

Dear Sir

Cameron Gable

Mr. Hutchison has been about 3/4 found
less difficulty in getting of from the people,
than what he expected: it remain, then, ~~with~~
~~me~~ ~~write~~ on the method, by which the expence
is to be jointly borne by us: I expect to be
equal with you, & for the greater ease of Both
would propose that Mr. Hutchison and the
Children of each should be boarded year &
year about: I will take them first, if you
prefer it, or otherwise, if it is a matter of
indifference: to you, it would be more suitable
to me to take them next year. First, because
I as yet know not, whether I shall be able
to get a Subconprison here, and Secondly if I
^{can} get firmly settled here, that I may have an
Opportunity of building a better School
house

than what we have at present. If I leave this
place I expect to go below, where I shall have
a larger house, & more conveniences, but all
this is yet in doubt, and depends on the people
of this Parish, whether they will make me see
such a Subscription as I can live by or not.

If any thing more proper or
suitable occurs to you, you'd please to mention
it to *J. P.*
