Genelle Dispensary
17 me de l'Arve - 15[¢]

About Oct 20th - Chantas to
Mrs Mall - 2 juoch the
Evangelical Mission at
17 me de l'Arve had a
Ecole de Garde of about 125 -
Children - 9 a Mothers Meeting
each Wednesday of about
150 women - I was
impressed by the tone, I felt
that most of the women

Use of the small company
of workers or production class.
Which is the one depending
most at the moment - as
the main operations are
early large wages - & the
Profits are paid for by the
State & many private charities.

The Building at Fenelle is
a moderate sized 1 story place
with an excellent court yard
for playground. It is
stands the former presbytery

into a tiny garden - which
was empty - I opened
I learnt by Mr McCall
Monsieur Grep - the Pastor
in charge of the work
described by the Mission
opened the use of the house
to the Red Cross -

The regular Pastor - Messrs
Galbraith is employed - & his
wife has in his absence carried
the burden of both the school
& the Mission - & done it with
bravoure & devotion & fore -

I went over to Linnæ
2 kept at a certain time
found to make of it -
Send a report in to Dr
Linnæ - opening of the Red
Cross fund for the
services of a good brother
Innocent - of a doctor Linnæ
each week in the afternoon -
Certain necessary letters, char
2 beds - with coal and 2
sugar - I would get 2

equip the larvae & run it
for 3 months - They
finally allowed me this -
I began to cope with the
tough preparation -

No time is easy to find now
in Hawaii - Calam lead of
all - but by dint of struggle -

I kept advice from Mr

Gallum - I succeeded in
getting the larvae separated
from top to bottom - Pleasing
put down also - curtains

in the commons - Nyo,
Cecilians, Hawks - Cypripedium
Chairs - China, Glass,
Catherine Camp - Emma makes
open to cuts & pens - all
the leached detritus of a
Luna - Miss Lopez
The Luna was very green
in color but at all the right
kind - so I protested -
? they gave me
Miss Emma Beas - who

I should have a wire book
to herself - She has every
quality in the world - but
she does not speak any
French - so every thing had
to be interpreted - She
Red + doctors - had just
repaired me a doctor - then
allured me - as an opponent
of Helen Woodroffe -
They did not want me to
have the same air in the

l'homme - je n'ai pu le voir
deux fois il l'aurait allé
à presser ces choses - Louis
Bears felt as I did that
her being a justice of
peace was a great matter -
so we put it length - 2
Main - My little maid -
Mary Ann's cousin I was
found in a perfect home
à tout faire - Josephine -
descend as "à un certain

age - of disease "

She: Miss Beas could not
understand a single word
the other said - but they
could each other - & began
at once to do things for the
orphans - Mrs. Corning's
name Bassett - who had
helped me in every way
helped the two - for I
could learn geography in her
hands - We had

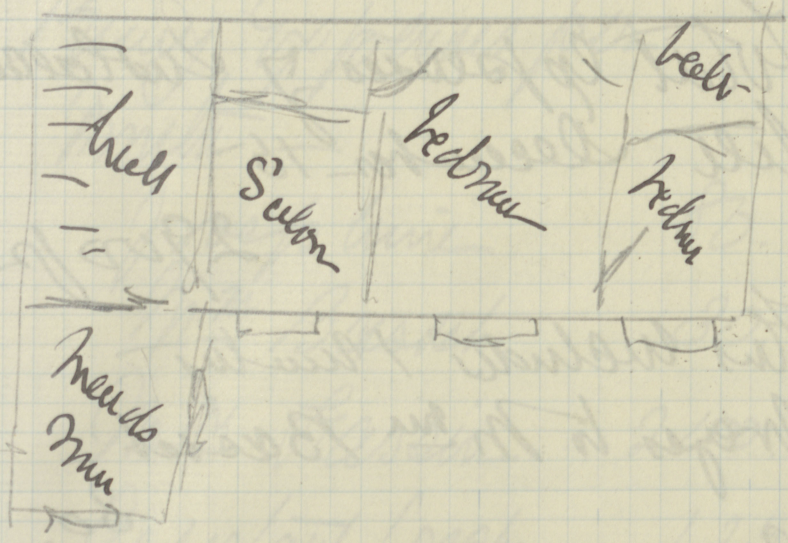

Already had the door
In 2 chairs in the living
room of the museum - hope
we really moved in on
December 15th - The
dispensary of things only came
3 weeks later - but the
might be absolutely necessary
9 completed & destroyed 2
visited everyone who came -
The boxes were left 2

