Wearst Jo's

Such girl who ever thought  
you would write the letters you  
do. If I didn't get a letter before Wednesday  
I was going over the hill and nearly beat  
you around. That's the truth. I love  
that girl, but sometimes she makes me  
so - o - o mad.

No darling I have no one to blame  
but myself for the last two weeks. I  
should of written to you ever day. I didn't  
find out what a letter means until I nearly  
got a dose of my own medicine.

Dave is out again so I'm hear by  
my lonesome. I have to get mated up  
tonight because I have to go to school

lately tom morrow. then the train ride  
to you.

I'm looking forward for the week I can  
spend with you when I get my leave. I  
hope the the next two weeks spent by so  
I can be with you once again.

Darling I love you so. Can't I have  
you for ever and ever. When you love  
someone you would go to hell and back  
for them. That's what I've been told.  
And I would do just that. Well tomorrow  
I'll be looking into the brown eyes of  
you once again. Holding you close to  
me. That is one thing I always look  
forward to. I'll say good nite and may  
god have mercy on us

yours forever
