

Mr. Austin.

I want you to make my money of Tompkins's \$6, without delay - Summons if necessary, by Tompkins & Thos. D. Patterson, who knows all the facts of any halting the goods for them, and it was also understood by them, as well as all others that the price for every thing was to be 1/2 per hundred - I understand he says salt is not goods, neither is whiskey, Cider, wine nor Rum. This is a trifling difficulty, and I cannot see how any Magistrate could hesitate to give me a judgment. If he is willing to pay for liquors \$6 why not pay for salt. Suppose all his halting had have been salt which is the heaviest of loading, at 1/2 per cut and he had objected to pay me the price on account that it was salt, this would not have changed the bargain at all for every article was to be 1/2 per cut.

write to me Rockbridge City
Blue ridge Dam.

Yours

E. H. Mosely