Clean - & really pretty -
The crew in ends of packs -
but at least we were alerted -
The Red Cross doctors were
Diplomatic & uninterested -
but I know that the need
was there - & if Miss Beers
& Dr. Woodruff had a
chance they would meet
it - well -

The plan of the time &
expense of installation plans

D

Water

A large garden - walked
 with long 2 shrubs - 2
 open paths in centre -

Total expenses of Insalata
till December 15-

2900/-

This includes 1 month

Wages to M^{rs} Bassett -

30.-

Provisions for doctor 400.-

Total maintenance

3 people

Lunch daily 3-people -

Cash 5 to 10 daily -

Sea water food 2 Jan -

in 4 to 5 daily -

quots of tea -

Priny Expenses per
Month -

Josephine 80. -

M^m Bassett 30. -

M^m Hassen 200. -

Assistant Creeks - 125. -

Food etc for

Mrs Beach - 100. -

Assistant Nurse

Mrs Dale - 100. -

M^m Hassen 2

Aids - 1 Nurse

Children 1 maid.

By December 30th we
were going full time to the
clinic & steadily building our
orders - In necessary materials
in the dispensary came gradually -
Coal we had - & supply from
the Red x - They let us buy
& charge immediate necessities -
& I filled in all the cracks -
We had Manual Aunts in the
lunches - Complete chairs &
kitchen things - Josephine had
turned out an excellent one

I
is
to
th
up
es

2 we began to Lata Chudien
in the day in the morning -

A fine fine Capote girl -

Mamma Dale came in as assistant -

& Cora with Miss Beas -

About Feb 25th we engaged

M^{rs} Hassin to help with

visits & investigation - she

is quite splendid - Then

the Red Cross suddenly woke

up to our success & tried to equali-

ties - They had given us

On Cons per week of the
Pope's Scout - Miss Young
Dr. Brown whom the children
love to go to - 2 nurse & a
maid as a specialist in boat
matter Dr. McDonald -

We will have an extra Irish
Nurse - Miss Read - who is
only 20 years old - & a Celtic
French Protestant Superior who
works with her - Miss Fry
is engaged also a Celtic
girl in the nursery - & a Co

And
my
m
als
oot
by
is
t
les
Fry
Thun
to

have her later from having told
a fine red stone from at a
depository Creech & museum -

We are also working with
Dr Margaux social worker

Mme / 2 on whom

Dr Honchi also from the "Clinique
Hospital Hospital des Enfants Malades"
sent to us - We send even

Red cases to them or to the Hospital
de la Petite or the Necker -

I try to be a clearing house 2
Centre of education & Comp

rather than ~~believe~~ a
Claim - We are looking to see
Milk "Tons" & "Tons" for meat -

This Bear is Camp French -
& the whole atmosphere of the time
is ~~decent~~ happy & full of
work - 17 me de Claire

is of course getting to be known &
because the Red Cross come over

now - people are beginning to beg
and grasp - The Red X

sent us with the proper amount of
supplies - so we decided with

the
see
us
has
the
act
the
keep
can
less
go

The Commerce Department - 2

steel tracks about 1500 pages
worth beside - it was the

same story of waste & incompetence
through ignorance - I did us
actual harm in the quarter -

I have been able, through being
then to do a lot of side things -
keeping "pains" honest & so
could have been reached & perhaps
lessy some money that just
gave you for it -

The Centre Inc de l'Arre, was
ferry passed the week of the
No. 1000 - The first lectures
in snow track - they are still
also in middle ages - but it
is always full of cheap. Also
dogs - 2 gay little slaying birds.

