Oh if you cou'd see my emaciated
frame - and know what I suffer you wou'd
write a last line to me - Every current
of natural affection in my heart was im-
peded in its course - I was turned,
unsheltered, on the world - To encoun-
ter the revenge of those who had
sought me as an instrument by which
they hoped to regain your favor -
Then urged to come here as a cheap
residence - Let dejected pity prompt
you to say I am forgiven -

Received Decr 18 1807 from A.C.R.

Colleagues you are fine off & on
there was a report & talk about the amount
of horses feed, and it did have a time
indeed feed you in which I wanted to
believe it does & it is being
done so. Good

but not worth
the trouble & trouble as for horses
most are right as they get feed
feed is as bad now as before and
beginning of the Collected fed
meat of horses & for it may
go on with the same result
