

Lexington 17th Sept 1785

My Dear Colonel

I am just inform'd by Capt.
Rust that he is setting off this day
for Fauquier I have therefore not time nor
convenience of writing you fully therefore
you must only look upon this as a small
token of Remembrance in Drue^d your
favour by Mr Harrison, but previous to
its coming to hand I had a House erected
on your Plot in Order to save it, except the
chimney, the River has chiefly been over the
Quarry which has prevented the Chimney from
being finish'd. I am under no apprehensions
from Campbells claim - I have not been
at Louisville since May last & ~~therefore~~
can't tell well how matters go on there

I inclosed your Caution of. to Col. Pope (the
Sheriff of Jefferson) with directions to inform
me concerning its Execution. but I can never
hear any thing from him - No Law pro-
ceedings are carried on here occasioned by
the Savages murdering Walker Daniel Esq.
our Att. Gen. of the only Lawyer (besides my-
self in this Country. - fortunately for me
(as I now think) that I was confined by a
dangerous inflammation on my Throat for
near two Months. or I should have been with
him and probably shared the same fate, as
did a Gentleman one Mr Keithly who was along
and the Clerk of Jefferson wounded. The
Savages have murdered upwards of a Dozen in
the Course of the Spring and taken some
prisoners - their signs are frequently seen
and a number of Horses stolen, I shall
go to Jefferson the last of this Month

and will write you about what I
shall find to be done. I saw Mr
Hate a few weeks ago. all well

I wrote to Jefferson concerning Mr Bullitts
Land. and find it Registered but whether
it is any part on my Account I know
not.

I must stop! Adieu my Dear
Colonel believe me to be with
sentiment respect
