Here, my ever Dear Sir, is your Friend - much delighted with all she hears and sees - I cannot forbear saying a word or two as I am so near you - never did any sound delight me half so much as Jack's public speaking - Your brother was kind enough to call on us - we were unreluctantly out - but - as soon as the rain ceases, I shall go, with my husband, to return his visit -

Oh! my Friend! Happiness such as mine now is - makes me feel as if I had really entered another world - it appears impossible such opposite extremes should await one in the same world -

God bless you - M - M -
