

data will May 23. 1828

Dear Sir

I have the pleasure to send you by Mr. Pearson, a copy of my memoirs, which I wish you & your sons to peruse, knowing that you take an interest in my welfare.

Mr. Moore intends to make a visit to N. York soon, to stay some weeks, with our Governor & our daughter & 4 children. Her health has been delicate, & we think that the journey, & the society of our family there, will be useful to her. She wishes me to accompany her, as do all the family. This is not decided. We shall do every way to be happy to you, being very sincerely Dear Sir yours -
James Moore
