William and Mary Summer Research Grant.

Keifer, Richard L., Summer Fellowship, National Aeronautics and Space Administration/American Society of Engineering Education.

Knudson, Stephen K., "Semiclassical Analysis of Vibrations in Three Dimensions," William and Mary Summer Research Grant.

Orwoll, Robert A., "Transitions Entropies of Liquid Crystals," William and Mary Summer Research Grant.

Classical Studies

Oakley, John H., Travel Grant, American Council of Learned Societies.

Computer Science

Morell, Larry J., Summer Fellowship, National Aeronautics and Space Administration/American Society for Engineering Education; Travel Grant, National Science Foundation.

Economics

Elliott, Catherine S., Arts and Sciences Course Development Grant, "Competing Theories of Individual Decision-Making," The College of William and Mary.

Finifter, David H., "American Indians: A Less Developed Economy Within the U. S.," William and Mary Summer Research Grant.

Garrett, Martin A., Arts and Science Course Development Grant, "Southern Economic History," The College of William and Mary.

Haulman, Clyde A., May Seminar Fellowship: The Rationality of Science, The College of William and Mary; "Wealth Holding in Southern Cities 1860-1870," William and Mary Summer Research Grant.

Roberts, Bruce B., "Modes of Production: How Many? and Which?," William and Mary Summer Research Grant.

English

Auslander, Phillip B., "Avant Gardism, Popular Culture and Politics in Postmodern Performance," William and Mary Summer Research Grant.

Braxton, Joanne M., "Friends: John Greenleaf Whittier (1807-1890), 'The Great Poet of Hu-

manity,' and Charlotte L. Forten (1837-1914), Black Woman Writer," William and Mary Summer Research Grant.

Donaldson, Susan V., "Reluctant Visionaries: Stories and Storytellers in Modern Southern Literature and Painting," William and Mary Summer Research Grant.

Fehrenbach, Robert J., "An Analysis of the Bacon Family Library (Folger Ms. L.D. 776)," William and Mary Summer Research Grant.

Hart, Henry W., "The Poetry of Seamus Heaney," William and Mary Summer Research Grant.

MacGowan, Christopher J., "The Collected Poems of William Carlos Williams, Vol. 2, 1939-1962; and a Study of Four of His Poem Sequences," William and Mary Summer Research Grant.

Meyers, Terry, "An Edition of Further Letters by Algernon Charles Swinburne," William and Mary Summer Research Grant; 1987 Summer Stipend, National Endowment for the Humanities.

Taylor, Talbot J., "A Critical Introduction to Linguistic Concepts," William and Mary Summer Research Grant; Semester Residency Fellowship, Virginia Center for the Humanities.

Wiggins, Peter D., Arts and Sciences Course Development Grant, "Self-Deception and Literature," The College of William and Mary.

Wolf, S. George, 1987-88 Fellowship for College Teachers and Independent Scholars, National Endowment for the Humanities.

Fine Arts

Chappell, Miles L., Research Grant, Samuel H. Kress Foundation; "The Drawings of Lodovico Cigoli and the Baroque in Florence," William and Mary Summer Research Grant; Travel to Collections Grant, National Endowment for the Humanities.

Jack, Marlene K., "A Study of Ceramic Objects from France and Italy and the Development of a Series of Contemporary Works-in-Progress," William and Mary Summer Research Grant.

Kornwolf, James D., "Colonial North American Architecture—A Book: The Glorious Revolution and William and Mary—Exhibit and Catalog," William and Mary Summer Research Grant; 1987-88 Canadian Studies Faculty Research Grant, Canadian Embassy/Ambassade du Canada.

Geology

MacDonald, R. Heather, "Diagenesis of the Upper Yorktown Formation Southeastern Virginia," William and Mary Summer Research Grant.

Government

Clemens, Clayton M., "Public Opinion and Foreign Policy in the Federal Republic of China," William and Mary Summer Research Grant.

Dessler, David A., "The Implications of Lakatos' Methodology of Scientific Research Programs for International Relations Theory," William and Mary Summer Research Grant.

Edwards, Jack D., "Adjusting Local Boundaries Through Annexation," William and Mary Summer Research Grant.

Smith, Roger W., "Human Destructiveness and Politics: Essays on Genocide," William and Mary Summer Research Grant.

History

Clark, Peter, 1986-87 Fulbright Travel Award.

Ekirch, A. Roger, 1987-88 Fellowship for College Teachers and Independent Scholars, National Endowment for the Humanities; Summer Residency Fellowship, Virginia Center for the Humanities.

Ewell, Judith J., "Venezuela and the U. S.: Relations Between Caribbean Neighbors, 1770-1986," William and Mary Summer Research Grant.

Hoak, Dale E., "Henry VIII's Secret Treasury at Westminster Palace," William and Mary Summer Research Grant.

McGiffert, Michael H., "Covenant and Culture: Early Modern Britain and America," William and Mary Summer Research Grant.

Sherman, Richard B., "The Case of Odell Waller: The Trials of a Black Sharecropper and of Virginia Justice, 1940-1942," William and Mary Summer Research Grant.

Mathematics

Johnson, Charles R., Travel Grant, North Atlantic Treaty Organization.

Kincaid, Rex K., "The Design of Material Handling Systems for Flexible Manufacturing," William and Mary Summer Research Grant; Travel Grant, National Science Foundation.

Schaefer, Margaret K., "Cyclic Queueing Networks of Repairable Spares," William and Mary Summer Research Grant.

Modern Languages and Literatures

Cox, R. Merritt, "Traveler-Writers In Eighteenth-Century Spain," William and Mary Summer Research Grant.

