*[Faint, illegible handwritten text, likely bleed-through from the reverse side of the page.]*

This ought rather to be called a  
List of Bonds taken by W. C. for  
benefit of W. M. Coker, and is one  
means of shewing how he applied  
the money collected by him -

The accountant, in order to have  
shewn accurately the state of W. C.'s  
affairs, - ought to have stated those bonds  
which came into his hands when he  
qualified to the office of Barrister, and then  
have stated what of pine, timber, other  
had been sawn -

1845  
The first of the year  
was a very cold one  
and the snow lay  
on the ground for  
many weeks. The  
winter was very  
long and the  
spring was very  
late. The summer  
was very hot and  
the autumn was very  
early. The year  
was a very  
interesting one.