Also comes very from very expensive
people whom the trees has pushed
to exhaustion - though fine solid
working members of 4 or 5 - or
often of many little ones on left -
down to very poor indeed -

The children are very weak & pale -
120 very much weak - The
Koch's type in Paris of tuberculosis -
I come around with all the proper
diagnoses - often to have the case
of cases of jaundice diagnosed as
worms - The doctors here
inhabits - & are almost all under-
fed & too much crowded in sleeping.
There is too much left in Paris now -
I had my car but he found it for
about people - The French pay
no rents & the refugees have an
elaborate system of debt collection -
Greyer has some sort of car

allocation - The rule is
4 for a mother & 1 for each
child - but it is hard to fit
the mother camp - in case
later - & is often an incentive not
to work - They are
allowed also in "charges" of
or censurable members of the
family - It is very important
& dependent to understand - but
no one has enough to be very complete.
& get no one complaints -

in management quite -

A man of 28 starting all this after -
his wife's death - When he died -
usually at 45 - an intimate friend
cannot be on -

3 - Certain things in books for men -
Reviews - journals in past - other period
had practical work a separate journal
Reviews and early in charge - who
Could handle the things class spending
(kept class to No 2 -

Just then to day in year
weaving their way of cloud but
not touch by fire - air, space
of movement - as to human -

A separate group to change habits in
Catholic over-habit notes - a pm
old man in charge - human encouraged
to move & keep habits - of all stars
down the river -

See Christian Department on other side
can be said in half by parent & half
by younger in aged 1/2 - 15 frames
back - for month -

Thermap - made 4 to 8 cm each
epidemic - well suited & arranged -

The chloromancy also - not so good

Repte National Orgs.
78/13me - Orgs.

50 women - no notes - (and in p
2 months ago agreement - sent to
grademly 2 followed up at

graduate level - to create them to
keep their notes - they should be
provided 2 not clear - 9 in no way

cm - Cita & 2 letters - March the
with person - head was

Formalium Comity - head was
the general office - (Doubt)

2. Civil National

Passage Review, the France

and some particular person -

John Franco from the National

Johnny 2 is allowed his 3 hours
for the child - the other keep
27 - 2 more than before 10 - 20

that he will not be allowed more -
of also decide the other things
of felt sharp - 2 also then spread
his permission at the center - to
keep the reaction clear with the child.

How good and they say 4 to 5
for months - hold at present 12 in

optics in - find reason & the reason
press - "not to expect the father"

was this in a "pencil" part -

The first thing was so well you -

in presentish with in case - 2

of each - Gray Cloud played
each morning - 9 o'clock up to
noon each night. A walk or
run in the park each day - about
Friday the 10th day of February -
A gymnastic class with music -
2000 atmosphere of happiness & health.
This was with 2 choruses &
recreation club - the music and the
the program - had 60 hours
been done for months - the money
as brought out out to the country - where
the gymnastic class - 2 choruses
worked in the gymnasium every day are
played - by the father to

Denote calculus over in every hour -
in all 2577 make a day - then
to a particular element - pay within
a particular time who have not fit
are that - the maker for part of
excellent quality -
Drops are ingrained - also they
early etc. form - with large part -
light & clean & gray - they take
Dishes over 2 1/2 - 1 drop hour - brought
color & appearance - they are
exceedingly red - saved in both thicken
shell - in various ways found -
formation in hops in grain - with a
good science with & large weight found

This is installed in an order

Erma - 3rd floor & show well

keep observations - left a shaver

felt that water (warm) in bit

a level to each man - air, 1 no

level - a certain with essentially

good time - then that level in

them - This is probably - 2

they also find water in the men - 2

that by looking perhaps how they

have they to take with a thin steam

2 are also kept only machinery -

2 are also kept only machinery -

2 are also kept only machinery -

of them to turn to - 2 are also kept only machinery -

2 are also kept only machinery -

Sergent Carter's

74 me day at Proctor's

at the Proctor's from every where -

part from with wet moccas here on

on better the poles another can be

read a new record how to the study

teacher experience - other day

"Sergent's" or object - with long

present with account case in their

temporarily - there are kept in town

if they have with a relative in the

books - others named at in the

coming with the notes degree or

the father's names back from the way -

or with they from it a couple times

105 pages on the file -

Takes in baby with mother -

The problem in the paper is a good
type - the character very clear -
Lipman - 1 contribution all right -
There are two types of formations
- as in a line -
Lipman must be changed because
the center.