Greenia, George D., May Seminar Fellowship: The Rationality of Science, The College of William and Mary.

Houle, Martha M., Short-Term Fellow, William Andrews Clark Memorial Library, University of California at Los Angeles; Summer Seminar, National Endowment for the Humanities.

Kelley, E. Morgan, Arts and Sciences Course Development Grant, "Pre-History and Linguistics," The College of William and Mary.

Mather, M. Clare, "The Play of Serge Rezvani Re-viewed: Painterly Theatre from a New Realist Perspective," William and Mary Summer Research Grant; Arts and Sciences Course Development Grant, "Francophone African Theatre," The College of William and Mary.

Monson, Don A., "Andreas Capellanus, Scholasticism, and the Courtly Tradition," William and Mary Summer Research Grant.

Ramazani, Vaheed K., Camargo Grant, Camargo Foundation.

Music

Gutwein, Daniel F., "Computer-Music Composition: Using the Frequency Modulation Algorithm to Create Rhythmic Analogs of Timbre," William and Mary Summer Research Grant.

Philosophy

Cobb, William S., Arts and Sciences Course Development Grant, "Eastern Philosophy," The College of William and Mary.

Harris, James F., May Seminar Fellowship: The Rationality of Science, The College of William and Mary.

Knezevich, Lily, May Seminar Fellowship: The Rationality of Science, The College of William and Mary; Summer Seminar, National Endowment for the Humanities.

Physical Education

Sherman, Carol W., "Choreography and Light Design: An Interactive Collaboration," William and Mary Summer Research Grant.

Physics

Carlson, Carl E., Travel Grant, North Atlantic Treaty Organization.

Delos, John B., Visiting Fellow, Joint Institute for Laboratory Astrophysics in Boulder, Colo.

Krakauer, Henry, "Development of a Linearized-Augmented-Plane-Wave (LAPW) Method for Isolated Clusters and Molecules," William and Mary Summer Research Grant.

Psychology

Galano, Joseph B., "Preventing Unwanted Adolescent Pregnancy," William and Mary Summer Research Grant.

Nezlek, John B., May Seminar Fellowship: The Rationality of Science, The College of William and Mary.

Rosen, Ellen F., "Personality and Eating Habits," William and Mary Summer Research Grant.

Religion

Holmes, David L., Semester Residency Fellowship, Virginia Center for the Humanities; "The Episcopalians," William and Mary Summer Research Grant; Travel to Collections Grant, National Endowment for the Humanities.

Tabor, James D., "Choosing Death in Greco-

Roman Antiquity," William and Mary Summer Research Grant; May Seminar Fellowship: The Rationality of Science, The College of William and Mary; Travel to Collections Grant, National Endowment for the Humanities.

Tiefel, Hans O., "Issues at the Beginning of Human Life: Conflicting Mathematics," William and Mary Summer Research Grant; May Seminar Fellowship: The Rationality of Science, The College of William and Mary.

Sociology

Kreps, Gary A., "Studies of Organization and Role," William and Mary Summer Research Grant.

Theatre and Speech

McConachie, Bruce A., "American Theatrical Experience and the Growth of Consumer Culture, 1820-1900," William and Mary Summer Research Grant.

School of Business Administration

Brazelton, Julia K., "Equity: The Effects of Tax Reform on Progressivity," William and Mary Summer Research Grant.

McCray, John H., "A General Bayesian Audit Risk Model," William and Mary Summer Research Grant.

Strong, John S., "Trying Affiliations and Antitrust Policy," William and Mary Summer Research Grant.

Wyer, Jean C., "Excellence in Audit Education," Coopers and Lybrand Foundation.

Zaki, Ahmed S., Summer Fellowship, National Aeronautics and Space Administration/American Society of Engineering Education.

School of Education

Galfo, Armand J., "How Do 'Peace Studies' Affect Secondary Pupil Perceptions of the NATO-Warsaw Pact Confrontation: A Study of the West German Experience," William and Mary Summer Research Grant; Travel and Research Grant, Fulbright Kommission, Federal Republic of Germany; Travel and Research Grant, U.S. Institute of Peace.

Garland, William E., Jr., "Common, Everyday Black Life in Hampton, Virginia, 1860-1870," William and Mary Summer Research Grant.

Politano, P. Michael, "Multidimensional Assessment of Loss," William and Mary Summer Research Grant.

Thelin, John R., "Fiction to Fact: The American College Novel as History," William and Mary Summer Research Grant.

Wheeler, Ronald C., "Effects of Attribution Training and Cooperative and Competitive Reward Structures on the Achievement, Achievement Attributions and Attitudes of High and Low Performance Elementary/Middle School Students Engaged in Problem Solving Activities," William and Mary Summer Research Grant; Summer Study Tour to Japan, Mid-Atlantic Regional Japan in the Schools (MARJIS) Program of the United States-Japan Foundation.

Marshall-Wythe School of Law

Barnard, Jayne W., "Corporate Loans to Management: Will the Real Beneficiary Please Stand Up?" William and Mary Summer Research Grant.

Fischer, Emeric, "Who's on First? Banks' Incursions into Insurance and Vice-Versa: Financial Disaster in the Offing?" William and Mary Summer Research Grant.

LaBel, Paul A., "The Uncompensated and Undercompensated Victims of the Intoxicated Driver," William and Mary Summer Research Grant.

Palmer, Robert C., "Oliver Wendell Holmes and Constitutional Rights," William and Mary Summer Research Grant.

Schaefer, Elmer J., "Explaining the Paradox of Blackmail," William and Mary Summer Research Grant.
