

1857

University of Virginia March 6. 1857

Mr John Austin of Amherst County Virginia matriculated in the medical department of this institution at the commencement of the session on the 1st of October 1850 & continued in the diligent & successful performance of all his duties as a member of the medical class for a term of about four months when he was constrained to withdraw from the school on account of disease of a grave character induced in part, it is believed by too close application to his studies. Throughout the period of his continuance with the school his deportment was in the highest degree commendable.
