NOTES FOR HISTORY.

① The floor space actually used as class rooms in each college. (Answer this question in your report.)

② Was class room space efficiently utilized?

③ What is the minimum amount of space which would have been sufficient to accommodate the enrollment in the college on which you are reporting?

④ Itemized list of all laboratory equipment. State in this list whether or not articles were a part of the property of A.E.F., or had to be purchased for university use solely.

TEXT BOOKS:

⑤ Was there a sufficient supply of text books. ⑥ If not state where supply was deficient. ⑦ Did text books provided meet the requirements of the courses offered.

EXPENDABLE SUPPLIES:

⑧ Was there a sufficient quantity of expendable supplies such as pencils, paper, note books, sketch paper, drawing paper, ink, etc.? ⑨ How were these supplies obtained - by purchase or by requisitions from army supplies?

FACULTY:

⑩ Was there a sufficient number of teachers provided in the college you are reporting upon to afford opportunity to students to get instruction in a manner similar to that given in the average college?

STUDY ROOMS:

⑪ Were ample study rooms provided so that students could avail themselves to the fullest extent of time of periods prescribed for study? In answering this question, state whether facilities were ample for the study period from 8 to 9:30 in the evening, as well as during the college periods of the day.

⑫ State in what way the University may have been lacking in equipment or opportunities which are ordinarily provided by regularly established institutions of higher learning.

⑬ Make separate lists of property that was actually issued and that remaining in store houses.

NOTES FOR HISTORY.

1 The floor space actually used as class rooms in each college. (Answer this question in your report.)

2 Was class room space efficiently utilized?

3 What is the minimum amount of space which would have been sufficient to accommodate the enrollment in the college on which you are reporting?

4 Itemized list of all laboratory equipment. State in this list whether or not articles were a part of the property of A.M.P., or had to be purchased for university use solely.

TEXT BOOKS:

5 Was there a sufficient supply of text books? If not state where supply was deficient. 6 Did text books provided meet the requirements of the course offered.

EXPERIMENTAL SUPPLIES:

7 Are there a sufficient quantity of expendable supplies such as pencils, paper, note books, sketch paper, drawing paper, ink, etc.? 8 How were these supplies obtained - by purchase or by requisition from any supplier?

FACULTY:

9 Are there a sufficient number of teachers provided in the college you are reporting upon to afford opportunity to students to get instruction in a manner similar to that given in the average college?

STUDY ROOMS:

10 Were ample study rooms provided so that students could avoid themselves to the fullest extent of time of periods prescribed for study? In answering this question, state whether facilities were ample for the study period from 8 to 9:30 in the evening, as well as during the college periods of the day.

11 State in what way the University may have been lacking in equipment or opportunities which are ordinarily provided by regularly established institutions of higher learning.
